Hidden In Time:

Yogini Dasha: The Goddess of Hidden Time Saket Shah, 2025-04-08 This book was not written in haste nor conceived through mere intellectual curiosity. It was born from a deep inner calling, a whisper from the goddess herself stirring through the silence of time. Yogini Dasha is not just another dasha system. It is a sacred spiral of time where the unseen hands of divine feminine energy shape the contours of our karma, fate, and soul evolution. Each Yogini, from fiery Mangala to mysterious Sankata, is a reflection of a deeper Shakti that pulses through the soul's journey across lifetimes. Through research, meditation, and personal exploration, I have come to realize that these Yoginis are not merely time periods; they are goddesses, time keepers, karmic guides. They arrive when we are ready to face a specific destiny, whether it be a love story, a loss, a sacrifice, or a resurrection of purpose. This book is not meant to be read linearly or mechanically. It is meant to be felt. Let your current Yogini guide you to the pages that speak to your heart. Observe the signs in your life, the symbols in your dreams, the patterns of repetition; they are all part of your divine algorithm. If this work has illuminated even a single hidden pattern in your karmic path, if it has whispered a forgotten truth from your soul's archives, then its purpose is fulfilled. May the Yoginis walk with you. May the goddess within you awaken. And may your karma bloom into liberation. With reverence and devotion, Saket Shah, Student of Time, Seeker of Shakti.

Hidden Time L.A. Boruff, Hold on to your socks, friends. Ro is headed for the sixties. Don't miss out on the exciting adventures of Rowena, the time-traveling witch assassin. And you'll be able to keep up with Cheesecake Artie and the ever-frustrating Fred. This book will turn you inside out, rip out your emotions, then put them back upside down. Rowena and crew are in the fight of their lives. And someone's life very well depends on it. **The Hidden Society** Wilhelm Aubert, 2017-09-29 Societies consider certain institutions and activities as central, proper, and visible, while others are defined as peripheral, deviant, and private. Vilhelm Aubert takes us to the hidden societies: the privacy of love, the secrecy of the underground, the remoteness of a ship, the isolation of the ill, the retirement from social life into sleep, and similar fascinating topics. Vilhelm Aubert, a professor of sociology in the Law Faculty of Oslo University and a member of the board of directors of Oslo's famed Institute of Social Research, presents a theory of the hidden societies, a theory concerned with concepts such as time and space, causality, will, and chance. Chapters on predictability and chance deal with lack of order with phenomena that appear meaningless or absurd from a point of view very prevalent in modern life. We are presented with a study of isolation as a sociological phenomenon, accepted or fostered by social action, and we see how the existence of lonely, private niches in a society serves consciously or unconsciously to satisfy idiosyncratic needs of individual personalities.
