Laxmi Narain, 2005 A number of public enterprise PE executives have long felt the need for a book which would provide necessary information and analysis of various dimensions of PE management and privatisation The book provides at one place a precise and authoritative account of the concept policy and analysis of major issues confronting PEs Public ownership

per se does not make PE performance sub optimal The operation of the Government system of which PE is a sub system has not been conducive to performance During the last six decades inadequate political will and vested interests have come in the way of freeing PEs from excessive and throttling controls and demoralising accountability Not letting the managers manage with the freedom required in the liberalised and globalised set up is the problem The multifarious and complex managerial problems of PEs which get compounded by faltering moves towards privatisation cannot be wished away These have been considered in the book at some length The book first published in 1980 continues to be a standard work on the subject This latest edition has been revised by Dr R K Mishra Director Institute of Public Enterprise Hyderabad Public and Private Enterprise in a Mixed Economy William J.
