The Secret Doctrine: The Synthesis of Science, Religion, and Philosophy Volume II: Anthropogenesis Helena Petrovna Blavatsky, 2018-02-24 The last book in the monumental work of Theosophic thought This book focuses on gaining occult power in the formation of the humanity and the earth This group sought to learn the secrets of nature science and divinity in order to empower themselves to godhood and this book reveals their secrets as to how knowledge to do this can be attained It does not reveal what the ultimate saving knowledge is that can do this but it gives guidelines on how to start the journey for yourself The Tibetan Book of the Great Liberation W. Y. Evans-Wentz, 2000-09-28 The Tibetan Book of the Great Liberation which was unknown to the Western world until its first publication in 1954 speaks to the quintessence of the Supreme Path or Mah ay ana and fully reveals the yogic method of attaining Enlightenment Such attainment can happen as shown here by means of knowing the One Mind the cosmic All Consciousness without recourse to the postures breathings and other techniques associated with the lower yogas The original text for this volume belongs to the Bardo Th dol series of treatises concerning various ways of achieving transcendence a series that figures into the Tantric school of the Mah ay ana Authorship of this particular volume is attributed to the legendary Padma Sambhava who journeyed from India to Tibet in the 8th century as the story goes at the invitation of a Tibetan king Padma Sambhava's text per se is preceded by an account of the great guru's own life and secret doctrines It is followed by the testamentary teachings of the Guru Phadampa Sangay which are meant to augment the thought of the other gurus discussed herein Still more useful supplementary material will be found in the book's introductory remarks by its editor Evans Wentz and by the eminent psychoanalyst C G Jung The former presents a 100 page General Introduction that explains several key names and notions such as Nirv ana for starters with the lucidity ease and sagacity that are this scholar's hallmark the latter offers a Psychological Commentary that weighs the differences between Eastern and Western modes of thought before equating the collective unconscious with the Enlightened Mind of the Buddhist As with the other three volumes in the late Evans Wentz's critically acclaimed Tibetan series all four of which are being published by Oxford in new editions this book also features a new Foreword by Donald S Lopez The

Tibetan Book of the Great Liberation, Or, The Method of Realizing Nirvāṇa Through Knowing the Mind Walter Yeeling Evans-Wentz, 2000 To introduce this great published work on the Eastern yoga inspired method of attaining enlightenment Evans Wentz presents 100 pages of explanatory notes Psychoanalyst C G Jung offers commentary on the differences between Eastern and Western thought and Donald S Lopez Jr writes the Foreword 9 halftones *The Secret Doctrine: The Synthesis of Science, Religion, and Philosophy Volume I: Cosmogogenesis* Helena Petrovna Blavatsky, 2018-02-24 The first book in the monumental work of Theosophic thought This book focuses on gaining occult power in the formation of the universe and the cosmos This group sought to learn the secrets of nature science and divinity in order to empower themselves to godhood and this book reveals their secrets as to how knowledge to do this can be attained It does not reveal what the ultimate saving knowledge is that can do this but it gives guidelines on how to start the journey for yourself The True Colours of Man Helena Petrovna Blavatsky, William Quan Judge, 2019-03-10 One hundred and forty years have passed like a dream with much heart sore and soaring hope since the Theosophical Society was founded on 17 November 1875 in New York We have decided to mark this auspicious date by releasing a series of hitherto private study notes and analyses of H P Blavatsky's Esoteric Section E S Instructions The True Colours of Man amplifies and clarifies E S Instructions I and II aided by 31 original drawings diagrams and tables The seven prismatic colours are direct emanations from the Seven Hierarchies of Compassion each of which is the creator and source of the corresponding human principle Each prismatic colour is the Father of the Sound which corresponds to it Sound being the Word or Logos of its Father Thought Thus the Creative Force produces colours sounds and numbers in the shape of rates of vibration which compound and dissociate atoms and molecules The Seven Primordial Lights manifested from Light Unmanifested are Divine Principles The Principles of Man are bright reflections of Divine Principles a Great Sacrifice they are the seven stringed lyre of Apollo Colours and sounds are all spiritual numerals Colour is Spirit Atman sound is Voice Buddhi proportion of numbers is Word Higher Manas Colours and sounds are associated with the Hierarchy of Compassion the Manifested Logos Colours sounds numbers proceed from 1 to 7 and not from 7 to 1 as erroneously shown in the spectrum of the prismatic colours As the Seven Colours of the solar spectrum correspond to the Seven Rays or Hierarchies so each Ray has its seven divisions corresponding to the same series of colours Esoterically the right eye corresponds with Soul Wisdom or true knowledge the left with mere head learning The Spiritual Man corresponds directly with the coloured circles of the Divine Prism which emanate from the One Infinite White Circle the physical man emanates from the Sephiroth of the Kabbalah the voices or sounds of Eastern Philosophy Voices however are lower than colours The lower Sephiroth are the seven physical planets Our triple physical Sun personified by the Upper Triad is the Sephirothal Crown The real Sephiroth are the Four Maharajas of The Secret Doctrine Sun Moon Mercury and Venus The ancients considered as the most holy those organs which we now associate with feelings of shame and secrecy The lower organs have been evolved to perform six functions on six distinct planes of action besides a seventh the lowest and

purely terrestrial function on the physical plane The physical body is not a principle and has no place in the sevenfold division It is furnished by Mother Earth Numbers and harmonious proportions guide the first differentiations of the Homogeneous Substance into heterogeneous elements Perfect knowledge of the correspondences between colours sounds and numbers is the first requisite for students of Occultism The Eye of Dharma will awaken only when the mouth is suppressed The Auric Egg is the monadic envelope and amnion of the physical man Initiates saints and pure men can help others as well as themselves in their hour of need with the aid of the God within who has been enabled to act on the outward plane Advanced students are invited to pronounce the Word before going to sleep and first thing upon awakening Beginners who cannot help going into crowds are advised to wear either a ring containing some jewel of the colour of the presiding planet for the particular day of the week or else of the metal sacred to it A word of advice concerning Instructions I and II students should strive to spiritualise these Instructions and avoid materialising them

Constructing Tradition Andreas Kilcher, 2010-10-05 This volume of conference proceedings investigates the various ways and patterns with which esoteric writings and groups establish their own tradition This involves concepts of origin and memory ways of legitimising esoteric tradition as well as techniques and practices of knowledge transmission in esotericism

Paperbound Books in Print, 1992

The Esoteric Path Luc Benoist, 2005-03 Traditional esotericism though capable of the highest degree of elaboration is based on a few first principles Absolute Reality hierarchical manifestation the necessity for initiation the centrality of the spiritual Heart etc which can be stated simply In The Esoteric Path Luc Benoist does just this for the monumental writings of the great metaphysician Ren Guenon If ever there was a primer on traditional metaphysics and esotericism one that does not dumb down its subject but rather opens a door to profound spiritual depths waiting to be explored it is this book The first section deals in a general way with metaphysical principles their modes of transmission and the spiritual practices based upon them The second presents the central principles of such Eastern traditions as Hinduism Buddhism Taoism and Islam and also various forms of Western Esotericism including Eastern Orthodox Hesychasm Freemasonry Hermeticism the Templars Dante and the Fedeli d'Amore Meister Eckhart and his school etc Far more than a bouquet of mystical teachings plucked from various sources designed to titillate the reader's spiritual sensibilities The Esoteric Path firmly situates that Path in its appropriate traditional context so that the seeker's first steps on the path to the Path will be firm and confident and point him or her in the right direction away from the time and soul consuming attractions of those paths that exhibit in the author's words the confusion between the spiritual and the psychic the identification of the spiritual with what is most inferior in the psyche the identification of religion with magic totemism and even sorcery the popular dissemination of pseudo or counter initiatic rituals A worthy companion to the biographical Ren Guenon and the Future of the West by Robin Waterfield and the Collected Works of Ren Guenon also published by Sophia Perennis The Esoteric Path will be of great value to scholars seekers and anyone searching for a clearer understanding of the great spiritual traditions Luc Benoist is generally considered the most

balanced and authentic exponent of Gunon's teaching I know of no work in which true scholarship is combined so well with conciseness and comprehensiveness Robin Waterfield **The Esoteric Tradition** Gottfried Purucker, 1935 *The Inner Dimensions of Life* Niels Brønsted, 2024-02-15 The Inner Dimensions of Life is a compressed yet exhaustive educational presentation of the esoteric teachings in three volumes subtitled Esoteric Philosophy Esoteric Psychology and Esoteric Sociology With a background in many years of work as a teacher in his Esoteric School the author has gathered and edited a comprehensive and thoroughly tested curriculum including illustrations and copious source references Thus the work appeals to readers who will be content with a general view as well as those who wish to delve deeper into the subject The first volume Esoteric Philosophy offers an introduction to all the basic concepts of the esoteric teaching beginning with the esoteric Genesis or Creation Account The 7 Planes and further on to the Constitution of Man Death and New Birth Evolution Reincarnation and Karma the Path of Initiation the Path of Discipleship the 7 Rays the Evolution of Consciousness Cosmology the Esoteric World History the Inner World Government the New Evolutionary Impulse and the Deva Kingdom *The Astrological and Numerological Keys to The Secret Doctrine, Volume 1* Bodo Balsys, 2020-10-25 H P Blavatsky's The Secret Doctrine is the foundational text for the dissemination of the esoteric tradition as promulgated by the Masters of Wisdom for this new epoch The Theosophical Society the writings of Alice Bailey Helena Roerich and other esotericists are founded upon the basis of the advanced esoteric doctrines promulgated in that text Here for the first time a proper exposition of the mode of the coding of the esoteric texts presented by the Masters is revealed The object being to assist serious students of the esoteric doctrines to gain much deeper insights as to the nature of the hidden wisdom of the revelatory writings emanating from the Hierarchy of enlightened beings This book consequently presupposes that the reader is familiar with the context of the writings of the above authors and also my writings because of the nature of the advanced esotericism that needs to be explicated The focus of this analysis is upon the Stanzas of Dzyan stanzas for meditation the backbone of The Secret Doctrine Those that take the time to properly study the texts will comprehend the vastness of the philosophy and awareness attained by enlightened beings and so hopefully aspire to likewise gain enlightenment *Fundamentals of the Esoteric Philosophy* Gottfried Purucker, 1957 *Fundamentals of the Esoteric Philosophy* de G. Purucker, 1947 *The Inner Dimensions of Life* Niels Brønsted, 2014-06-25 The Inner Dimensions of Life is a compressed yet exhaustive educational presentation of the esoteric teaching in three volumes The author has with a background in many years of work as a teacher in his Esoteric School gathered and edited a comprehensive and thoroughly tested curriculum including illustrations and copious source references Thus the work appeals to all kinds of readers that is those who will be content with the breadth of view as well as those who want to delve deeper into the subject The first volume Esoteric Philosophy offers an introduction to all the basic concepts of the esoteric teaching beginning with the esoteric Genesis or Creation Account The 7 Planes and further on to the Constitution of Man Death and New Birth Evolution Reincarnation and Karma the Path of Initiation the Path of Discipleship
