The Hard Stuff Wayne Kramer, 2018-08-14 The first memoir by Wayne Kramer legendary guitarist and cofounder of quintessential Detroit proto punk legends The MC5 Voyeuristically dramatic THE NEW YORK TIMES BOOK REVIEW In January 1969 before the world heard a note of their music the MC5 was on the cover of Rolling Stone Led by legendary guitarist Wayne Kramer the band was a reflection of the times exciting sexy violent chaotic and even out of control The missing link between free jazz and punk rock the MC5 toured the country played alongside music legends and had a rabid following their music acting as the soundtrack to the blossoming blue collar youth movement Kramer wanted to redefine what a rock n roll group was capable of and though there was power in reaching for that it was also a recipe for personal and professional disaster The band recorded three major label albums but by 1972 it was all over Kramer s story is literally a revolutionary one but it s also the deeply personal struggle of an addict and an artist a rebel with a great tale to tell From the glory days of Detroit to the junk sick streets of the East Village from Key West to Nashville and sunny L A in and out of prison and on and off of drugs Kramer s is the classic journeyman narrative but with a twist he s here to remind us that revolution is always an option

Evans,2023-04-19 At first it was thought to be just a bad case of flu spreading around but for sure it was not People always get sick from time to time and that was a fact Bad cold the flu or something similar This time it was something a lot worse Too many people were getting sick very sick too fat Strong headaches no energy bloodshot eyes dizziness dry coughing that won t go away tiredness loss of taste and smell stomach problems all the signs of flu symptoms but this wasn t flu it was something else Something a lot stronger than flu or influenza or any other related illnesses Further later symptoms people developed such as nausea bowel problems tightness in the chest problems in breathing leading to death More and more people caught the illness confusing everyone The government announced it to be some virus that was unknown over the weeks too late was the announcement The world medical health association found out and started to ask questions what was going on China seemed to be lenient to tell all this was reported down the chain and investigated further Chinese Scientist s worked hard to investigate the new virus 2 Many hundreds of people caught the virus and died in a short period of time this soon turned to thousands taken into hospital to be put on breathing ventilators to try and help them breath mostly they died handfuls of people fought the virus with the help of the breathing ventilators they were kept in intensive care and monitored they too passed away in the end This virus spread around ninety percent of China very quickly The Chinese government

made quick rules for their people and passed their developments to the world medical association who were not too happy with the slowness of China's reports. Big decisions were being made behind closed doors. Weeks passed. China reported thousands of deaths to other foreign governments as they should of a lot sooner. Quarantine levels were put in place too late. Lock down rules were taken on. Chinese soldiers were used to disinfect the streets. United Nations met as quickly as they could and damned China for this new virus that came from their country. The virus was now spreading across Eastern Asia and leaking into Europe. It was discovered leaked out that this virus had been spreading around China for weeks could be months it wasn't proven some government officials said could have been longer who knows others talked about. It became very messy. Countries governments talked and talked strongly together to try and find out what exactly what was going on. China announced from their scientists results what they had discovered about the virus. They informed it was a pandemic not air born spread around from human to human coughing sneezing talking to close to another person could pass on the virus. China called the virus Covid 19 another type of Corona virus. They informed it was much stronger than past virus's the world had already encountered and was continually investigating them this was also known to many countries leaders. The world health association was not impressed and demanded there was little reply from China just their reports on other viruses they had been working on. UK government officials along with the world health organisation had in depth behind closed doors trying to get to grips with this new virus and what exactly was its strength. China still talked behind clouds informing that it was not their fault and that it would blow over. It was not the case as more and more cases were discovered around the world. UK's prime minister held instance cabinet meetings trying to get to grips with this new virus and preparing what to tell the nation. Little was told and was told to late many people thought but that was always is the case with the government in the UK many people have commented in the past.
