Fire Fighters And Fire Engines:

Fire Engines Up Close Andra Serlin Abramson, 2007 An introduction to fire fighters and their equipment Raleigh and Wake County Firefighting Michael J. Legeros, 2004-04-01 This second collection of historic firefighting images covers 1940 through 1990 five formative decades for fire protection in North Carolina's capital county During this period the Raleigh Fire Department quadrupled in size smaller municipal fire departments modernized and rural fire departments formed to protect outlying areas As populations increased and technology advanced 20th century firefighters found their duties evolving from simple smoke eating to include emergency medical services rescue and extrication and hazardous materials training Raleigh and Wake County Firefighting Volume II depicts fires fire equipment and firefighters in over 200 images culled from newspapers archives and personal collections Included in this second volume are rare early photographs of the Six Forks Road Western Boulevard and Wake Forest 2 fire departments *Crucible of Fire* Bruce Hensler, 2011-06-30 Urban conflagrations such as the Great Chicago Fire of 1871 and the Great Boston Fire the following year terrorized the citizens of nineteenth century American cities However urban rebirth in the aftermath of great fires offered a chance to shape the future Ultimately residents and planners created sweeping changes in the methods of constructing buildings planning city streets engineering water distribution systems underwriting fire insurance and firefighting itself *Crucible of Fire* describes how the practical knowledge gained from fighting nineteenth century fires gave form and function to modern fire protection efforts Changes in materials and building design resulted directly from tragedies such as fires in supposedly fireproof hotels Thousands of buildings burned millions of dollars were lost the fire insurance industry faltered and the nature of volunteerism changed radically before municipal authorities took the necessary actions The great fires formed a crucible of learning for firefighters engineers architects underwriters and citizens Veteran firefighter Bruce Hensler shows how the modern American fire service today is a direct result of the lessons of history and a rethinking of the efficacy of volunteerism in fighting fires *Crucible of Fire* is an eye opening look at today's fire service and a thorough examination of what firefighters civic leaders and ordinary citizens can do to protect their homes and communities from the mistakes of the past **Firefighting in Charlotte** Shawn Royall, 2007-09-05 The story of firefighting in Charlotte is a tale of explosive growth and change that dates back to its humble beginnings in 1887 The city of Charlotte credits expansion to several events including the gold rush of the 1830s the railroad expansion of the 1860s and the textile boom of the 1880s During the textile boom the volunteer firefighters protecting Charlotte and Mecklenburg County could no longer adequately protect the growing city Thus the Charlotte Fire Department was born The Roaring Twenties brought in the auto age and along with it motorized fire trucks Race tensions of the 1960s and the financial boom of the 1990s also figure in the fire department's history Returning to her roots of growth Charlotte is now a bustling financial and transportation hub of 650 000 residents protected by more than 1 000 firefighters living in 38 firehouses Firefighting in Charlotte provides a photographic road map

of how fire protection developed from horse drawn engines of the 1800s to the state of the art apparatus of today Fire trucks firehouses and the firefighters are depicted in images obtained from personal collections newspapers archives and museums
