Sir Richard Baker

Kings England County Durham:

History of the Dukes of Normandy and the Kings of England by the Anonymous of Béthune Paul Webster, 2021-02-24 In the first quarter of the thirteenth century an anonymous Flemish writer set in writing in Old French a chronicle of Normandy England Flanders and northern France It ranged from the arrival of the Vikings in Normandy to the early years of the reign of King Henry III of England ending with an account of the translation of the relics of St Thomas Becket to their magnificent new shrine in Canterbury Cathedral in 1220 Along the way it adopted and formed part of a tradition of writing of the history of the dukes of Normandy and kings of England a tradition which had developed in Latin in the eleventh and twelfth centuries and then continued in Old French The work is famous for vibrant and informed description of the reign of King John in particular the period of baronial reaction Magna Carta ensuing civil war and the nearly successful invasion of England by Louis heir to the kingdom of France Flanders supplied troops to both sides and this Flemish author sees these events in close detail and from the Flemish not the French or English point of view He may himself have been an eyewitness directly involved but if not he would have known many who had fought and died in this conflict Janet Shirley's translation of this chronicle the first into English brings the work of the Anonymous of Béthune to a new audience in this volume accompanied by an introduction and historical notes by Paul Webster *A Chronicle of the Kings of England, etc* Sir Richard Baker, 1653

1296 and Edward Balliol d 1364 were politically weak men and unsuccessful kings In a reassessment of the patriarch of the family John I d 1268 the Balliols are revealed as committed English lords and loyal servants of the kings of England underlining how the family has been unfairly judged for centuries by both chroniclers and historians who have assessed them as Scottish kings rather than as English lords Despite the forfeiture of the Balliol estates in England and Scotland in 1296 John II and Edward retained close relationships with the successive English kings and used these connections to fuel their political ambitions Their kingships illustrate their desires to recover some influence in English politics which the family had enjoyed in the mid thirteenth century This re evaluation of the Balliols highlights their relationship with the English crown
