biopics should be artistic yet accurate true to life representations of their subjects Moviegoing audiences however do not seem to hold similar views biopics continue to be popular commercially viable films Even the genre s most ardent detractors will admit that these films are often very watchable particularly due to the performance of the lead actor It is increasingly common for stars of biographical films to garner critical praise and awards driving a growing interest in scholarship in the genre A Companion to the Biopic is the first global and authoritative reference on the subject Offering theoretical historical thematic and performance based approaches this unique volume brings together the work of top scholars to discuss the coverage of the lives of authors politicians royalty criminals and pop stars through the biopic film Chapters explore evolving attitudes and divergent perspectives on the genre with topics such as the connections between biopics and literary melodramas the influence financial concerns have on aesthetic social or moral principles the merger of historical narratives with Hollywood biographies stereotypes and criticisms of the biopic genre and more This volume Provides a systematic in depth analysis of the biopic and considers how the choice of historical subject reflects contemporary issues Places emphasis on films that portray race and gender issues Explores the uneven boundaries of the genre by addressing what is and is not a biopic as well as the ways in which films simultaneously embrace and defy historical authenticity Examines the distinction between reality and the real in biographical films Offers a chronological survey of biopics from the beginning of the 20th century A Companion to the Biopic is a valuable resource for researchers scholars and students of history film studies and English literature as well as those in disciplines that examine interpretations of historical figures *Moving Pictures* Eileen Sheahan,1973 Russian War Films Denise J. Youngblood,2006-11-14 War movies have long been the most influential genre in Russian cinema so much so that in the Soviet Union s militaristic society cinema front was used to describe the film industry itself Denise J Youngblood an internationally recognized authority on Russian and Soviet cinema provides the first comprehensive guide to this long neglected genre In this illuminating study Youngblood explores more than 160 fiction films on Russian conflicts from World War I to Chechnya These movies represent a wide range of cinematic styles and critical receptions with particular emphasis on films little known in the West but popular in the USSR While not ignoring classic war films like Chapaev and The Cranes Are Flying Youngblood introduces readers to the films that shaped and reflected Soviet views of war like the rousing World War II favorite Two Warriors the Thaw classic The Living and the Dead and the Brezhnevian extravaganza Liberation This remarkably humanistic body of work was often at odds with official policies and depicted the futility of war Youngblood is especially insightful regarding the relationship between Stalinism Socialist Realism and filmmakers in creating the war film genre during an era marked by increasing militarization conformism and state terror and the importance of cinema in the World War II propaganda effort Stalin s obsession with movies led to the revisioning of his role in the Civil War and the Great Patriotic War Yet Youngblood argues Soviet filmmakers were not mere puppets of repressive regimes Indeed some filmmakers subtly subverted official politics and history in the guise of art or Hollywood

style entertainment She brings the story to the present by showing how post Soviet Russian filmmakers have not only turned a critical eye on the recent wars in Afghanistan and Chechnya but are also revisiting the complex realities of World War II Through her accessible narrative Youngblood tells a fascinating story that will appeal equally to film aficionados and history buffs By tracing the evolution of cinema through the twists and turns of both Soviet and post Soviet society she helps us the role movies played in 20th century Russia not only in the making and unmaking of political myths but also in the writing of history *Stalin's Guerrillas* Kenneth Slepyan,2006 A detailed study of the operations politics culture and autonomy of Soviet partisans or guerrillas who fought the German army in WWII Blending military political social and cultural history Slepyan also provides a prism for viewing relations between the suffocating Stalinist state and its independent partisan warriors *The International Movie Industry* Gorham Anders Kindem,2000 A comprehensive history of the international movie industry during the 20th century Essays examine the film industries of 19 countries focusing on individual national movie industries economic social aesthetic technological and political ideological development within an international context
