Environment And Tourism:

Environment and Tourism Andrew Holden, 2000 For many people holidays are an increasingly central feature of contemporary western society The tourism industry has expanded rapidly since 1950 but this book poses the significant question of consequent environmental impacts are environments being benefited or damaged by the tourist who visit them A well balanced introductory text this topical book on the relationships between tourism society and the environment examines tourism and environment in detail and gives a historical overview of the growth of the tourism industry It discusses how the tourism industry markets physical and cultural environments to be consumed by the tourist and the consequences of the tourism they then attract It explores how the economics of tourism can be adopted in a positive way to aid conservation whether the concept of sustainability can be applied to tourism provides a critique of the new forms of tourism that have developed in recent years An extensive range of international case studies from both the developed and developing world are used to illustrate the theoretical ideas presented and to aid the student it includes end of chapter summaries further reading guides and boxed vignettes focusing on contemporary environmental issues and debates

Environment and Tourism

Andrew Holden, 2000 Considers the relationship that exists between tourism society and the environment It discusses how the tourism industry markets environments and suggests ways in which the economics of tourism can be adopted to aid conservation

Tourism and the Environment Colin Hunter, Howard Green, 1995 This volume provides a research based overview of the relationship between tourism development and environmental quality The concept of sustainable tourism is examined as a prelude to a detailed treatment of the principles and implications of sustainable tourism development The authors look at policy directions with new forms of alternative tourism analysed in this context The volume then proceeds to consider the potential of land use planning and Environmental Impact Assessment systems as instruments in the translation of sustainable tourism development into practice Conventional forms of interpretation are questioned and the efficacy and transferability of different systems are evaluated Examples from around the world are used to illustrate the principles discussed This volume will appeal to students and researchers in tourism as well as to professionals in the tourism industry

Tourism, Recreation, and Sustainability Stephen F. McCool, R. Neil Moisey, 2008 This book is designed to illustrate many of the issues and approaches associated with sustainable tourism development policy and research Included are case studies of tourism development using both quantitative and qualitative methods analytical frameworks for managing tourism and chapters addressing critical questions about the relationship between tourism and sustainability goals As a whole the book demonstrates the many dimensions and topics associated with attempts to address the complex issues associated with sustainability and tourism Added in this second edition are several new chapters that address emerging issues in management of tourism Part I Frameworks and Approaches discusses the need for integration of social and environmental

issues in tourism development Part II Tourism and Place explicitly recognizes the importance of understanding the values and attributes of areas that become tourist destinations Part III Emerging Issues in Culture and Tourism illustrates that we live in a dynamic world that what was once acceptable is no longer that our mental models of tourism development are in constant change and that researchers and policy makers must be alert to shifting public values and beliefs This part includes material on local attitudes poverty alleviation indigenous people and tourism and a discussion about culture and tourism The book has 16 chapters and a subject index

Environment and Tourism , Environmental Issues of Tourism and Recreation Zbigniew Mieczkowski,1995 This text discusses the environmental impact of tourism and recreation It is divided into three parts environmental impacts on tourism and tourists the positive and negative impact of tourism on the natural environment and suggestions on how to minimise any unfavourable effects

The Routledge Handbook of Tourism and the Environment Andrew Holden,David A. Fennell,2013 This handbook explores and critically evaluates the debates and controversies inherent to tourism s relationship with nature especially pertinent at a time of major re evaluation of our relationship with the environment as a consequence of the environmental problems we now face

Polar Tourism Bernard Stonehouse,John Snyder,2010 Tourism throughout the world raises environmental issues that are often concerned with conflicting rights and responsibilities the inherent right of mankind to travel the no less inherent right of indigenous people to guard their environmental heritage and the responsibility of governments local national or in the unique case of Antarctica international to protect environments over which they exercise stewardship Additionally the presence of international commercial enterprises especially marine and other mass transport modes represent unique governance challenges This book deals mainly with environmental issues and the management implications arising from polar tourism one of the fastest growing sectors of world tourism However many of the issues discussed here arise no less urgently in temperate and tropical wilderness areas and indeed in any region where sensitive environments are subjected to mass tourism The principles and guidelines discussed here are of interest and practical use in tourism studies generally Readers of this book embark on a stimulating journey into the world of polar tourism With a focus on management aspects and environmental implications the intricacies of polar tourism are discussed in an educated and thoughtful manner Further conceptual background is provided on wilderness and cultural tourism to enable an informed assessment of the framework within which polar tourism operates A powerful concluding chapter applies the technique of Multiple Resource Management Planning to polar tourism This book is a valuable resource for students academics and policy makers alike Daniela Liggett Gateway Antarctica University of Canterbury New Zealand

Tourism and Environment F. D. Pineda,2013-10-16 The contributions contained in this volume deal with two perspectives of tourism and environment the role of the environment in tourism and environmental tourism The same message would be expected in both cases The environment comprises the set of biophysical and cultural events surrounding us and influences the activities developed depending on time and site Among the environmental

characteristics of a region climate is usually the most relevant and conditions almost all other components Climate defines much of the natural as well as the urban cultural landscape and the countryside of an area Seasonal environmental change affects the life and culture of each place and largely explains the choice of destination of travellers Environment and landscape therefore give rise to an interesting and varying relationship over the year Thus coastal landscapes are not inherently more beautiful in summer than in other seasons but environmental conditions cause a greater demand in this season Certain places in the world captivate visitors who flock to them in large numbers Local people recognize the benefit of this employers become interested in the economic aspects and so the tourism infrastructure develops The appeal of good climate has led to a change from a rural subsistence culture to a lucrative services economy in some areas Unfortunately however in many cases short sightedness and corruption can lead to the ruin of the natural landscape Situations like this are now common throughout the world due to the environmental mismanagement of tourism Local populations within emerging tourism based economies should learn this lesson The papers included in this volume address important issues related to tourism and the environment and offer a better understanding of some of the current challenges

Tourism Development and the Environment: Beyond Sustainability? Richard Sharpley, 2009-09-02 Tourism Development and the Environment Beyond Sustainability challenges the sustainable tourism development paradigm that has come to dominate both theoretical and practical approaches to tourism development over the last two decades It extends the sustainable tourism debate beyond the arguably managerialist blueprint and destination focused approach that continues to characterise even the most recent sustainability agenda within tourism development Reviewing the evolution of the sustainable tourism development concept its contemporary manifestations in academic literature and policy developments and processes the author compares its limitations to prevailing political economic socio cultural and environmental contexts He then proposes alternative approaches to tourism development which nevertheless retain environmental sustainability as a prerequisite of tourism development This book also acts as an introduction to the Earthscan series Tourism Environment and Development About the series Tourism Environment and Development aims to explore within a variety of contexts the developmental role of tourism as it relates explicitly to its environmental consequences Each book will review critically and challenge traditional perspectives on sustainable tourism development exploring new approaches that reflect contemporary economic socio cultural and political contexts

The Global Political Economy of the Environment and Tourism G. Kütting, 2010-07-16 This book examines how local and global environment society relations play out in coastal communities dependent on tourism for economic survival It analyzes the consequences of social and economic policies on remote areas and makes a case for studying the role of environmental values in global environmental governance

consequences of social and economic policies on remote areas and makes a case for studying the role of environmental values in global environmental governance

Sustainability of Tourism Metin Kozak, Nazmi Kozak, 2011-07-12 The subject of sustainability has become central to the discussion of how to succeed in the stable development of the tourism industry due to the uncontrollable nature of supply and demand over the past few decades Thus this book examines policies and practices associated with the introduction of various methods in order to maintain sustainable tourism development The list of policies and practices is based on a selection of the most recent topics providing many real world examples and cases in relation to culture and nature based environmental issues representing both individual businesses and tourist destinations with an international focus namely Australia Belgium Bulgaria Canada Portugal South Korea Taiwan Turkey and the USA Structured with 15 chapters altogether the principles and guidelines discussed apply equally to different product levels in tourism such as museums cities regions and countries This volume is intended as a supplementary textbook for further reading The editors believe that the book will gain attention from colleagues worldwide because of relevant educational courses on sustainable tourism environmental tourism and cultural heritage management

Nature Tourism Tensie Whelan, 1991 Nature Tourism provides practical advice and models for planning and developing a nature tourism industry evaluating economic benefits and marketing nature tourism Using examples of successful nature tourism programs in Kenya Costa Rica the United States and elsewhere the book examines the roles of government and the private sector explores nature tourism's potential as a tool for developing countries and outlines ways for local residents to get involved

Tourism and the Environment, 1991-01-01

Tourism vs Environment P.P. Wong, 2012-12-06 P P Wong ABSTRACT Tourism is environmentally dependent The unique character of coastal areas gives rise to a distinctive tourist development Although accounts on the impacts of coastal tourism can be found in works relating to tourism in general there are few works specifically on coastal tourism This present volume focuses on the physical environment of coastal tourism particularly the geomorphological aspects The papers deal with basic aspects of the coastal environment for tourism methodologies for assessing the coastal environment for tourism and empirical studies of various types of coastal environment with tourism development The resulting generalisations are expected to be applied elsewhere

TOURISM AND ENVIRONMENT Environment has various meanings for tourism In its broadest sense the environment includes all natural and cultural elements as in OECD's 1981 definition to encompass the natural built and cultural aspects This holistic approach is encouraged in understanding the potential impacts arising from tourism A narrower meaning of environment is the natural and built environment as used by Cohen 1978 and Inskeep 1991 339 Environment can also be restricted to the natural or physical environment in order to distinguish it from the economic and social aspects of tourism as used by tourism researchers e.g. Mathieson and Wall 1982 Pearce 1989 This approach is used predominantly in this volume Various relationships between tourism and the physical aspects of the coast are discussed There are basic relationships between environment and tourism Tourism is environmentally

dependent and the environment is vulnerable to the impact of tourism *Religious Tourism and the Environment* Kiran A. Shinde, Daniel H. Olsen, 2020-09-30 The remarkable growth in religious tourism across the world has generated considerable interest in the impacts of this type of tourism Focusing here on environmental issues this book moves beyond the documentation of environmental impacts to examine in greater depth the intersections between religious tourism and the environment Beginning with an in depth introduction that highlights the intersections between religion tourism and the environment the book then focuses on the environment as a resource or generator for religious tourism and as a recipient of the impacts of religious tourism Chapters included discuss such important areas as theological views environmental responsibility and host perspectives [Tourism and the Environment](#) Helen Briassoulis, Jan van der Straaten, 2012-12-06 The issue of maintaining a balanced relationship between tourism and the environment has received considerable attention since the 1970s However only in the 1980s and 1990s did it become a topic of systematic academic inquiry and research distinguished from the broader area of the environmental impacts of recreation and leisure activities This volume dwells on the environmental and economic impacts of tourism and is divided as follows Part 1 Introduction and Overview Part 2 Tourism and the Environment General Considerations Part 3 Regional Issues Part 4 Economic Issues Part 5 Policy Issues The work is complemented by a subject index **Vacationland** William Philpott, 2013 Vacationland tells the story of the region's dramatic transformation in the decades after World War II when a loose coalition of tourist boosters fashioned alluring images of nature in the high country and a multitude of local state and federal actors built the infrastructure for high volume tourism ski mountains stocked trout streams motels resort villages and highway improvements that culminated in an entirely new corridor through the Rockies Interstate 70 Vacationland is more than just the tale of one tourist region It is a case study of how the consumerism of the postwar years rearranged landscapes and revolutionized American environmental attitudes Postwar tourists pioneered new ways of relating to nature forging surprisingly strong personal connections to their landscapes of leisure and in many cases reinventing their lifestyles and identities to make vacationland their permanent home Amazon.com **Contemporary Studies in Environment and Tourism** Recep Efe, Münir Ahmet Öztürk, 2017 The tourism industry is striving hard to create attractive worlds for its customers Both as a necessity and as a challenge this field is overwhelmed by the imagination economy but raises several questions about tourists providing opportunities to move deeper into the understanding of complexities involved in relationships among tourists tourism sites and their historical structure and environmental sustainability As a result of this a serious academic interest in tourism has developed over recent decades as a complex aspect of investigation into humans and their environment This volume brings together case studies from different parts of the world focusing on tourism and its interactions with the environment It provides a general outline of theoretical issues and their practicality in different industrialising countries from both the East and the West The book will appeal to researchers involved in tourism studies and environmental interactions as well as academicians and
