Hernandez,2024-11-29

This comprehensive guide to assessment in early childhood special education offers a macro and micro level understanding

of the essential processes and activities relevant to the assessment of young children at risk of or having developmental delays or disabilities. The book provides insights into the laws, regulations, processes, culturally and contextually relevant practices and requirements that practitioners need to follow when engaged in assessment, in addition to an extensive overview of current and time-tested assessment tools designed for use by early childhood educators when evaluating young children with developmental challenges. It provides immediate guidance and support to a wide range of individuals engaged in service to young children who may have or are already identified as having a disability. *Assessment in Early Childhood Special Education* is an essential text for pre-service early childhood special educators as well as current practitioners including day care teachers, homebased and center-based certified early childhood special educators and general education kindergarten through second grade teachers. It should be on the desk of every early childhood educator who works with children who may be or have been identified as being at risk, developmentally delayed or disabled. **A Practical Guide to**

Congenital Developmental Disorders and Learning Difficulties Judith P. Hudson, 2014-04-24. To give children with congenital developmental conditions that manifest special learning needs and specific disabilities their best chance to succeed, early identification and appropriate interventions and support is necessary. This text highlights what to look for when there are concerns about a child's development. Practical and accessible, it is divided into three sections. Part 1 looks at the theory and policy context, discussing the social model of disability, the responsibility of health, social care and education services to the child and family, and the role of reviews and assessment in recognising developmental disorders. Part 2 provides a reference guide to atypical developmental conditions and disorders. For each condition, aetiology, prominent theories and research, profile of features including triggers and behaviours, diagnostic assessment procedures and appropriate interventions are given, and links made to sources of further information and support. Part 3 explores practical issues: how to work sensitively and effectively with children and their families; looking at the psychological implications of diagnosis; and how to plan, promote, deliver and evaluate multi-agency support. Designed to support professionals working within a multi-modal collaborative approach to assessment and intervention processes, it is suitable for health visitors, allied health therapists, nurses, teachers and social care practitioners. It is also a useful reference for students in these areas. Learning about child development and includes critical reading exercises, online searching tasks, self-assessment questions, reflective activities and document analysis prompts.
