Finland Defined A Nation Takes Shape On The Map:

Finland Defined Erkki Fredrikson, 1994-01-01 **Jean Sibelius** Tomi Mäkelä, 2011 M kel s study brings together German Nordic and Anglo American work on Sibelius and synthesizes these various strands of Sibelius reception into a single coherent critical narrative This acclaimed study available in English for the first time looks at the music of Jean Sibelius in its biographical context Myths have surrounded Sibelius 1865 1957 and his work for more than 100 years often diverting attention away from his creative output Drawing on many unpublished sources M kel s study leads us back to Sibelius as a musician and a poet of universal validity Chapters examine the composer s creativity inspiration influence aspects of genre as well as the relationship of the artist with nature and homeland Those who knew Sibelius at an early age tell of a youthful bohemian in the midst of European decadence This age of Carmen Eduard Munch marked Sibelius s formative years The composer s most important works dating from a time between his third symphony and Tapiola reflect the modernistic mainstream Sibelius s last three decades known as the Silence of Ainola have inspired the masculine cliché that this book deconstructs Sibelius was one of the least political artists of his time who nevertheless became heavily politicized The first supreme musical talent in the region he gave his nation a genuine sound Europeans of the late nineteenth century showed increasing affinity with Nordic culture Aino Sibelius s wife was instrumental in creating the image of her husband as a Nordic icon The book closely scrutinizes this popular image In an Anglo American artistic context his mix of regionalism and modernity remained attractive even when these elements went out of fashion in the art movement of continental Europe Ideas of Finland and the North vastly influenced the interpretation of meaning in Sibelius s music a music that until this day remains enigmatic **Finland** John Ernest Oliver Screen, 1997 Updated from the 1981 edition to include works from after Finland joined the European Union in 1995 Cites and briefly describes sources on geography history population religion politics and government economy and finance employment the environment education languages literature arts periodicals and other aspects of the country Also cites children s books encyclopedias and other bibliographies Annotation copyrighted by Book News Inc Portland OR **Who's who in the History of Cartography** , 1995 *The Baltic as a Multicultural World* Marko Lehti, 2005 The end of the Cold War brought the Baltic Sea area into the limelight of political and cultural cooperation Since then the Baltic Sea area has gained a powerful position as a dynamic European sub region Still like other similar kinds of areas defined by a sea or a river the Mediterranean world the Black Sea or the Danube the Baltic Sea area is hard to define and it has as many definitions as there are map makers The sea itself plays a central role but its influence is vague and always contingent This book has sought to introduce multiple insights for focusing on the Baltic All the contributions examine the question of the essence of the Baltic and the source of its unity and in particular concentrate on multi culturality and multi nationality in the Baltic context Some of the contributions survey the whole Baltic Sea area while others concentrate on the Baltic countries and some of them have found the Baltic in the limited environment of parish and

town The Baltic is comprehended as a label that opens stimulating possibilities for replacing nation centrism with narratives of another kind extending beyond the current nation states This understanding provides opportunities for defining a multi ethnic multi lingual and multi cultural region and the diversity of identities that has existed **Europe's "white Indians"** Erik Hieta,2006 **Finnland** Ingrid Bohn,2005 Finnland das Land der tausend Seen als wirksames Werbeetikett ist diese Kennzeichnung zu einem gefl gelten Wort geworden das Finnland nur allzu leicht auf ein Ziel abenteuerlicher Reisen und seine faszinierende Natur reduziert Seine Geschichte seine Sprache und damit auch seine Kultur sind weniger leicht zug nglich und f r manchen geh rte Finnland noch bis zur weltpolitischen Wende von 1989 zum Ostblock war es ein entferntes Land im hohen Norden und weit im Osten an der Peripherie Europas gelegen Durch Finnlands Beitritt zur EU erhielt seine historische Br ckenfunktion zwischen Ost und West neues Gewicht Das Interesse an Land und Leuten aber auch an finnischer Geschichte und Kultur ist seither gewachsen und das Bed rfnis nach vielseitiger Information immer gr er geworden Nun liegt eine ausf hrliche Darstellung der Geschichte Finnlands vor die die aktuellen Entwicklungen ebenso ber cksichtigt *Nation Shapes* Fred M. Shelley,2013-04-23 This book provides a concise and comprehensive description of all of the borders of every country in the contemporary world including physical boundaries their historical evolution and border related conflicts with other countries *Nation Shapes The Story behind the World s Borders* examines the importance of country boundaries the disconnects between these borders related factors such as cultures religions and economies and how conflicts over boundaries between neighboring countries are articulated The book is organized geographically and by region of the world the Americas Africa Europe the Middle East South and Southeast Asia East and Southeast Asia and Australia and Oceania It provides comprehensive descriptions of the boundaries of each country in the world the historical evolution of these boundaries and current and potential future boundary disputes and conflicts While the work contains an entry for each country the emphasis is on countries of major importance in the modern global economy **Maailmojen rajalla** Maria Lähteenmäki,2009 Literaturverz S 443 457 Art, Nation and Gender Síghle Bhreathnach-Lynch,2018-01-18 This title was first published in 2003 The essay collection explores the conjunctions of nation gender and visual representation in a number of countries including Ireland Scotland Britain Canada Finland Russia and Germany during the nineteenth and twentieth centuries The contributors show visual imagery to be a particularly productive focus for analysing the intersections of nation and gender since the nation and nationalism as abstract concepts have to be embodied in ways that make them imaginable especially through the means of art They explore how allegorical female figures personify the nation across a wide range of visual media from sculpture to political cartoons and how national architectures may also be gendered They show how through such representations art reveals the ethno cultural bases of nationalisms Through the study of such images the essays in this volume cast new light on the significance of gender in the construction of nationalist ideology and the constitution of the nation state In tackling the conjunctions of nation gender and visual representation the case studies

presented in this publication can be seen to provide exciting new perspectives on the study of nations of gender and the history of art The range of countries chosen and the variety of images scrutinised create a broad arena for further debate

Россия и Финляндия в XVIII-XX вв Timo Vihavainen, С. Б Коренева, 1999 Folia Uralica Debrececiensia ,1998

"Poesie in der Luft" Tomi Mäkelä, 2007 *Suomen kirjallisuus* ,1994 *The Survey* ,1915 *Latvijas preses hronika* ,1998 *Survey* ,1915 *The Three Fields of Global Political Economy* Heikki Patomäki, 2022-03-10 The Three Fields of Global Political Economy provides a systematic and future oriented account of global political economy dynamics since the Industrial Revolution and argues that major changes and conflicting processes can be understood through the concept of these three fields The first field is constituted by the circuit of capital and is characterised by a tendency towards economic liberalism The second field is brought about by reactions to and learning from cycles and crises and various negative experiences The third field is the field of reason of state It is evoked by struggles within and among states and has its own inner generative structures This book analyses the generic dynamics of these three fields of global political economy and explores their most significant causal effects such as growth employment distribution of income and wealth wars and ecological effects Together the prevailing three fields as well as the ideas and causal forces which generate them constitute the holomovement of the global political economy This book will appeal to advanced students and scholars of global studies international relations international political economy economic theory and governance as well as those working in social theory and sociology and to a broader audience interested in socioeconomics **Congressional Record** United States. Congress, 1950 *The Origins of the Second World War in Europe* P. M. H. Bell, 2014-09-11 PMH Bell s famous book is a comprehensive study of the period and debates surrounding the European origins of the Second World War He approaches the subject from three different angles describing the various explanations that have been offered for the war and the historiographical debates that have arisen from them analysing the ideological economic and strategic forces at work in Europe during the 1930s and tracing the course of events from peace in 1932 via the initial outbreak of hostilities in 1939 through to the climactic German attack on the Soviet Union in 1941 which marked the descent into general conflict Written in a lucid accessible style this is an indispensable guide to the complex origins of the Second World War
