Soul Lara van Zuydam, 2024-03-28 The primeval intelligence of the human soul and the ecosystem within which it operates have long remained secret their deeper mysteries overlooked obfuscated or simply misunderstood In Soul A Modern Guide to Evolving in a Conscious Universe Lara van Zuydam clarifies and democratizes key esoteric information by unpacking the concept of the human soul at a granular level and explaining how it interacts with the other spiritual layers that make up a human being The book comprehensively and concretely introduces the soul from describing what it is to why it is currently housed in a human body and explains the purpose of incarnation in a challenging world It explains the distinction between the soul and the notion of spirit our connection to antiquity and our deeper connection to the Source It discusses how the modern fixation on angels and other benevolent beings has cultivated a skewed perception and that

penetrating the mysteries without invoking the necessary protections isn't always safe. The author draws on her own experiences of the philosophical landscape articulated by the ancients and also explores some of the more abstruse concepts discussed by influential mystic Alice A. Bailey. This powerful work explores, simplifies and clarifies the fascinating concept of the soul and why it is important to develop self-awareness. Touching on deep topics such as death, reincarnation and the nature of evil, it reaches beyond the light to explain how we can optimize our humanity on the journey toward self-actualization.

The invincible Heaven Fighting Saint was betrayed by his celestial wife and brothers. He was reborn in his youth and swore to become the War God Emperor in this world. He would crush all strong enemies and peerless beauties and beat them up. A hot-blooded battle with no end in sight. In the vast and boundless Pangu Continent large and small sects, ancient sacred lands, ancient aristocratic clans and ten thousand different dynasties competed against each other. In the many secular dynasties the imperial power was supreme, ruling over ten thousand miles. Was it to become an ant or an ordinary spirit or to condense battle qi to become a warrior to awaken the three types of battle spirits to experience hundreds of battles to comprehend the four types of battle force to become a peerless expert to become a Holy Land of War to shatter the void and to compete with the Heavens. This was a world of warriors cultivating battle qi transforming the soul of war, condensing battle force and rising above all worlds.
