*Creating Sustainable Community Programs* Mark R. Daniels, 2001-02-28 Public opinion polls consistently reveal the lack of confidence disillusionment and mistrust that citizens feel toward government Daniels and his contributors believe that the relationship between citizens and their governments can be changed by facilitating greater citizen collaboration with government particularly through local sustainable programs As the case studies show often sustainable community programs are created through grassroots movements that are initiated and managed by citizens themselves bringing them in contact with their local elected and appointed officials Unlike traditional programs that are administered by local officials on behalf of their citizens once sustainable community programs are

created citizens administer their own programs in collaboration with local officials The case studies look at a variety of sustainable programs primarily in the United States that help to deal with issues such as recycling transportation microcredit site redevelopment pollution health care and hunger Creating Sustainable Community Programs is the first book on sustainable programs that is intended for an audience of public administration scholars researchers and students as well as practitioners who are searching for ways to change the relationship between citizens and their governments *Coming Home* Malcolm Brown, Graham Tomlin, 2020-10-30 Everyone has an interest in housing because we all live in some kind of home While there has been plenty of theological reflection on the natural environment there has been little on the built environment or on a theology of housing Addressing the urgent problems of housing inequality and affordability *Coming Home* proposes a practical and biblical theology of housing provision as an essential part of community building It explores the purpose of home and housing today housing and human flourishing shared living and neighbourliness It asks how and why the church should contribute to local and national housing policy and thus to building community life and offers case studies in community action Contributors include Samuel Wells Timothy Gorringer Niamh Colbrook Selina Stone Angus Ritchie and Shermana Fletcher of the Centre for Theology and Community Collectively they bring theology and practice together *While I'm Waiting A Journey through Faith and Fertility* Tamika Henderson, 2019-03-02 *While I'm Waiting A Journey through Faith and Fertility* is a journal that will help you align your fertility journey with your faith in what God has promised **Church Comes Home** Dave Barnhart, 2020-09-15 People have lost faith in all collective institutions government corporations the media and the church We are in the midst of a spiritual disaster a flood of biblical proportions and house churches provide lifeboats for people who are seeking a more authentic life giving form of Christian community Many people remember that the early church started in homes but they don't understand that house churches are still a legitimate and viable model today House churches can create the intimacy so many people are hungry for They can nurture life changing discipleship for individuals and create justice centered communities Networked house churches can become truly diverse multi ethnic communities that spread the Gospel by emphasizing practices over programs These communities de-center the preacher opting instead for grassroots organizing but they are not leaderless they are leader full This book provides an alternative model for denominations and established churches to consider It will help pastors reconnect with the traditions of community organizing itinerant preaching and discipleship training that sparked Methodism and other church movements in the United States *Church Comes Home* offers alternative ways to look at some of the problems facing our church and our culture **Coming Home to Earth** Mark S. Bocker, 2016-09-13 As a young Norwegian Lutheran teenager in rural Wisconsin Bocker lay awake one night worrying whether he believed in Jesus enough to get to heaven This getting to heaven anxiety reflected an excessive focus on individual salvation and a loss of concern for the well being of the Earth community A faith journey that leaves Earth behind is misguided Ever since those early teen years Bocker has been on a

journey to come home to Earth Coming Home to Earth makes the case that there is no salvation apart from Earth and that Earth care is at the core of our identity and mission as followers of Jesus The ecological consequences of a loss of concern for the well being of Earth have been devastating Brouckema is especially concerned to determine what will motivate followers of Jesus to make radical changes in our way of life so that we can participate in the healing of wounded Earth and all of its inhabitants both human and nonhuman We are far more likely to make needed sacrifices for our fellow creatures if we share God's delight in and affection for them and cherish Earth as our home Climate Change and Human Well-Being Inka Weissbecker, 2011-08-04 Climate change is increasing the severity of disasters and adverse weather conditions worldwide with particularly devastating effects on developing countries and on individuals with lower resources Climate change is likely to impact mental health and psychosocial well being via multiple pathways leading to new challenges Direct effects such as gradual environmental changes higher temperatures and natural disasters are likely to lead to more indirect consequences such as social and economic stressors population displacement and conflict Climate change largely the product of industrialized nations is projected to magnify existing inequalities and to impact the most vulnerable including those with low resources individuals living in developing countries and specific populations such as women children and those with pre existing disabilities This book outlines areas of impact on human well being consider specific populations and shed light on mitigating the impact of climate change Recommendations discuss ways of strengthening community resilience building on local capacities responding to humanitarian crises as well as conducting research and evaluation projects in diverse settings
