Equipment Planning Monitoring Organizing Missions Electronic warfare Counter reconnaissance And more It also looks at the development of intelligence employment considerations for reconnaissance and defines the roles of various personnel in planning operations Intended for maneuver commanders and their staffs intelligence staffs and collection managers and other personnel involved in planning and reconnaissance and counter reconnaissance operations and now available to everyone U S Army Reconnaissance and Surveillance Handbook provides an insider s look into the world of Army intelligence

Innovative Applications in Data Mining Nadia Nedjah, Luiza de Macedo Mourelle, Janusz Kacprzyk, 2009-01-17 Data mining consists of attempting to discover novel and useful knowledge from data trying to find patterns among datasets that can help in intelligent decision making However reports of real world case studies are not generally detailed in the literature due to the fact that they are usually based on proprietary datasets making it impossible to publish the results This kind of situation makes hard to evaluate in a precise way the degree of effectiveness of data mining techniques in real world applications On the other hand researchers of this field of expertise usually exploit public domain datasets This volume offers a wide spectrum of research work developed for data mining for real world application In the following we give a brief introduction of the chapters that are included in this book
