Broken Hallelujah Jack Butler,2013-03-01 Jack Butler s Broken Hallelujah New and Selected Poems is a celebration that refuses to explain away pain and trouble or to oversell the very transcendence it seeks Its poems are always musical whether formal improvisational or written according to the music of speech itself Butler understands poetry more nearly as the essence of that speech than as one of its products the heart of the ways we know each other Some of these forms are as old as English but the voice stays immediate and whether dark or hopeful comic or sober passionate or calm and knowing these poems speak with the urgency of praise itself Back-of-the-Envelope Physics Clifford Swartz,2004-12-01 From an award winning teacher a delightful and instructive accessory to an introductory physics course Physics World Physicists use back of the envelope estimates to check whether or not an idea could possibly be right In many cases the approximate solution is all that is needed This compilation of 101 examples of back of the envelope calculations celebrates a quantitative approach to solving physics problems Drawing on a lifetime of physics research and nearly three decades as the editor of The Physics Teacher Clifford Swartz a winner of two awards from the American Association of Physics Teachers provides simple approximate solutions to physics problems that span a broad range of topics What note do you get when you blow across the top of a Coke bottle Could you lose weight on a diet of ice cubes How can a fakir lie on a bed of nails without getting hurt Does draining water in the northern hemisphere really swirl in a different direction than its counterpart below the equator In each case only a few lines of arithmetic and a few natural constants solve a problem to within a few percent Covering such subjects as astronomy magnetism optics sound heat mechanics waves and electricity this book provides a rich source of material for teachers and anyone interested in the physics of everyday life This is a book that will help make the study of physics fun and relevant Mark P Silverman author of Waves and Grains Reflections on Light and Learning **2025**
