Fired With Enthusiasm:

The Gold and the Blue, Volume One Clark Kerr, 2001-10-16 One of the last century's most influential figures in higher education Clark Kerr was a leading visionary architect leader and fighter for the University of California Chancellor of the Berkeley campus from 1952 to 1958 and president of the university from 1958 to 1967 Kerr saw the university through its golden years a time of both great advancement and great conflict This absorbing memoir is an intriguing insider's account of how the University of California rose to the peak of scientific and scholarly stature and how under Kerr's unique leadership the university evolved into the institution it is today In this first of two volumes Kerr describes the private life of the university from his first visit to Berkeley as a graduate student at Stanford in 1932 to his dismissal under Governor Ronald Reagan in 1967 Early in his tenure as a professor the Loyalty Oath issue erupted and the university particularly the Berkeley campus underwent its most difficult upheaval until the onset of the Free Speech Movement in 1964 Kerr discusses many pivotal developments including the impact of the GI Bill and the evolution of the much emulated 1960 California Master Plan for Higher Education He also discusses the movement for universal access to education and describes the establishment and growth of each of the nine campuses and the forces and visions that shaped their distinctive identities Kerr's perspective of more than fifty years puts him in a unique position to assess which of the academic structural and student life innovations of the 1950s and 1960s have proven successful and to consider what lessons about higher education we might learn from that period The second volume of the memoir will treat the public life of the university and the political context that conditioned its environment The Railway Expressman, 1922 *A Deep Breath of Life* Alan Cohen, 1996-08-01

Tauber, Cathy S. Mester, 2006-11-30 Acting Lessons for Teachers presents a solid theoretical foundation for the pedagogical benefits of enthusiastic teaching. Simply put, students are more engaged, misbehave less and learn better from teachers who teach enthusiastically. A teacher's enthusiasm for his or her subject matter can be contagious. Since the dynamic of the classroom is similar to that of the stage in terms of speaker-listener relationships, the acting craft offers teachers a model for the skills and strategies that could be incorporated in their work to convey more enthusiasm for the material and for the students. This book presents concrete descriptions of the specific acting strategies that would benefit the teacher: physical and vocal animation, teacher role playing, strategic entrances and exits, humor, props, suspense and surprise, and creative use of space. Special attention is given to the potential advantage of instructional technology as a modern-day prop. Strategies are explained in terms of their importance and ease of incorporation into the classroom. Each is proposed as a skill that can be learned by any teachers who have the desire to enliven their teaching. Student descriptions of their own experience with teachers' use of acting strategies add real examples for each lesson. Finally, testimony of award-winning classroom teachers from a variety of disciplines and age levels provides evidence of the wide and easy applicability of these strategies. **M.A.B.**, 1922 **The Silent Partner**, 1919 **Winning Nice** Dawna Stone, Matt Dieter, 2007-08-29 Radio show host and founder of Her Sports Fitness magazine Dawna Stone shares her recipe for personal and professional success.
