Enquiry Concerning The Principles Of Morals

Enquiry Concerning The Principles Of Morals:

An Enquiry Concerning the Principles of Morals David Hume, 160-01-01 DISPUTES with men pertinaciously obstinate in their principles are of all others the most irksome except perhaps those with persons entirely disingenuous who really do not believe the opinions they defend but engage in the controversy from affectation from a spirit of opposition or from a desire of showing wit and ingenuity superior to the rest of mankind The same blind adherence to their own arguments is to be expected in both the same contempt of their antagonists and the same passionate vehemence in enforcing sophistry and falsehood And as reasoning is not the source whence either disputant derives his tenets it is in vain to expect that any logic which speaks not to the affections will ever engage him to embrace sounder principles Those who have denied the reality of moral distinctions may be ranked among the disingenuous disputants nor is it conceivable that any human creature could ever seriously believe that all characters and actions were alike entitled to the affection and regard of everyone The difference which nature has placed between one man and another is so wide and this difference is still so much farther widened by education example and habit that where the opposite extremes come at once under our apprehension there is no scepticism so scrupulous and scarce any assurance so determined as absolutely to deny all distinction between them Let a man's insensibility be ever so great he must often be touched with the images of Right and Wrong and let his prejudices be ever so obstinate he must observe that others are susceptible of like impressions The only way therefore of converting an antagonist of this kind is to leave him to himself For finding that nobody keeps up the controversy with him it is probable he will at last of himself from mere weariness come over to the side of common sense and reason

An Enquiry Concerning the Principles of Morals David Hume, 2019-11-19 In *An Enquiry Concerning the Principles of Morals* David Hume delivers a profound investigation into the nature of morality seeking to uncover the foundation of our ethical beliefs Employing a clear and systematic literary style Hume adeptly integrates empirical observation with philosophical analysis arguing that moral judgments stem from human sentiments rather than divine commands or rational deduction The work is framed within the broader context of the Scottish Enlightenment reflecting Hume's engagement with contemporary philosophical debates particularly those concerning reason emotions and the social contract David Hume 1711-1776 a luminary of Enlightenment thought was profoundly influenced by the intellectual currents of his time including skepticism about religion and the emphasis on human experience His background as a historian and essayist enriched his philosophical inquiries particularly regarding how human customs and interactions shape moral principles Hume's exploration of the connection between feelings and ethical judgments is indicative of his larger epistemological framework which challenges the primacy of reason in moral philosophy This book is essential for anyone seeking to understand the complexities of moral reasoning Hume's elegant prose and insightful arguments make it accessible and engaging for both scholars and general readers By examining the interplay between sentiment reason and morality Hume compels us to reconsider our own moral frameworks and the

foundations upon which they stand *An Inquiry Concerning the Principles of Morals* David Hume, 1957 A splendid edition Schneewind's illuminating introduction succinctly situates the Enquiry in its historical context clarifying its relationship to Calvinism to Newtonian science and to earlier moral philosophers and providing a persuasive account of Hume's ethical naturalism Martha C Nussbaum Brown University *An Enquiry Concerning the Principles of Morals* Hume, 1751

naturalistic account of morality at least to the extent that it is something that is common among the human species He writes The final sentence it is probable which pronounces characters and actions amiable or odious praise worthy or blameable depends on some internal sense or feeling which nature has made universal in the whole species EPM 1 8 But whether in the end Hume purports to provide a normative ethical theory rather than a merely descriptive theory of moral psychology is a contentious issue among Hume scholars *An Enquiry Concerning the Principles of Morals* ,1751 **An Enquiry**
