**The Greenhouse and Hoophouse Grower's Handbook** Andrew Mefferd, 2017. The Greenhouse and Hoophouse Grower's Handbook shares best practices for both large and small-scale production of the eight most profitable crops: tomatoes, eggplant, cucumbers, peppers, leafy greens, lettuce, herbs, and microgreens. Every year, more growers are turning to protected culture to deal with unpredictable weather and to meet out-of-season demand for local food, but many end up spinning their wheels, wasting time and money on unprofitable crops grown in ways that don't make the most of their precious greenhouse space. This book levels the playing field with a decision-making framework that goes beyond a list of simple dos and don'ts. With comprehensive chapters on temperature control and crop steering, pruning, and trellising, grafting, and more, Andrew Mefferd's book is full of techniques and strategies that can help farms stay profitable, satisfy customers, and become an integral part of relocalizing our food system. From seed to sale, this book is the indispensable resource for protected growing. **COVER**
