Idea Of The South:

The Idea of the American South, 1920-1941 Michael O'Brien, 2019-12-01 Originally published in 1979 The idea of the South has its roots in Romanticism and American culture of the nineteenth century This study by Michael O'Brien analyzes how the idea of a unique Southern consciousness endured into the twentieth century and how it affected the lives of prominent white Southern intellectuals Individual chapters treat Howard Odum John Donald Wade John Crowe Ransom Allen Tate Frank Owsley and Donald Davidson The chapters trace each man's growing need for the idea of the South how each defined it and how far each was able to sustain the idea as an element of social analysis The Idea of the American South moves the debate over Southern identity from speculative essays about the central theme of Southern history and by implication past the restricted perception that race relations are a sufficient key to understanding the history of Southern identity

The Contested Idea of South Africa Sabelo J. Ndlovu-Gatsheni, Busani Ngcaweni, 2021-11-29 This book reflects on the complex and contested idea of South Africa drawing on a wide range of disciplinary perspectives Ever since the delineation of South Africa as a country the many diverse groups of people contained within its borders have struggled to translate a mere geographical description into the identity of a people Today the new struggles for South Africa and to become South African are inextricably intertwined with complex challenges of transformation xenophobia claims of reverse racism social justice economic justice service delivery and the resurgent decolonization struggles reverberating inside the universities This book covers the genealogy of the idea of South Africa exploring how the country has been conceived of by a broad group of actors including the British Afrikaners diverse African nationalist traditions and new formations such as the Economic Freedom Fighters EFF Black First Land First BLF and student formations Rhodes Must Fall Fees Must Fall Over the course of the book a broad range of themes are covered including identity formation modernity race ethnicity indigeneity autochthony land gender intellectual traditions poetics of South Africanness language popular culture truth and reconciliation and national development planning Concluding with important reflections on how a colonial imaginary can be changed into a free and inclusive postcolonial nation state this book will be an important read for Africanist researchers from across the humanities and social sciences

Framing the Solid South Paul E. Herron, 2017-06-02 The South was not always the South In the eighteenth and early nineteenth centuries those below the Potomac River for all their cultural and economic similarities did not hold a separate political identity How this changed and how the South came to be a political entity that coheres to this day emerges clearly in this book the first comprehensive account of the Civil War Era and late nineteenth century state constitutional conventions that forever transformed southern politics From 1860 to the turn of the twentieth century southerners in eleven states gathered forty four times to revise their constitutions Framing the Solid South traces the consolidation of the southern states through these conventions in three waves of development Secession Reconstruction and Redemption Secession conventions Paul Herron finds did much more than dissolve the Union they acted

in concert to raise armies write law elect delegates to write a Confederate Constitution ratify that constitution and rewrite state constitutions During Reconstruction the national government forced the southern states to write and rewrite constitutions to permit re entry into the Union recognizing federal supremacy granting voting rights to African Americans enshrining a right to public education and opening the political system to broader participation Black southerners were essential participants in democratizing the region and reconsidering the nature of federalism in light of the devastation brought by proponents of states rights and sovereignty Many of the changes by the postwar conventions Herron shows were undermined if not outright abolished in the following period as Redeemers enshrined a system of weak states the rule of a white elite and the suppression of black rights Southern constitution makers in all three waves were connected to each other and to previous conventions unlike any others in American history These connections affected the content of the fundamental law and political development in the region Southern politics to an unusual degree has been a product of the process Herron traces What his book tells us about these constitutional conventions and the documents they produced is key to understanding southern history and the South today Bridging Southern Cultures John Lowe,2005 A multicultural interdisciplinary panorama of past and contemporary southern society are captured in Bridging Southern Culture by some of the South s leading historians anthropologists literary critics musicologists and folklorists Using the best of recent scholarship this collection demonstrates a revitalized energy in southern studies A showcase of preeminent southern intellectuals this book is is a heady mix of observations that draw new connections between eras groups races and subregions Lowe and his peers present a timely assessment of the state of southern studies in the twenty first century

Explorations in the Digital History of Ideas Peter de Bolla,2023-11-08 What would the history of ideas look like if we were able to read the entire archive of printed material of a historical period Would our great men usually story of how ideas are formed and change over time begin to look very different This book explores these questions through case studies on ideas such as liberty republicanism or government using digital humanities approaches to large scale text data sets It sets out the methodologies and tools created by the Cambridge Concept Lab as exemplifications of how new digital methods can open up the history of ideas to heretofore unseen avenues of enquiry and evidence By applying text mining techniques to intellectual history or the history of concepts this book explains how computational approaches to text mining can substantially increase the power of our understanding of ideas in history **Grierson on Documentary** John

Grierson,Forsyth Hardy,1971 **Worlding the south** Sarah Comyn,Porscha Fermanis,2021-07-06 This electronic version has been made available under a Creative Commons BY NC ND open access license This collection brings together for the first time literary studies of British colonies in nineteenth century Australia New Zealand South Africa South America Southeast Asia and the South Pacific Islands Drawing on hemispheric studies Indigenous studies and southern theory to decentre British and other European metropolises the collection offers a groundbreaking challenge to national paradigms and

traditional literary periodisations and canons by prioritising southern cultural networks in multiple regional centres from Cape Town to Dunedin Worlding the south examines the dialectics of literary worldedness in ways that recognise inequalities of power textual and material violence and literary and cultural resistance The collection revises current literary histories of the British world by arguing for the distinctiveness of settler colonialism in the southern hemisphere and by incorporating Indigenous diasporic and south south perspectives

The Information Animal Alicia Wanless, 2025-05-22 Depending on the news you read new tools like AI will either save or destroy us But our response to emerging technology's unprecedented threats actually follows a pattern as old as civilisation From ancient Athens to COVID 19 social media to spam Alicia Wanless shows how humans have always consumed information whether accurate or not First a new technology changes how information is shared broadening its availability and accelerating how fast it travels Then as more people engage with this new content fresh ideas arise often challenging prevailing beliefs Some use the new tools to promote their views win power or simply profit adding to the mounting information pollution Competition and conflict follow We scramble in vain to control information flows and use of the new technology With democracies worldwide lurching from crisis to crisis knee jerk reactions to information conflict won't suffice What's needed is an understanding of our nature as information animals in a millennia long relationship with technology and of how a content saturated world impacts the political battle for hearts and minds

Keywords for Southern Studies

Jennifer Rae Greeson, 2016-08-15 In *Keywords for Southern Studies* editors Scott Romine and Jennifer Rae Greeson have compiled an eclectic collection of new essays that address the fluidity of southern studies by adopting a transnational interdisciplinary focus. The essays are structured around critical terms pertinent both to the field and to modern life in general. The nonbinary nontraditional approach of *Keywords* unmask and refutes standard binary thinking: First World Third World, self/other, for instance, that postcolonial studies revealed as a flawed rhetorical structure for analyzing empire. Instead, *Keywords* promotes a holistic way of thinking that begins with southern studies but extends beyond.

The Role of Ideas in the Civil Rights South, With essays by Tony Badger, David L. Chappell, Elizabeth Jacoway, Richard H. King, Ralph E. Luker, Charles Marsh, Keith D. Miller, Linda Reed, and Lauren F. Winner. In the 1950s and 1960s the American South was in upheaval. Brilliant thinkers and writers joined on the ground activists to challenge segregation and the South's long established Jim Crow society. The men and women who opposed them waged a war of words in favor of the status quo. The essays in *The Role of Ideas in the Civil Rights South* examine the interplay of thought and action in a complex and turbulent moment in American history. Written by scholars in history, English, and religious studies, these essays explore ideas about religion, freedom, race, liberalism, and conservatism. When people challenged authority or defended it, what ideas did they uphold? What were their moral and intellectual standards? What language did they use and what sources did they cite? What issues did they feel needed explaining? What issues did they take for granted and what issues did they avoid? Leading scholars investigate the wide range of conceptions, interpretations, and responses to the whirlwind of change. Some of the essays concentrate on intellectuals who were systematic thinkers who published their work to be studied, analyzed, and used. Four essays center on the ideas of Martin Luther King Jr., surely the most influential southern intellectual in the 1950s and 1960s. Other essays analyze the thoughts of people such as civil rights activist Fannie Lou Hamer and segregationist politician Jim Johnson, who never saw themselves as intellectuals. The civil rights movement set the agenda for thought and action in the 1950s and 1960s. *The Role of Ideas in the Civil Rights South* begins by examining ideas prominent in the movement. It then studies the ideas of white moderates in the South, white conservatives, and African Americans who did not join the movement. Particular emphases include the relationship between theology and political life, the national and international contexts of southern thought, and the variety of southern intellectual interests. Ted Ownby is a professor of history and southern studies at the University of Mississippi. His books include *American Dreams in Mississippi*, *Consumers*, *Poverty and Culture* (1830-1998), *1999 and Subduing Satan*, *Religion, Recreation, and Manhood in the Rural South* (1865-1920), *1990*. *Proceedings of the Conference on International Relations*, 1916. **Southern History of the War**, Edward Alfred Pollard, 1866. **Equity, Evaluation, and International Cooperation**, Gabriella Y. Carolini, 2022-03-31. Is South-South Cooperation (SSC) any different from other international partnerships in practice? While straightforward, this question often gets lost in conventional scholarship on SSC and international cooperation, which privileges macro-level narratives of how cooperation mechanisms fit within geopolitical

concerns and shape the outcomes of foreign aid Equity Evaluation and International Cooperation instead offers an answer from the ground up It highlights two main lessons from the close examination of the ecosystem of international cooperation projects in the urban water and sanitation sector in Maputo Mozambique First the book shows that macro labels attributed to international cooperation reflect very little about how cooperation projects operate on the ground and the equity consequences of their work Second how projects are designed implemented and evaluated does matter to the quality of learning that emanates from partnerships Beyond the geopolitical and technical proximities favored by the SSC discourse this book argues that what matters in practice is whether hierarchy or heterarchy is institutionalized in the governance of cooperation projects whether project partners are locally embedded in shared work spaces and whether practitioners value flexibility and recognize the epistemic value of learning from all partners as peers A strong evaluation culture within the international development industry however still subjugates such equity based concerns and deep learning in projects to accountability reinforcing orthodox power asymmetries in cooperation and sustaining epistemic and distributive injustice This book instead provides a framework for how project evaluations as a key narrative instrument of development can instead promote distributive procedural and epistemic justice in international cooperation projects

The Garden of Ideas Richard Aitken, 2010 The Garden of Ideas tells an inspiring and engaging story of Australian garden design From the imaginings of emigrant garden makers of the late eighteenth century to the concerns of twenty first century gardeners this book charts its way across four centuries through a handsome and satisfying fusion of images and text The Garden of Ideas is embellished with an unparalleled array of images paintings drawings prints plans and photographs each richly evocative of their time and most never previously published Unearthed from around Australia and many from overseas these images carry the story of Australian garden style down the years in the process criss crossing social and cultural history across the wide extremes of our continent Richard Aitken whose book *Botanical Riches* was published in 2006 to popular and critical acclaim brings a lifetime of experience to *The Garden of Ideas* He achieves fresh insights and presents our passion for garden making with wit and flair *The Garden of Ideas* is a valuable source book for the sophisticated gardener and an indispensable companion for the garden lover

Idea Of The South: Bestsellers in 2023 The year 2023 has witnessed a remarkable surge in literary brilliance, with numerous compelling novels captivating the hearts of readers worldwide. Lets delve into the realm of top-selling books, exploring the engaging narratives that have charmed audiences this year. The Must-Read : Colleen Hoover's "It Ends with Us" This touching tale of love, loss, and resilience has gripped readers with its raw and emotional exploration of domestic abuse. Hoover skillfully weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can prevail. Idea Of The South : Taylor Jenkins Reids "The Seven Husbands of Evelyn Hugo" This captivating historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reids captivating storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Discover the Magic : Delia Owens "Where the Crawdads Sing" This evocative coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens crafts a tale of resilience, survival, and the transformative power of nature, entrancing readers with its evocative prose and mesmerizing setting. These top-selling novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of compelling stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a masterful and gripping novel that will keep you wondering until the very end. The novel is a warning tale about the dangers of obsession and the power of evil.
