Dark Money, Super PACs, and the 2012 Election Melissa M. Smith, Larry Powell, 2014-02-27 More than two billion dollars. That's how much money was spent in the 2012 presidential campaign, the most expensive campaign in history. Each party raised and spent more than one billion dollars as the traditional boundaries of campaign financing were ignored. Both parties could do so because they were playing in a game with new rules, rules that largely developed after the 2010 Supreme Court ruling known as Citizens United. That case removed many restrictions on donation limits, particularly for corporations and unions. The result was the development of a new set of political players called Super PACs that were allowed to enter the political arena and spend an unlimited amount of money on behalf of clients. This book looks at how Super PACs raised and spent money and influenced the 2012 election. It provides an insightful look at how both right and left leaning groups approached the election and impacted the political process.

Boot and Shoe Recorder, 1914 **The 2012 Nomination and the Future of the Republican Party** William J. Miller Jr., 2013-08-28 The 2012 Republican nomination process went on longer than most pundits predicted early on. While Mitt Romney began the season as the prohibitive favorite, he was tested repeatedly by what was seemingly the Republican flavor of the week, including Michele Bachmann, Herman Cain, Rick Perry, Newt Gingrich, and Rick Santorum. The sheer number of candidates who were viewed as legitimate contenders demonstrates the fundamental concern facing Republicans: moving forward, a fractured party. The pro-business Tea Party and evangelical Christian wings disagreed in 2010 on who would provide the best alternative to Democratic President Barack Obama, and as a result created a crippling nomination period. By the time Romney was able to claim victory, he was severely wounded after countless attacks from his fellow Republicans. To this internal discontent, we can also add the changing national demographics that could lead to electoral problems for Republicans in their own right. Consider that Mitt Romney did better with older white male voters than John McCain had. Unfortunately, the share of the national vote for this demographic decreased from 2008 to 2012. As Rand Paul stated recently, the time has come for Republicans to reach out to individuals who do not fit the stereotypical Republican

image if they have any hope of being successful In this volume we assess how the 2012 GOP nomination cycle is indicative of just how the Republican Party has become in the words of pundit Cuck Warren a Mad Men Party in a Modern Family World
