Higher Learning A Novel:

Higher Learning Marianne Shapiro, 2005-04-13 a campus novel Novel Schooling Bridget T. Chalk, 2024-08-27 This book identifies and explores the consistent link between negative depictions of education in novels and claims for the educative effects of reading them The novel and education are both phenomena that rely fundamentally on development over time the former in plot and character and the latter in individual potential Despite this basic parallel these forms of development are at odds in many works of fiction that treat education as constrictive and even traumatic to the individual rather than healthy and formative Novel Schooling identifies a pervasive pattern in novels from the 19th to 21st centuries writers ranging from Charles Dickens and D H Lawrence to Zadie Smith reject conventional modes of education and propose their own models for shaping the sensibilities of their characters and readers These works critique institutional education as a point of departure to position reading fiction as a superior form of individual development Using the new ethics and reader response theory this work traces the treatment of education in and through the novel concluding with fresh assertions of the value of literature in a digital market driven world **Novel Novel** Bruce Greeley, 2009-03 Exercise in NaNoWriMo 1 part d Da 1 part meta experiment many parts self indulgent diary extravagance **The True Story of the Novel** Margaret Anne Doody, 1996 An erudite intelligent and imaginative work of literary scholarship With vivacity grace and wit Doody traces the history of the novel from the ancient novels of Apuleius and Heliodorus through the Renaissance fictions of Boccaccio Cervantes and Rabelais to the official birth of the novel in 18th century England BOSTON GLOBE 39 illustrations **A Companion to the British and Irish Novel, 1945 - 2000** Brian W. Robert Coover and Kathy Acker Matthias Voller, 1997-08-30 Inhaltsangabe Abstract Reading postmodern fiction once a term limited to denote a decidedly US American tendency in contemporary literature but now applicable to a whole range of works that have in recent years been published by an international group of writers one almost invariably gets the uneasy feeling of having read it all before Recognizing some passages the reader feels a strong sense of déjà vu and keeps wondering whether the passages he or she does not recognize are just from those books he or she has not read Surely enough an increasingly large number of postmodern authors tend to conceive their books as a jumble of allusions to themes structures and scenes from earlier texts so called master or parent texts Others go even further in alluding to previously published texts They deliberately draw on one particular generally acknowledged and highly acclaimed master text or classical piece of world literature and read it parodically against the grain thus re writing and re working a renowned classic into a new work of art Still others overtly appropriate and even plagiarize titles paragraphs and whole passages from a variety of literary predecessors However allusions appropriations and plagiarisms are only on the surface of postmodern fiction beneath are other things which are formally more interesting parodistic intertextuality as a leitmotif central to a postmodern synthesis challenging traditional literary concepts such as author genre and literary period on the one hand and originality and inventiveness on the other hand fragmentation of literature and simultaneous presentation of literary and cinematic scenes and events from a variety of perspectives also referred to as synchronic approach of telling a story deconstruction and re presentation of texts and ultimately recognition of fiction as a world of its own as a linguistic artefact which does not stand for reality any longer Consequently postmodern fiction is not concerned with the process of writing as a one to one reproduction of reality Quite the contrary postmodern fiction abandons the mimetic principle of conventional narrative and severs its ties to space time cause and effect and reality and goes back to the original springs of narrative Going beyond the limits of the real world and exploring the realms of fantasy and dreams postmodern fiction evidently manifests a turning back to fairy tales religious parables and the stories

Latin American Science Fiction Writers Darrell B. Lockhart, 2004-03-30 Many readers are unaware of the vast universe of Latin American science fiction which has its roots in the 18th century and has flourished to the present day Because science fiction is part of Latin American popular culture it reflects cultural and social concerns and comments on contemporary society While there is a growing body of criticism on Latin American science fiction most studies treat only a single author or work This reference offers a broad overview of Latin American science fiction Included are alphabetically arranged entries on 70 Latin American science fiction writers While some of these are canonical figures others have been largely neglected Since much of science fiction has been written by women many women writers are profiled Each entry is prepared by an expert contributor and includes a short biography a discussion of the writer's works and primary and secondary bibliographies The volume closes with a general bibliography of anthologies and criticism

A Story of Ambivalent Modernization in Bangladesh and West Bengal Pranab Chatterjee, 2010 This book details the evolution of Bengali culture in both Bangladesh and West Bengal since antiquity and argues for its modernization Originally peripheral to Hindu civilization based in North India Bengali culture was subjected to various forms of Sanskritization Centuries of invasions 1204 1757 resulted most notably in the Islamization of Bengal Often there were conflicts between Sanskritization and Islamization Later colonization of Bengal by Britain 1757 led to a process of Anglicization which created a new middle class in Bengal that in turn created a form of elitism among the Bengali Hindu upper caste After British rule ended 1947 Bengali culture lost its elitist status in South Asia and has undergone severe marginalization Political instability and economic insufficiency as reflected by many quantitative and qualitative indicators are common and contribute to pervasive unemployment alienation vigilantism and instability in the entire region A Story of Ambivalent Modernization in Bangladesh and West Bengal is appropriate not only for Bengali intellectuals and scholars but for sociologists political scientists cultural anthropologists historians and others interested in a case study of how and why a

given culture becomes derailed from its path toward modernization
