practices in pre industrial societies than about those of industrial western society In this book first published in 1988 David Cheal shows that the process of present giving and receiving is a vital element in contemporary social life relevant to some of the most important theoretical traditions in sociology particularly those of Durkheim and Weber and to the social constructionism of Peter Berger and Thomas Luckmann This volume is the result of a major study of gift rituals carried out by David Cheal and his associates in which general themes are richly illustrated with details from individual case histories gathered during the research It is highly significant that in western society women are more active gift givers than men and while their voices explain how emotions and interests are interrelated within the gift economy the author shows how that in turn is related to current theories about family gender and religion

Motherhood in Patriarchy Mariam Irene Tazi-Preve, 2013-06-19 Motherhood in Patriarchy pioneers the argument that the current Western understanding of motherhood is a patriarchal one based on a long historical tradition of subjection and institutionalization The book makes an important contribution to women s studies on reproduction feminist theory motherhood and welfare politics and offers alternative perspectives
