Environmental Transformation and its Acceleration in Nepal: From Known History to the Contemporary Situation Medani P. Bhandari, 2025-08-12

This is an in depth exploration of Nepal's environmental journey tracing its transformation from ancient practices to modern sustainability challenges. Drawing from over four decades of experience as an environmentalist and humanitarian, Dr. Medani Bhandari takes readers through the historical, social, and ecological shifts that have shaped Nepal's environmental landscape. This comprehensive work examines the complex interplay between traditional knowledge, policy development, and global environmental trends, offering valuable insights into the country's past, present, and future. This is a critical resource for understanding the environmental challenges faced by Nepal, a country rich in natural resources but confronted with the pressing issues of deforestation, water scarcity, and climate change. The book provides policymakers, researchers, NGOs, and environmental advocates with a framework for fostering sustainable practices that are both contextually relevant and globally applicable. Readers will see a detailed examination of Nepal's environmental transformation, a roadmap for accelerating sustainable practices, and a call to action for local and global stakeholders. This book is an invaluable resource for anyone seeking to understand Nepal's environmental evolution and the broader implications for sustainable development in the global context.
