Firefighting Strategy And Leadership:

Firefighting Strategy and Leadership Charles V. Walsh, 1963 *Firefighting Strategy and Leadership Study Guide*
Ernest C. Tillman, 1970 *Firefighting Strategies and Tactics* Angle, 2013-12-27 This text meets the course outcomes of the National Fire Academy's Fire and Emergency Services Higher Education FESHE associate level strategy and tactics course. It provides an overview of common firefighting concepts from fire dynamics to extinguishing agents to incident management to fire fighter safety to building construction to preincident planning to post incident analysis. Back cover *Course Catalog*
National Fire Academy, 1986 *Leadership* Harry R. Carter, 2007 Dr Harry R Carter has taken the time to share many of the hard won experiences from his more than 40 years of fire service experience. Using a combination of humor and reality he has created a guide for living the life of a leader. **Report to Congress on Firefighter Safety and Health** United States Fire Administration, 1980 **Strategy and Strategists** James Cunningham, Brian Harney, 2012-03-29 Importantly this stimulating text **Report to Congress on Firefighter Safety and Health**, *Strategy-Driven Leadership* Michael A. Couch, Richard S. Citrin, 2019-10-14 It is estimated that U.S. companies spend over 14 billion annually on leadership development. Match that number to the abundant and growing research that finds most leadership development to be ineffective and the conclusion is a phenomenal amount of waste. The remedy for this situation is to have business strategy drive leadership development instead of creating programs that match a one size fits all approach to leadership. This book's approach called Strategy Driven Leadership Development (SDLD) puts business strategy first. It maintains an emphasis on building leadership programs around what it will take to make the business successful as opposed to implementing a program in the hopes that it will benefit the strategy. The result is a differentiated and targeted approach called Intentional Leadership Development which provides the structure for transforming how leadership development is undertaken. At the heart of this book however is the explanation of how small incremental changes in action and perspective create meaningful changes in the way leadership is developed. The focus is on the leadership behaviors associated with success for any company. Some companies may need leaders with better financial acumen while others may require better teamwork for success. These skills are learnable and when the energy of an organization is behind it then leadership development can be transformational. The authors' method retools prior leadership efforts; the emphasis is not on previous failures and restarting with new programs. There are many effective ideas and actions that are currently embedded in leadership programs but they miss the critical element of tying their efforts to the business strategy. Strategy Driven Leadership changes the way organizations think about and drive their leadership talent initiatives among their current and upcoming leaders. The book is filled with research, science based information, case studies and practical hands on tools on why and how this Strategy Driven Leadership Development model will transform company leadership approaches. **Fire Department Strategic Planning, 3rd Edition** Mark Wallace, 2021-04-01 From the author This 3rd edition is about organized common sense in the fire service.

Section One provides support to fire departments that already have a strategic plan and just need to update and revise their existing plan I have found over my 30 years of consulting with fire department s that they want to accomplish their next iteration of their strategic plan as rapidly as possible Section Two provides a detailed How to guide to help a fire department create its first strategic plan Section Two is divided into four parts 1 Understanding the Department 2 Understanding the Situation 3 Understanding the Strategic Issues Facing the Department and 4 Creating Organizational Change A new chapter Chapter 20 provides assistance to those departments having challenges with their strategic plan and obtaining the desired outcomes results It adds a new troubleshooting process for those departments having challenges to create an effective and successful strategic plan The book is designed to be effective as a manual to develop an individual fire department s strategic plan as well as a textbook for use in upper division college university courses or as a text for post graduate courses

Physician Leader Hanah Polotsky,Lisa Williams,2024-02-20 Physicians are often asked to lead healthcare teams departments divisions practices and hospitals Though many of them are experts in their fields they are rarely prepared or educated in business management and leadership Based on the authors interviews with many physician and non physician executives and leaders medical training contributes little to leadership skills Many physicians leave medical training with a command and control leadership style that later has to be unlearned to succeed in a team based healthcare environment This book will help physician leaders to shed derailers and authoritarian leadership tendencies picked up in years of medical training It is intended for 1 physicians who are transitioning to healthcare leadership roles 2 senior level physician and non physician leaders as a coaching model to develop their physician leader direct reports and 3 administrative leaders who are partnering with physician leaders Both authors progressed from mid level leadership roles to the C suite one as a physician leader and one as an administrative leader As such they have leveraged their operational excellence expertise to design the Iterative Leadership Model that includes the leader s mindset Leadership Strategies and a coaching framework GUIDES Gather Understand Identify Design Execute and Self Reflect that is based on the scientific method PDSA Plan Do Study Act A3 thinking and the SOAP Subjective Objective Assessment and Plan note format The authors masterfully integrate personal reflections coaching examples illustrative fictional vignettes and GUIDES exercises to support leaders in the self development and self improvement of seven critical Leadership Attributes strategic thinking effective communication coaching team building change management continuous learning and problem solving New York Court of Appeals.
