**The Road to the Land of the Mother of God** Stephen G. Perz, Jorge Luis Castillo Hurtado, 2023-05 The Interoceanic Highway is many things to many people an emblematic project during a period focused on integration a dream realized for an isolated region a symbol of the profound fragility of state institutions a key cause of political corruption and a major driver of ecological and cultural devastation This highway links the Andean highlands with the Amazonian lowlands in southern Peru offering an outlet for Brazil's emergent economy While it finally brought an end to the isolation of Madre de Dios and other parts of southern Peru and the western Amazon it was made possible by political corruption revealed in the Lava Jato scandal and it permitted the spread of criminal business activities But the Interoceanic Highway's deeper history must be appreciated in order to fully understand why it was built and the impacts it has generated The Road to the Land of the Mother of God explores more than five hundred years of the history of Peru's Interoceanic Highway showing how the purposes portrayals and importance of roads change fundamentally over time and thus how roads bring significantly more impacts and costs than their advocates and critics generally anticipate By taking a deeper look at infrastructure history Stephen G Perz and Jorge Luis Castillo Hurtado portray infrastructure as an integrative optic for understanding changes in local livelihoods regional development and social conflicts

**On Earth as It Is in Heaven** Virginia Garrard-Burnett, 2000 Collects nine previously published essays that consider the entire region and so provide a more comparative view of the range of religious experience than studies that focus on a particular country They also range widely across religion covering not only the dominant Catholicism but also popular Indian and African religious forms and new elements such as Protestantism and Mormonism The collection is suitable for a course It is not indexed Annotation copyrighted by Book News Inc Portland OR

**2023 PNG Rural Household Survey Report** Schmidt, Emily, Fang, Peixun, Jemal, Mekamu Kadir, Mahrt, Kristi, Mukerjee, Rishabh, Rosenbach, Gracie, Yadav, Shweta, 2024-03-18 From May to December 2023 the International Food Policy Research Institute IFPRI implemented a rural household survey that collected detailed data on rural household food consumption and expenditures agricultural production practices employment profiles child and mother 24 hour diet recall and child anthropometry measurements in Papua New Guinea PNG The research team carried out the survey which used location based sampling across five agroecological study areas of which four of the areas were defined using elevation and rainfall variation The five agroecological survey areas were seasonal highlands nonseasonal highlands seasonal lowlands nonseasonal lowlands and islands the islands survey sample was not disaggregated by elevation or precipitation patterns In identifying seasonal and nonseasonal survey areas we adapted the rainfall seasonality categories established by Bourke and Harwood 2009 who evaluated the relative difference in rainfall between the wet and the dry

season using resource mapping units defined by the PNG Resource Information System PNGRIS The areas of the country that experience large seasonal variation in rainfall heavy to light depending on the season are classified as seasonal whereas the areas that experience moderate to continuously heavy rainfall throughout the year are classified as nonseasonal see Figure A1 1 in the appendix for the survey seasonality classification by area In nonseasonal areas agricultural growing conditions remain similar year round whereas seasonal rainfall areas have agricultural conditions that necessitate a variety of production strategies Lowland and highland areas were defined using elevation data areas 1 000 meters or more above sea level were classified as highlands and those below 1 000 meters were classified as lowlands The survey collected data from 270 communities across 14 provinces from a total of 2 699 households It is important to note that the survey is not nationally representative Rather we chose a purposive sample using criteria that would enable analysts of the data to understand the key factors that interact within rural households and communities to create more resilient local food systems more diversified employment profiles and improved well being Generalizable relationships between variables that affect socioeconomic and other development outcomes in rural PNG communities should be seen consistently in both representative and unrepresentative survey samples

**Romantic Imperialism** Saree Makdisi,1998-04-16 The years between 1790 and 1830 saw over a hundred and fifty million people brought under British imperial control and one of the most momentous outbursts of British literary and artistic production announcing a new world of social and individual traumas and possibilities This book traces the emergence of new forms of imperialism and capitalism as part of a culture of modernisation in the late eighteenth and early nineteenth century and looks at the ways in which they were identified with and contested in Romanticism Saree Makdisi argues that this process has to be understood in global terms beyond the British and European viewpoint and that developments in India Africa and the Arab world up to and including our own time enable us to understand more fully the texts and contexts of British Romanticism New and original readings of texts by Wordsworth Blake Byron Shelley and Scott emerge in the course of this searching analysis of the cultural process of globalisation Choice Outstanding Academic Book of 1998

Territorial Ambition S. Charles Bolton,2020-04-10 Both modern historians and early nineteenth century observers have emphasized the wild and picturesque aspects of the Arkansas Territory suggesting that the settlers here were more preoccupied with indolence or brawling than with economic progress This study first published in 1993 demonstrates that despite all its frontier roughness Arkansas was characterized by a restless ambition that transformed the area from frontier and subsistence living to a highly productive agricultural society This ambition with its brutal Indian removal and expansion of slave labor rendered Arkansas more similar to its southern neighbors than contemporary and modern portrayals would make it seem
