Laura Z Laura Zametkin Hobson,1983 A Revolution in Type Ayelet Brinn,2023-11-14 A fascinating glimpse into the vital complex and often unexpected ways that issues of women and gender shaped the development of the American Yiddish press Symptoms of Culture Marjorie B. Garber,1998 The symptoms of culture are the anxieties that underlie modern life the instability of gender roles the mysteries of female sexuality the enigma of authority the desire for greatness in ourselves and our heroes From concern over fake orgasms to our worries about Great Books reading lists from wanting God on our side at sports contests to wanting Shakespeare on our side whenever we want to sound important we are a walking case of symptoms Whatever the modern illness may be the doctor locates the symptoms in a box of Jello or in Charlotte's marvelous web on the football field or in the bedroom in our great Mr Shakespeare in our classroom or the courtroom or in a sneeze

Visions of Belonging Judith E. Smith,2004-09-01 Visions of Belonging explores how beloved and still remembered family stories *A Tree Grows in Brooklyn* *I Remember Mama* *Gentleman's Agreement* *Death of a Salesman* *Marty* and *A Raisin in the Sun* entered the popular imagination and shaped collective dreams in the postwar years and into the 1950s These stories helped define widely shared conceptions of who counted as representative Americans and who could be recognized as belonging The book listens in as white and black authors and directors readers and viewers reveal divergent emotionally textured and politically charged social visions Their diverse perspectives provide a point of entry into an extraordinary time when the possibilities for social transformation seemed boundless But changes were also fiercely contested especially as the war's culture of unity receded in the resurgence of cold war anticommunism and demands for racial equality were met with intensifying white resistance Judith E Smith traces the cultural trajectory of these family stories as they circulated widely in bestselling paperbacks hit movies and popular drama on stage radio and television Visions of Belonging provides unusually close access to a vibrant conversation among white and black Americans about the boundaries between public life and family matters and the meanings of race and ethnicity Would the new appearance of white working class ethnic characters expand Americans understanding of democracy Would these stories challenge the color line How could these stories simultaneously show that black families belonged to the larger family of the nation while also representing the forms of danger and discriminations that excluded them from full citizenship In the 1940s war driven challenges to racial and ethnic borderlines encouraged hesitant trespass against older notions of normal But by the end of the 1950s the cold war cultural atmosphere discouraged probing of racial and social inequality and ultimately turned family stories into a comforting retreat from politics The book crosses disciplinary boundaries suggesting a novel method for cultural history by probing the social history of literary dramatic and cinematic texts Smith's innovative use of archival research sets authorial intent next to audience reception to show how both contribute to shaping the contested meanings of American belonging *Contemporary Jewish-American Novelists* Joel Shatzky,Michael Taub,1997-07-16 Since World War II Jewish American novelists have

significantly contributed to the world of literature This reference book includes alphabetically arranged entries for more than 75 Jewish American novelists whose major works were largely written after World War II Included are entries for both well known and relatively obscure novelists many of whom are just becoming established as significant literary figures While the volume profiles major canonical figures such as Saul Bellow Norman Mailer and Bernard Malamud it also aims to be more inclusive than other works on contemporary Jewish American writers Thus there are entries for gay and lesbian novelists such as Lev Raphael and Judith Katz whose works challenge the more orthodox definition of Jewish religious and cultural traditions Art Speigelman whose controversial IMAUS R established a new genre by combining elements of the comic book and the conventional novel and newcomers such as Steve Stern and Max Apple who have become more prominent within the last decade Each entry includes a brief biography a discussion of major works and themes an overview of the novelist s critical reception and a bibliography of primary and secondary sources A thoughtful introduction summarizes Jewish American fiction after World War II and a selected general bibliography lists additional sources of information Since World War II Jewish American novelists have made numerous significant contributions to contemporary literature Authors of earlier generations would frequently write about the troubles and successes of Jewish immigrants to America and their works would reflect the world of European Jewish culture But like other immigrant groups Jewish Americans have become increasingly assimilated into mainstream American culture Many feel the loss of their heritage and long for something to replace the lost values of the old world This reference book includes alphabetically arranged entries for more than 75 Jewish American novelists whose major works were largely written after World War II Included are entries for both well known and relatively obscure novelists many of whom are just becoming established as significant literary figures While the volume profiles major canonical figures such as Saul Bellow Norman Mailer and Bernard Malamud it also aims to be more inclusive than other works on contemporary Jewish American writers Thus there are entries for gay and lesbian novelists such as Lev Raphael and Judith Katz whose works challenge the more orthodox definitions of Jewish religious and cultural traditions Art Speigelman whose controversial IMAUS R established a new genre by combining elements of the comic book and the conventional novel and newcomers such as Steve Stern and Max Apple who have become more prominent within the last decade Each entry includes a brief biography a discussion of major works and themes an overview of the novelist s critical reception and a bibliography of primary and secondary sources A thoughtful introduction summarizes Jewish American fiction after World War II and a selected general bibliography lists additional sources for information *Laura Z Laura Zametkin Hobson, 1986 The American Aberdeen-Angus Herd-book American Aberdeen-Angus Breeders' Association, 1920*
