School Library Journal ,2006 **American Book Publishing Record** ,2003 Curious Folks Ask (Preface & Chapter 3) Sherry Seethaler,2010-02-14 This download is a chapter from Curious Folks Ask 162 Real Answers on Amazing Inventions Fascinating Products and Medical Mysteries ISBN 0137057385 by Sherry Seethaler Available in print and digital formats Read the following excerpt from the Preface Inquiring minds want to know What s the big deal about low carb diets What causes muscle aches when you get the flu How did the ancient Egyptians build the Giza Pyramids Does it matter what brand of gasoline you buy Could adult stem cells have as much promise as embryonic stem cells Is a horsepower really the power of one horse Does chocolate cause acne What makes glue sticky How is it possible to design bifocal contact lenses What causes dandruff And sometimes inquiring minds ask questions that other inquiring minds did not even realize they wanted to know Why do we get skin cancer from sun damaged skin when damaged cells are continually sloughing off and being replaced What causes out of body experiences Is the Star Wars lightsaber possible Are there beneficial viruses just as there are beneficial bacteria Why do some people have second toes that are longer than their big toes Is increased environmental noise leading to increased violence With their unwieldy number system how did the ancient Romans engineer their magnificent buildings These are some of the 162 questions compiled in this science Q A anthology The questions come from real people who range in age from high schoolers to octogenarians and probably even younger and older folks too Some of them are scientists and others tell me I m not a science person but I ve always wanted to know What they share is a deep curiosity about the world around them The questions and answers in Curious Folks Ask can rekindle the natural wonder about science and the world around us that we all shared as children but that frequently gets pushed aside in formal education settings To continue reading download this Preface Chapter 3 The full book is also available for sale in print and digital formats

The Tale of the Scale : An Odyssey of Invention Robert F. Wagner Graduate School of Public Service New York University Solly Angel Adjunct Professor of Urban Planning,2004-02-05 In the mid 1980s Solly Angel had a technological mini vision He saw in his mind s eye a quarter inch thick personal scale weighing a pound a travel scale and he decided to make it a reality to bring it to market The Tale of the Scale is a rare first person account of the process of invention and design as it unfolds in the remaking of the familiar bathroom scale It is rare because inventors seldom have the inclination to articulate their thought

processes and to recount their experiences in great detail Written by an inventor the book stands apart from recent books about inventors Angel an urban planner by profession had no mechanical skills as he embarked on his journey The Tale records his transformation over the course of a decade from a bungling ignoramus to an expert on thin scales Readers know as much about scales or about invention for that matter as Angel does at the beginning of the journey Listening to Angel s unfolding story they learn about the intricacies of invention and design as Angel finds out about them The Tale of the Scale is truly an odyssey of invention The pursuit of the thin scale takes readers to fascinating places from Bangkok to Rolling Hills California from Groningen in the Netherlands to Murrhardt in Germany and from New York to Tokyo But the places Angel explores are not only visually different They are realms of knowledge inhabited by people with diverse yet complementary outlooks on the invention process engineers designers lawyers product development specialists corporate functionaries and friends who philosophize on the deeper meanings of one s life pursuits
