Ideology After Poststructuralism Sinisa Malesevic, Iain MacKenzie, 2002-03-20 Ideology is a hotly disputed term in social and political theory It continues to generate intellectual dispute more than 200 years after its birth in the fervour of the French Revolution Most recently post structuralists such as Foucault and Deleuze launched a strident critique claiming that there is no such thing as ideology creating a theoretical environment which polarises critical opinion either for or against ideology Ideology after Poststructuralism aims to end this culture of antagonism by bringing together leading scholars in the field to establish a dialogue between post structuralism and ideology critique For the post structuralists there is a need to generate a sensitive account of ideology so as to bolster their claim that they have a significant contribution to make to social and political criticism For the ideology theorists there is a need to engage with the post structuralist critique of ideology without taking the assumptions that post structuralists have so thoroughly criticised The essays in this book show how the intellectual posturing of recent decades has closed off debate to the detriment of both post structuralism and ideology critique

The Ideas Industry Daniel W. Drezner,2017-03-01 The public intellectual has a long and storied history Previously the public intellectual was always expected to opine on a broad array of topics from foreign policy to economics Yet in recent years a new kind of thinker has supplanted that archetype the thought leader Equipped with one big idea thought leaders focus their energies on TED talks rather than highbrow periodicals In contrast to public intellectuals thought leaders gain fame as single idea merchants Their ideas are often laudable and highly ambitious but they often work through institutions that are closed to the public and less open to criticism In The Ideas Industry Daniel W Drezner explains how this shift happened pointing to the roles of political polarization heightened inequality and eroding trust in authority In contrast to their predecessors today s intellectuals are more likely to enjoy the support of ideologically friendly private funders and be housed in ideologically driven think tanks Increasing inequality is also a key driver of this shift more than ever before contemporary plutocrats fund intellectuals and idea factories that generate arguments that align with their own Finally the erosion of trust in experts has lowered the barriers of entry in the marketplace of ideas But while there are certainly some downsides to the contemporary ideas industry Drezner argues that it is very good at broadcasting ideas widely and reaching large audiences hungry for new thinking Both fair minded and trenchant The Ideas Industry reshapes our understanding of

Blumenfeld-Jones, 2022-04-12 This book addresses the crucial issue of how we value and deploy the idea of freedom that underlies contemporary curriculum studies. Whether we are conventional curriculum thinkers who value knowledge development or favor a Deweyan individualist orientation toward curriculum or are a critical social justice curriculum thinker at the heart of all these orientations, theorizing is the value of freedom. The book addresses freedom through novel sources: the work of Martin Buber on education, Julia Kristeva on the uses of imagination, and the female-male dialectic Emmanuel Levinas' unique approach to ethics and more. Readers will find new ways to understand freedom and the world of ethical life as informing curriculum thinking. It provides a more ecumenical vision that can draw our differences together. It helps readers to reconsider ourselves in fruitful ways that can bring more relevance and substance to the field. **Writing True Stories** Patti Miller, 2023-05-31 *Writing True Stories* is the essential book for anyone who has ever wanted to write a memoir or explore the wider territory of creative nonfiction.
