Idea Of God As Affected By Modern Knowle:

The Idea of God as Affected by Modern Knowledge John Fiske, 1899 **The Journal of Speculative Philosophy** , 1885

The Transformation of Theology, 1830-1890 Charles D. Cashdollar, 2014-07-14 Charles Cashdollar reinterprets nineteenth century British and American Protestant thought by identifying positivism as the central intellectual issue of the era. Positivism meant at first the ideas of the French thinker Auguste Comte; later in the century the term indicated a more general opposition to supernatural religion. Cashdollar shows that contemporary thinkers recognized positivism at each of these stages as the most fundamental of the proliferating challenges to religious belief. He further reveals how the encounter with positivism altered Protestant orthodoxy in both subtle and radical ways. Positivists denied that humans could know anything other than physical phenomena. Declaring many orthodox beliefs archaic, they proposed a new ethically based vision of service to humanity. After portraying the dissemination of these positions among British and American Protestants, the author explains how each of several groups reacted. A few theologians rejected positivism outright, but many more responded by recasting their own beliefs. The implications of this story of change extend to such topics as Darwinism, Biblical criticism, the rise of the social sciences, theological liberalism, and the Social Gospel, the beginnings of fundamentalism, and the twentieth century debate about creationism and science. Originally published in 1989, The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

The Unitarian Review and Religious Magazine Charles Lowe, Henry Wilder Foote, John Hopkins Morison, Henry H. Barber, James De Normandie, 1886 **The Destiny of Man, Viewed in the Light of His Origin** John Fiske, 2022-09-04 In *The Destiny of Man Viewed in the Light of His Origin* John Fiske presents a profound exploration of humanity's place in the universe through the lens of evolutionary theory and philosophy. Employing a clear, persuasive literary style, Fiske weaves together scientific inquiry with moral and metaphysical implications, arguing that understanding human origins is crucial to discerning our future. The work serves not only as an exposition of Darwinism but also as a philosophical treatise reflecting the prevailing debate of the late 19th century surrounding science and religion, progress and the human condition. John Fiske, a prominent philosopher and historian, was deeply influenced by his background in natural sciences and his advocacy for liberal thought. His academic pursuits at Harvard and his alliances with key thinkers of his time allowed him to engage with the transformative ideas of Darwin and Spencer. Fiske's unique interdisciplinary approach culminates in this work as he seeks to reconcile scientific discovery with a hopeful vision for human flourishing, expressing a belief in the inherent potential of humankind. This book is a must-read for those intrigued by the intersections of science, philosophy, and destiny. Fiske's

compelling arguments and eloquent prose encourage readers to contemplate the moral duties that arise from our understanding of evolution making it a pivotal work for anyone interested in the philosophical implications of scientific thought **To-day**, 1894 *The Lutheran Quarterly*, 1886 *The Idea of God As Affected By Modern Knowledge* John Fiske, 2020-08-03 Reproduction of the original *The Idea of God As Affected By Modern Knowledge* by John Fiske *The Encyclopædia Britannica* Hugh Chisholm, James Louis Garvin, 1926 *A Study of Religion, Its Sources and Contents* James Martineau, 1888 *Knowledge of the Self-Revealing God in the Thought of Thomas Forsyth Torrance* John Douglas Morrison, 2005-02-07 This work examines Thomas Forsyth Torrance's concern for the modern re-entrenchment of dualism as it has negatively affected the Christian faith and the realist knowledge of God in Christ. Additionally, an analysis is made of Torrance's program to faithfully restore theological thinking, theological science, and true objectivity out of the Christocentric Trinitarian self-disclosure of God via the modern return to critical realist epistemology in the physical sciences, e.g. Einstein, Polanyi. The study concludes with a critical examination of the adequacy and completeness of Torrance's endeavor, the problem of residual dualism in the light of his own theological and redemptive concerns. *The New International Encyclopædia* Daniel Coit Gilman, Harry Thurston Peck, Frank Moore Colby, 1903 *The United States Catalog* Mary Burnham, Carol Hurd, 1928 ***The Encyclopaedia Britannica***, 1894 *The Later Works of John Dewey, Volume 17, 1925-1953* John Dewey, 2008 This is the final textual volume in *The Collected Works of John Dewey 1882-1953* published in 3 series comprising 37 volumes: *The Early Works 1882-1898* 5 vols; *The Middle Works 1899-1924* 15 vols; *The Later Works 1925-1953* 17 vols. Volume 17 contains Dewey's writings discovered after publication of the appropriate volume of *The Collected Works* and spans most of Dewey's publishing life. There are 83 items in this volume, 24 of which have not been previously published. Among works highlighted in this volume are *10 Educational Lectures before Brigham Young Academy*, early essays *War's Social Results* and *The Problem of Secondary Education after the War*, and the previously unpublished *The Russian School System*. ***The Encyclopaedia Britannica*** Thomas Spencer Baynes, 1888 *The Encyclopædia Britannica*, 1898 *The Later Works, 1925-1953* John Dewey, 1981 John Dewey's *Experience and Nature* has been considered the fullest expression of his mature philosophy since its eagerly awaited publication in 1925. Irwin Edman wrote at that time that with monumental care, detail, and completeness Professor Dewey has in this volume revealed the metaphysical heart that beats its unvarying alert tempo through all his writings, whatever their explicit themes. In his introduction to this volume, Sidney Hook points out that Dewey's *Experience and Nature* is both the most suggestive and most difficult of his writings. The meticulously edited text published here as the first volume in the series *The Later Works of John Dewey 1925-1953* spans that entire period in Dewey's thought by including two important and previously unpublished documents from the book's history: Dewey's unfinished new introduction written between 1947 and 1949, edited by the late Joseph Ratner, and Dewey's unedited final draft of that introduction written the year before his death. In the intervening years, Dewey realized the impossibility of

making his use of the word experience understood He wrote in his 1951 draft for a new introduction Were I to write or rewrite Experience and Nature today I would entitle the book Culture and Nature and the treatment of specific subject matters would be correspondingly modified I would abandon the term experience because of my growing realization that the historical obstacles which prevented understanding of my use of experience are for all practical purposes insurmountable I would substitute the term culture because with its meanings as now firmly established it can fully and freely carry my philosophy of experience **The Literary World** ,1886 **The Pedagogical Seminary** ,1892 Vols 5 15 include Bibliography of child study by Louis N Wilson
