P. Hoogervorst, 2009-02-19 Achieving enterprise success necessitates addressing enterprises in ways that match the complexity and dynamics of the modern enterprise environment However since the majority of enterprise strategic initiatives appear to fail among which those regarding information technology the currently often practiced approaches to strategy development and implementation seem more an obstacle than an enabler for strategic enterprise success Two themes underpin the fundamentally different views outlined in this book First the competence based perspective on governance whereby employees are viewed as the crucial core for effectively addressing the complex dynamic and uncertain enterprise reality as well as for successfully defining and operationalizing strategic choices Second enterprise engineering as the formal conceptual framework and methodology for arranging a unified and integrated enterprise design which is a necessary condition for enterprise success Jan Hoogervorst's presentation which is based on both research and his professional background at Sogeti B V aims at professionals in management and consulting as well as students in management science and business information systems      **Open Source Strategies for the Enterprise** Simon Phipps, 2012-07-12 So you're thinking of creating an open source community around your code Here are some things you ought to know before you make your plans too firm Community Types There is no single open source community Rather there are many groups of people

gathered around many free software commons Those gatherings are themselves of several different types you really need to understand those differences Payment at the Point of Value Open source is of course free software But the freedom you're finding brings you value varies depending on the role you play with respect to the software Free doesn't mean the same to everyone Open Core Is Bad For You The open core business model is popular with VC funded startup companies but does not deliver the core freedoms from which lasting business value for customers is derived Transparency and Privacy The key success factor in an open source community is the equality of all the participants A strong community is characterized by high levels of transparency about the project coupled with strong respect for the privacy of the participants Read why you should not impose your business model on anyone
