Higher Standard Writing In English:

Higher Standard Writing in English Peter Sun Ho Lee, 2004-10 It is a tantalizing job to teach the bilingual students to pass the English Regents Examination and the College Writing Test because they only have 2 or 3 years of ESL background that is equivalent to the 4th grade English proficiency level in the elementary school However I have been doing it for years to train them how to write with the grammatical structure and drill them on summarizing a fiction or drama responding to a critical lens comparing two controlling ideas of any 2 passages or books and rounding up a commentary upon completion of a book or an article Higher Standard Writing in English focuses on the Eight Parts of Speech the use of tenses and the formation of simple complex and compound sentences No matter how well organized and authentic an essay is written in the test 2 or 3 major structural errors may lead to disqualification of the paper Let students recognize the standardized writing skills and command writing through the proper English language technicality framework to express whatever they want Peter S H Lee Author **Performance Standards: High school** New Standards (Organization),1997 Alex Baratta, 2010-07-12 Considering the fact that the academic essay continues to be widely used as an assessment tool within education there is a need for students to develop their skills in this area However it is often the case that students perceive instruction in academic writing if it is offered at all as boring This book addresses these two issues First the book can be used by students themselves even in the absence of academic writing classes as a self help guide from which they can develop their knowledge of academic writing and subsequent proficiency Second by discussing the components of academic writing in terms such as film which are familiar to today s generation students are enabled to relate to the material better and see what might have been perceived as dull from a brand new perspective Visual learners in particular will enjoy the analogous link between films and essays and students today are arguably more visually literate than previous generations being exposed to visuals on a daily basis through text message iconography computer games and the Internet The visual instruction provided in turn helps to facilitate mental visuals in students minds from which their knowledge of essay writing Hard Words S.
