Leaf, Dwight Read, 2012-06-07 Human beings have two outstanding characteristics compared to all other species the apparently enormous elaboration of our thought through language and symbolism and the elaboration of our forms of social organization The view taken in *Human Thought and Social Organization* Anthropology on a New Plane is that these are intimately interconnected To understand this connection the book compares the structure of the systems of thought that organizations are built upon with the organizational basis of human thinking as such An experimental method is used leading to a new science of the structure of human social organizations in two senses First it gives rise to a new kind of ethnology that has the combination of empirical solidity and formal analytical rigor associated with the paradigmatic sciences Second it makes evident that social organizations have distinctive properties and require distinctive explanations of a sort that cannot be reduced to the explanations drawn from or grounded in these other sciences Human social organizations are created by people using systems of ideas with very specific logical properties This book describes what these idea systems are with an unbroken chain of analysis that begins with field elicitation and continues by working out their most fundamental logico mathematical generative elements This enables us to see precisely how these idea systems are used to generate organizations that give pattern to ongoing behavior The book shows how organizations are objectified by community members through symbolic representations that provide them with shared conceptions of organizations roles or relations that they see each other as participating in The case for this constructive process being pan Homo sapiens is described

spanning all human communities from the Upper Paleolithic to today and from the most seemingly primitive Australian tribes to modern day America and India While focusing primarily on kinship Human Thought and Social Organization shows how the analysis applies with equal precision to other social areas ranging from farming to political factionalism **Kinship and the Social Order** Meyer Fortes, 2017-07-12 One of the world's most eminent social anthropologists draws upon his many years of study and research in the field of kinship and social organization to review the development of anthropological theory and method from Lewis Henry Morgan 1818-1881 to anthropologists of the 1960s It is the central argument of this book that the structuralist theory and method developed by British and American anthropologists in the study of kinship and social organization is the direct descendant of Morgan's researches The volume starts with a re-examination of Morgan's work Professor Fortes demonstrates how a tradition of misinterpretation has disguised the true import of Morgan's discoveries He follows with a detailed analysis of the work of Rivers and Radcliffe Brown and the generation of anthropologists inspired by them The author states his own point of view as it has developed in the framework of modern structuralist theory with ethnographic examples examined in depth He shows that the social relations and institutions conventionally grouped under the rubric of kinship and social organization belong simultaneously to two complementary domains of social structure the familial and the political Meyer Fortes' contribution to the field of anthropology can best be understood in the context of balance of forces between these domains of the personal and public In the latter part of the book he gives detailed attention to the principal conceptual issues that have confronted research and theory in the study of kinship and social organizations since Morgan's time He shows that kinship institutions are autonomous not mere by-products of economic requirements and demonstrates the moral base of kinship in the rule of amity The Gift of Kinship Edward LiPuma, 1988 Edward LiPuma presents an ethnography of Maring social organization in order to develop a generative theory of Highland societies *Introduction to Kinship and Social Organization* Burton Pasternak, 1976 **Kinship and Social Organisation (Routledge Revivals)** W.
