To See Every Bird on Earth Dan Koeppel, 2006-04-25 What drives a man to travel to sixty countries and spend a fortune to count birds And what if that man is your father Richard Koeppel's obsession began at age twelve in Queens New York when he first spotted a Brown Thrasher and jotted the sighting in a notebook Several decades one failed marriage and two sons later he set out to see every bird on earth becoming a member of a subculture of competitive bird watchers worldwide all pursuing the same goal Over twenty five years he collected over seven thousand species becoming one of about ten people ever to do so To See Every Bird on Earth explores the thrill of this chase a crusade at the expense of all else for the sake of making a check in a notebook A riveting glimpse into a fascinating subculture the book traces the love loss and reconnection between a father and son and explains why birds are so critical to the human search for our place in the world Marvelous I loved just about everything about this book Simon Winchester author of The Professor and the Madman A lovingly told story helps you understand what moves humans to seek escape in seemingly strange other worlds Stefan Fatsis author of Word Freak Everyone has his or her addiction and birdwatching is the drug of choice for the father of author Dan Koeppel who writes affectionately but honestly about his father's obsession Audubon Magazine editor's choice As a glimpse into human behavior and family relationships To See Every Bird on Earth is a rarity a book about birding that nonbirders will find just as rewarding Chicago Tribune
