Law For Social Workers A Canadian Guide:

Law for Social Workers Rachael Bimbaum, Janet Eaton Mosher, 2016 *Law for Social Workers* Elaine J. Vayda, Mary T. Satterfield, 1989-01-01 Encyclopedia of Canadian Social Work Francis J. Turner, 2006-01-01 All of us as Canadians are touched throughout our lives by some aspect of social welfare either as recipients donors or taxpayers But despite the importance of the social network in our country there has been no single source of information about this critical component of our society Even professionals in the field of social work or social services have not had a comprehensive volume addressing the myriad features of this critical societal structure The Encyclopedia of Canadian Social Work fills this need Over five hundred topics important to Canadian social work are covered written by a highly diverse group of social workers covering all aspects of the field and all areas of the country Practitioners policy makers academics social advocates researchers students and administrators present a rich overview of the complexity and diversity of social work and social welfare as it exists in Canada The principal finding from this project underscores the long held perception that there is a Canadian model of social work that is unique and stands as a useful model to other countries The Encyclopedia of Canadian Social Work will be an important source of information both to Canadians and to interested groups around the world The Encyclopedia of Canadian Social Work is available in e book version by subscription or from university and college libraries through the following vendors Canadian Electronic Library Ebrary MyiLibrary and Netlibrary The Practice of Field Instruction in Social Work Marion Bogo, Elaine J. Vayda, 1998 Social work professionals generally agree that one of the most critical components of the learning process for a practitioner in training is field education and that the field instructor has the greatest influence on a student s approaching career In Marion Bogo and Elaine Vayda s text field instructors will find a model for pedagogy based on the authors many years of experience both in field and classroom environments Now in its second edition completely revised and updated The Practice of Field Instruction in Social Work remains the only volume specifically intended for use by field instructors Bogo and Vayda address how the teaching professional can systematically address the critical societal organizational psycho social and interactive components of social work practice They discuss all phases of the field educator s work from student orientation to assessment and contracting from shepherding students learning processes to evaluating their work In addition they bring to the table the many practical concerns that affect today s teaching professional including the uses and abuses of the instructor student relationship ethical issues and working with students where differences in age ethnicity gender or disability may be important considerations This book also includes eight teaching modules each one a complete curriculum with numerous examples and exercises for use by field coordinators in the seminar setting and by field instructors Throughout the modules Bogo and Vayda present a wealth of case examples drawn from their teaching experience and that of others who have applied their highly effective pedagogical framework

Interprofessional Practice with Diverse Populations Allan Barsky, Esther Geva, Fern Westernoff, 2000-08-30 Concepts such as cultural competence multicultural practice and ethnosensitivity have taken root in the literature At the same time concepts such as cross disciplinary transdisciplinary interdisciplinary and interprofessional practice have been articulated Although these two trends coexist in print the literature in the various helping professions does not address whether and how the issues of client diversity and interprofessional practice can come together in productive and better informed ways The present book promises to close this gap and offer health care professionals theoretically grounded examples of best practices The range of diversity includes Native American Taiwanese Portuguese African American Algerian Irish South Asian and gay clients

Developing Practice Guidelines for Social Work Intervention Aaron Rosen, Enola K. Proctor, 2003-11-26 This book bridges the gap between social work knowledge and empirically based practice Although there is a significant need for the use of empirically tested and verified knowledge in social work practice the empirical basis of support is nearly absent from

practitioners considerations as they make clinical decisions in routine practice The authors advocate the development of readily available accessible and professionally sanctioned practice guidelines for use by practitioners a necessity in the age of managed care and demands for greater accountability effectiveness and efficiency in practice This book features a much needed discussion of racial and ethnic differentials in relation to practice guidelines and on the relationship between practice guidelines and different aspects of service delivery *The Canadian Abridgment*, 1981 National Library of Medicine Current Catalog National Library of Medicine (U.S.), 1970 First multi year cumulation covers six years 1965 70 *The Helping Professional's Guide to Ethics* Valerie Bryan, Scott Sanders, Laura E. Families Marvin B Sussman, Shirley Hanson, 2014-05-12 Here is a comprehensive source of vital information on single parent families in contemporary society. This book analyzes literature and empirical research concerning single parent families and explores issues and challenges they face. Contributing authors from many fields and perspectives examine a broad range of subjects relating to families in which one person is primarily responsible for parenting. The only state of the art compendium on the topic of single parent families available today, the book synthesizes empirical, theoretical, and contemporary literature about the diversity, myths, and realities of single parent families in western countries. Each chapter contains a demographic overview, definitions, a literature review, and implications for practice, research, education, and social policy. Theoretical and conceptual perspectives related to parenting and wider families are included. An analysis, synthesis, and commentary on single parent families concludes the volume. Themes highlighted throughout the book include socioeconomic and demographic characteristics of single parent families, cultural and ethnic features, and legal and ethical components. Some chapter topics include single parenthood following divorce, single parenthood following death of a spouse, never married teen mothers and fathers, female headed homeless families, adoptions by single parents, noncustodial mothers and fathers, grandparents as primary parents, single parents of children with disabilities. *Single Parent Families* contains additional resources useful for family professionals, an annotated bibliography, a video filmography, and a national community resource list. The book is intended for a multidisciplinary audience including sociologists, psychologists, health care professionals, social workers, therapists, and other researchers, clinicians, policymakers, and educators. An ideal primary or reference text for undergraduate and graduate level programs, the book can also serve as a tool for staff development and continuing education in service agencies. *Deadbeat Dads* Deena Mandell, 2002-01-01 And all too often, as this study shows, in the struggle between the state's protection of its financial interests and the fathers' focus on their personal rights, the needs of children disappear.
