Finding Out About The Early Russians:

The Poetics of Early Russian Literature D.S. Likhachev, 2014-03-13 This translation of Likhachev's *Poetika Drevnerusskoy Literatury* The Poetics of Early Russian Literature provides a description of the basic themes of early tenth to seventeenth century Russian literature Likhachev compares literary narrative with narrative used in the representational arts Furthermore Likhachev stresses the genre based character of medieval Russian literature and shows how choice of style in medieval times depended on a genre with its own specific etiquette and how innovation was discouraged The text contrasts medieval abstraction and modern realism as Likhachev shows how realisticness gradually breaks through in specific situations such as those of princely crimes Likhachev draws contrasts in three different areas the basic stock of symbols and comparisons used in early Russian literature with those used in modern literature artistic time in folklore and early Russian literature and artistic space in folklore and early Russian literature Likhachev traces the gradual development into modern artistic time through a comparison of the chronicle the first Russian play the seventeenth century writer Avvakum and three modern authors Goncharov Dostoevsky and Saltykov Shchedrin Finally the text gives a justification for studying early literatures This book will be invaluable for students of Russian medieval and comparative literature *Finding Out about the Early Russians* Tamara Talbot Rice, 1964 [Russia in the Early Modern World](#) Donald Ostrowski, 2022-01-25 A fundamental problem in studying early modern Russian history is determining Russia's historical development in relationship to the rest of the world The focus throughout this book is on the continuity of Russian policies during the early modern period 1450 1800 and that those policies coincided with those of other successful contemporary Eurasian polities The continuities occurred in the midst of constant change but neither one nor the other continuities or changes alone can account for Russia's success Instead Russian rulers from Ivan III to Catherine II with their hub advisors managed to sustain a balance between the two During the early modern period these Russian rulers invited into the country foreign experts to facilitate the transfer of technology and know how mostly from Europe but also from Asia In this respect they were willing to look abroad for solutions to domestic problems Russia looked westward for military weaponry and techniques at the same time it was expanding eastward into the Eurasian heartland The ruling elite and by extension the entire ruling class worked in cooperation with the ruler to implement policies The Church played an active role in supporting the government and in seeking to eliminate opposition to the government **Blowing up Russia** Alexander Litvinenko, 2021-09-01 Strikingly written and based on Litvinenko's 20 years of insider's knowledge of Russian spy campaigns *Blowing up Russia* describes how the successor of the KGB fabricated terrorist attacks and launched war to have the unknown Putin Litvinenko's former superior at the Russian secret service elected with a landslide victory *Beginning Russian II* United States.
