Fires On The Plain:

Fires on the Plain 火の平原, 1969 This haunting novel explores the complete degradation and isolation of a man by war Fires on the Plain is set on the island of Leyte in the Philippines during World War II where the Japanese army is disintegrating under the hammer blows of the American landings Within this broader disintegration is another that of a single human being Private Tamura The war destroys each of his ties to society one by one until Tamura a sensitive and intelligent man becomes an outcast Nearly losing the will to survive he hears of a port still in Japanese hands and struggles to walk through the American lines Unfazed by danger he welcomes the prospect of dying but first he loses his hope and then his sanity Lost among his hallucinations Tamura comes to fancy himself an angel enjoined by God to eat no living thing but even angels fall Tamura is never less than human even when driven to the ultimate sin against humanity Shocking as the outward events are the greatness of the novel lies in its uplifting vision during a time of crushing horror As relevant today as when it was originally published Fires on the Plain will strike a chord with anyone who has lived through the horrors of war Fires on the Plain Shohei Ooka, 2001 Anti war novel as seen from the point of view of a losing army The Burdens of Survival David C. Stahl, 2003-02-28 Although still virtually unknown in the West Oka Sh hei 1909 1988 is one of Japan's most important and influential writers and social critics The Burdens of Survival is both a seminal English language study of this preeminent literary figure and one of the first scholarly works to thoroughly examine the war literature of a major Japanese veteran author Drawing on Robert Jay Lifton's work on traumatic experience and survivor psychology the book tells the illuminating story of Oka's arduous journey that began with guilt-ridden survival as a prisoner of war in the Philippines and culminated some twenty-five years later in the fruitful completion of survivor mission David C Stahl examines Oka's battlefield memoirs including the established war classic Fires on the Plain 1952 in terms of extreme experience survivor guilt bearing witness and the inability to mourn Writing enabled Oka to give cathartic expression to his haunting battlefield experience and made it possible for him to move from blame shifting to empathy and mourning The lengthy exhaustively researched historical work The Battle for Leyte Island 1967 1969 faithfully details the personal and collective experience of battle deprivation and loss and clarifies who and what was ultimately responsible for defeat Toward the end of this work and Return to Mindoro Island 1969 Ooka draws attention to the outstanding obligations owed by his countrymen to the war dead and suggests how they can be fulfilled by public confrontation learning the lessons of defeat and using them to rectify lingering social and political evils **Translating Mount Fuji** Dennis Charles Washburn, 2007 Dennis Washburn traces the changing character of Japanese national identity in the works of six major authors Ueda Akinari Natsume S seki Mori gai Yokomitsu Riichi Oka Shohei and Mishima Yukio By focusing on certain interconnected themes Washburn illuminates the contradictory desires of a nation trapped between emulating the West and preserving the traditions of Asia Washburn begins with Ueda's Ugetsu monogatari Tales of Moonlight and Rain and its preoccupation with the distant past a sense of loss and the connection

between values and identity He then considers the use of narrative realism and the metaphor of translation in Soseki's Sanshiro the relationship between ideology and selfhood in Ogai's Seinen Yokomitsu Riichi's attempt to synthesize the national and the cosmopolitan Ooka Shohei's post World War II representations of the ethical and spiritual crises confronting his age and Mishima's innovative play with the aesthetics of the inauthentic and the artistry of kitsch Washburn's brilliant analysis teases out common themes concerning the illustration of moral and aesthetic values the crucial role of autonomy and authenticity in defining notions of culture the impact of cultural translation on ideas of nation and subjectivity the ethics of identity and the hybrid quality of modern Japanese society He pinpoints the persistent anxiety that influenced these authors' writings a struggle to translate rhetorical forms of Western literature while preserving elements of the pre Meiji tradition A unique combination of intellectual history and critical literary analysis Translating Mount Fuji recounts the evolution of a conflict that inspired remarkable literary experimentation and achievement

Social Trauma, Narrative Memory, and Recovery in Japanese Literature and Film David Stahl, 2019-07-02 This book provides a comprehensive analysis of major works in Japanese literature and film through the interpretive lens of trauma and PTSD studies Focusing critical attention on the psychodynamics and enduring psychosocial aftereffects of social trauma it also evaluates the themes of dissociation failed mourning and psychological defence fantasies Building on earlier studies this book emphasizes the role of protagonists in managing to effect partial recovery by composing memoirs in which they transform dissociated traumatic memory into articulate narrative memory or bring about advanced recovery by pioneering alternative means of orally communicating working through and overcoming debilitating personal histories of traumatization and victimization In so doing Stahl also demonstrates that what holds true on the individual and microcosmic level also does so on the collective and macrocosmic level This new critical approach sheds important new light on canonical Japanese novels and films and enables recognition and appreciation of integral psychosocial aspects of these traumatic narratives As such the book will be of huge interest to students and scholars of Japanese film and literature as well as those of trauma studies

Classical Japanese Cinema Revisited Catherine Russell, 2011-06-16 Catherine Russell's highly accessible book approaches Japanese cinema as an industry closely modeled on Hollywood focusing on the classical period those years in which the studio system dominated all film production in Japan from roughly 1930 to 1960 Respectful and thoroughly informed about the aesthetics and critical values of the Japanese canon Russell is also critical of some of its ideological tendencies and her analyses provide new insights on class and gender dynamics Russell locates Japanese cinema within a global system of reception and she highlights the importance of the industrial production context of these films Including studies of landmark films by Ozu Kurosawa and other directors this book provides a perfect introduction to a crucial and often misunderstood area of Japanese cultural output With a critical approach that highlights the everydayness of Japanese studio era cinema Catherine Russell demystifies the canon of great Japanese cinema treating it with fewer auteurist and Orientalist assumptions than many other scholars

(In)digestion in Literature and Film Serena J. Rivera, Niki Kiviat, 2020-04-21 In *digestion in Literature and Film* A Transcultural Approach is a collection of essays spanning diverse geographic areas such as Brazil Eastern Europe France Ireland Italy Japan Mexico South Korea Taiwan and the United States Despite this geographic variance they all question disordered eating practices represented in literary and filmic works The collection ultimately redefines disorder removing the pathology and stigma assigned to acts of non normative eating In so doing the essays deem taboo practices of food consumption rejection and avoidance as expressions of resistance and defiance in the face of restrictive sociocultural political and economic normativities As a result disorder no longer equates to out of order implying a sense of brokenness but is instead envisioned as an act against the dominant of order of operations The collection therefore shifts critical focus from the eater as the embodiment of disorder to the problematic norms that defines behaviors as such

Wandering through Guilt Paola Di Gennaro, 2015-06-18 The first comprehensive study on the pattern of guilt and wandering in literature this book examines the relationship between the two complex concepts as they appear in twentieth century novels positing its methodological premises on archetypal criticism and both close and distant reading but also drawing on psychology anthropology mythology and religion This research deciphers a common paradigm and literary representation whose archetype within Western literature is found in the biblical figure of Cain while presenting a critical framework valid for boundary crossing comparative approaches From Graham Greene's *The Power and the Glory* and Malcolm Lowry's *Under the Volcano* to Wolfgang Koeppen's *Death in Rome* and Oka Sh Hei's *Fires on the Plain* this book is not merely a thematic study but an analysis of the literary phenomena that appear in those novels where the sense of guilt is controversially subjective or so collective as to be perceived as universal as is often the case with war and postwar literature Di Gennaro goes beyond the analysis of explicit rewritings of the story of Cain in order to uncover the monomyth through its rhetorical structures and mythical methods The wasteland with no religion the lost abandoned garden the classical and religiously corrupted city and the tropical cannibalistic island at war are the respective settings of these narratives where the issue is neither homelessness nor journeying but rather the desperate and futile movement toward self consciousness or self destruction After the Second World War much was silenced rather than left unsaid This study retraces those silent cries over history through the powerful literary marks of myths
