Ensayos Escogidos:

Ensayos escogidos Michel Eyquem de Montaigne, 2006-05-09 Este copioso denso y variado libro inaugura un nuevo género literario el ensayo En sus páginas la sabiduría de Montaigne es sobre todo inteligente discreción Su perspicacia llega a nosotros por un camino estremecido como vacilante La mezcla de esa aparente incertidumbre y del rigor con que Montaigne plantea adivinaciones importantes hace que lo natural del tejido literario nos atrape con esa fuerza con que solo cautivan en la literatura y en la vida las experiencias que nos elevan El autor nos convence paso a paso de que lo que normalmente suele llamarse complicado no es sino la consecuencia del desconocimiento personal Las formas y el tono confesional con que están escritos los ensayos sirven para combatir lo complicado y demostrar que la riqueza del hombre en la medida en que esta exista no permite nunca la presunción sino cierta y muy definida seguridad el hombre es rico por diverso por posible

Leguía mark a formative period of Peruvian modernity witnessing the continuity of a process of reconstruction and the development of an intellectual and cultural tradition after a humbling defeat during the War of the Pacific 1879-1883 But these years were also fraught with conflict generated by long standing divisions and new rivalries A postwar generation of intellectuals and artists led by José Carlos Mariátegui and galvanized by left wing thinking and an avant garde aesthetic sought representation in the fields of politics and the arts to realize the modernizing potentialities opened up by a Positivist oligarchy New political and artistic conceptions raised their awareness of the fractured sense of nationhood in Peru and the need for a new project of nation formation based on a common political and cultural consciousness Crucially this gave rise to divergent political and

Kabbalists was in opposition to the ontological conception sustained by the Inquisition and in opposition to Cartesian rationalism on which the Inquisition based its juridical practice of inquiry and producing the evidence of truth. The disseminating nature of Jewish thought was an obstacle to the efforts of the Inquisition to consolidate a single absolute cosmogony. Latin America Mauricio Tenorio-Trillo, 2020-02-06 Latin America is a concept firmly entrenched in its philosophical, moral, and historical meanings. And yet Mauricio Tenorio Trillo argues in this landmark book it is an obsolescent racial cultural idea that ought to have vanished long ago with the banishment of racial theory. Latin America: The Allure and Power of an Idea makes this case persuasively. Tenorio Trillo builds the book on three interlocking steps: first, an intellectual history of the concept of Latin America in its natural historical habitat; mid-nineteenth century redefinitions of empire and the cultural, political, and economic intellectualism; second, a serious and uncompromising critique of the current Latin Americanism which circulates in United States-based humanities and social sciences; and third, accepting that we might actually be stuck with Latin America. Tenorio Trillo charts a path forward for the writing and teaching of Latin American history. Accessible and forceful, rich in historical research and specificity, the book offers a distinctive conceptual history of Latin America and its many connections and intersections of political and intellectual significance. Tenorio Trillo's book is a masterpiece of interdisciplinary scholarship.
