A Pedagogist's Memoir Grant Rodwell,2025-10-07 Opportunities to write our memoirs are many and varied To meet emerging demands the memoir genre continually is evolving and it is possible for the memoirist to shape the memoirs with varying themes time and settings to be brought to bear on school education at a senior level and for a range of teacher development programs Thus the developing importance of an accompanying exegesis For better or for worse childhoods shape adult relationships and attachment styles profoundly

shaping who we are as teachers teaching styles and generally the things we consider important and not so important The shape of our childhood and adolescence has a profound impact on how relationships are formed in adulthood It can affect our ability to trust be vulnerable and create productive bonds both at school and college and professionally and also our general levels of motivation Through the aforementioned theme and subthemes my memoirs here reveal how childhood struggle has shaped my approach to teaching and my academic career from an unskilled labourer from the country working class in the timber industry deprived of a high school education and recruited into the workforce at 15 years of age to a senior academic in one of Australia's G8 universities holding five PhDs With strong historical backgrounding a special appeal of this book is its drive to place childhood and adolescent events contained in the memoirs in a wider historical context looking to transnational movements such as discussions on anachronisms and eugenics In so doing the exegesis a fresh and exciting innovation is in harmony with the memoirs The memoir is so refashioned as a pedagogical tool

Myself and Some Other Being Daniel Robinson, 2014-02-15 As a young writer with neither profession nor money William Wordsworth committed himself to a career as a poet embracing what he believed was his destiny But even the giant Wordsworth as his friend and collaborator Samuel Taylor Coleridge called him had his doubts In *Myself and Some Other Being* Daniel Robinson presents a young Wordsworth as ambitious and insecure as any writer starting out who was trying to prove to himself that he could become the great poet he desired to be and that Coleridge equally brilliant and insecure believed he already was *Myself and Some Other Being* is the story of Wordsworth becoming Wordsworth by writing the fragments and drafts of what would eventually become *The Prelude* an autobiographical epic poem addressed to Coleridge that he hid from the public and was only published after his death in 1850 Feeling pressured to write the greatest epic poem of all time a task set for him by Coleridge Wordsworth feared that he was not up to the challenge and instead looked inside himself for memories and materials that he might make into poetry using the power of his imagination What he found there was another Wordsworth not exactly the memory of his younger self but rather some other being that he could adapt for an innovative kind of life writing that he hoped would justify his writing life By writing about himself and that other being Wordsworth created an innovative autobiographical epic of becoming that is the masterpiece he believed he had failed to write In focusing on this young ambitious yet insecure Wordsworth struggling to find his place among other writers Robinson ably demonstrates how *The Prelude* may serve as a provocative instructive and inspirational rumination on the writing of one's own life Concentrating on the process of Wordsworth's endless revisions the real literary business of creativity Robinson puts Wordsworth forward as a model and inspiration for the next generation of writers

Xenotropism and the Awakening of Literary Expatriatism through Writing Memoirs Christine Velde, 2016-08-03 Although there have been many discussions about challenges faced by individuals going through East to West migrations there are few literary accounts about those moving from the West to the East Yet these migrations are becoming more frequent now due to advances in technology and the fact that a writer's

work can now involve an increasingly global audience One way of expressing these challenges is through writing memoirs Xenotropism and the Awakening of Literary Expatriatism through Writing Memoirs exemplifies the craft of memoirs written while living in a foreign country and explains how this is different from writing from home The book is a theoretical analysis of xenotropism based on the work of three prominent writers in China's history Emily Hahn Nien Cheng and Qiu Xiaolong The author explores the relationship between xenotropism turning towards foreign ideals and practices its complexities and challenges and the writing of a memoir and its impact on mental health This discourse will contribute to new knowledge in the field of creative writing and Asian studies by illustrating how xenotropism or turning towards foreign ideals and practices results in both personal and artistic development and builds an understanding and acceptance of different cultures within an individual These processes of change and understanding in turn facilitate the writing of a memoir which is a cathartic process having a positive effect on one's mental state Readers interested in creative writing or Asian literary studies will be able to understand the creative process behind writing memoirs from a combination of personal research based literary and theoretical perspectives
