Munene, 2014-08-27 In the face of increasing social demand and cutbacks in state budgetary support universities in African countries are now turning towards a multicampus system strategy As African governments have adopted neoliberal education policies that place premium on entrepreneurialism profit making privatization and markets as drivers of university development a reshaping of the academic work and organizational framework have taken place However little is known about the impact of this paradigm shift on access quality and governance in higher education This book fills the void in research and academic knowledge about the impact of the emerging university configurations in Africa It analyzes the paradox surrounding the performance of multicampus university systems as avenues of broadening university access but whose structural success may be qualitatively contested. This book offers a refreshing examination of the African multicampus university system from both an African and global perspective It makes use of empirical data from Kenya collected during extensive fieldwork along with substantive library and documentary resources on the rest of the continents to fortify arguments and demonstrate important conclusions This allows for a comparative analysis of policies and strategies used in the establishment of campuses both within and beyond national boundaries in the continent and will be a welcome contribution to the existing repertoire on African universities Integrating STEM in Higher Education Lindsey N. Conner, 2021-07-15 This timely book addresses the increasing need for collaboration innovation and solution focussed skills by looking at examples of cutting edge pedagogy that can inform future directions Integrating STEM in Higher Education shows how applying digital innovations that can be generated through the implementation of deliberately designed STEM education can change the world for the better References to over 45 higher education institutions from around the world are included where integrated approaches are already occurring A wide range of teaching strategies and assessment methods are discussed promoting a transformative method in which students can generate new knowledge within coursework and simultaneously develop skills and attributes for their future careers lives and the world's needs This book is essential reading for STEM educators administrators and academic leaders as well as learning designers in higher education

Sustainability in Higher Education Federico Rotondo, Lucia Giovanelli, Rodrigo Lozano, 2024-04-30 This contributed volume addresses the issue of how higher education institutions can systematically reorient themselves to help society become more sustainable In particular a strategic management approach is used to overcome the fragmentation of sustainability initiatives increasingly conducted by higher education institutions worldwide In this book eminent scholars in the field of sustainability in higher education combine their different backgrounds to propose conceptual frameworks for interpreting and measuring sustainability integration in higher education institutions.
