Fire On The Hangar Deck:

Fire on the Hangar Deck Wynn F. Foster, 2001 To tell the tragic story of this terrible fire Wynn Foster an attack pilot who flew missions from the Oriskany draws on his firsthand knowledge of the ship and her systems extensive documentary research and in depth interviews with survivors *Aircraft Carrier Flight and Hangar Deck Fire Protection: History and Current Status*, 2005 This report covers the history and current status of fire protection on aircraft carrier flight decks and hangar decks Fire protection on aircraft carriers is a joint responsibility of the Naval Sea Systems Command and the Naval Air Systems Command The report begins with a quick orientation covering some of the significant physical characteristics of aircraft carriers that are relevant to fire protection The fire hazardous nature of carrier operations is discussed specifically with focus on some of the concerns relative to air launched ordnance Next a review of firefighting systems including the firefighting agents currently in use as well as the current tactics for fighting fires on the flight deck and the hangar deck is provided We review the history of carrier fires and emphasize some of the lessons learned including the research and development programs that resulted from those fires Some recent program initiatives under NAVAIR project W1819 are covered Finally the report covers a list of some current shortcomings and future concerns *Fire, Fire, Fire on the Flight Deck Aft; This Is Not a Drill* Kenneth V. Killmeyer, 2018-07-24 In March of 1967 Ken Killmeyer became a crew member of USS Forrestal CVA 59 the first of the super aircraft carriers In 1995 Ken was offered the position of historian of the USS Forrestal Association During his time as a historian Ken began collecting personal experience narratives of crew members who were aboard along with him during the worst naval disaster to befall a ship since World War II Ken has combined those stories with USS Forrestals deck logs and the official investigation report into the cause of the Forrestal fire and has given the reader an undeniable window into this devastating event Ken takes the reader on a journey like none other from high above the busy flight deck on the navigation bridge down to deep within Forrestals hull in the hot steamy engine rooms The reader will hear from the crew in their own words what they experienced before during and after this most tragic day in the lives of USS Forrestals Westpac 1967 crew Further interest in USS Forrestal can be obtained using the following source USS Forrestal Association Inc www.USSForrestal.com Facebook.com USS Forrestal CVA 59 CV 59 and AVT 59 Facebook.com USS Forrestal CV 59 Facebook.com USS Forrestal AVT 59 Decommission Facebook.com USS Forrestal Crew Members

Fire From the Sky Robert C. Stem, 2010-03-17 By late 1944 the war in the Pacific had turned decisively against the Japanese and overwhelming Allied forces began to close in on the home islands At this point Japan unveiled a terrifying new tactic the suicide attack or Kamikaze named after the Divine Wind which had once before in medieval times saved Japan from invasion Intentionally crashing bomb laden aircraft into Allied warships these piloted guided missiles at first seemed unstoppable calling into question the naval strategy on which the whole war effort was based This book looks at the origins of the campaign at its strategic goals the organization of the Japanese special attack forces and the culture that made suicide

not just acceptable but honourable Inevitably much mythology has grown up around the subject and the book attempts to sort the wheat from the chaff One story that does stand up is the reported massive stock piling of kamikaze aircraft for use against any Allied invasion of the home islands if the atomic bombs had not forced Japans surrender However its principal focus is on the experience of those in the Allied fleets on the receiving end of this peculiarly alien and unnerving weapon how they learnt to endure and eventually counter a threat whose potential was over estimated by both sides In this respect it has a very modern resonance

Bloody Sixteen Peter Fey,2018-05-01 Strategy and reality collide in Peter Fey s gripping history of aircraft carrier USS Oriskany s three deployments to Vietnam with Carrier Air Wing 16 CVW 16 Its tours coincided with the most dangerous phases of Operation Rolling Thunder the ill fated bombing campaign against North Vietnam and accounted for a quarter of all the naval aircraft lost during Rolling Thunder the highest loss rate of any carrier air wing during Vietnam The Johnson administration s policy of gradually applied force meant that Oriskany arrived on station just as previous restrictions were lifted and bombing raids increased As a result CVW 16 pilots paid a heavy price as they ventured into areas previously designated off limits by Washington DC Named after one of the bloodiest battles of the Revolutionary War the Oriskany lived up to its name After two years of suffering heavy losses the ship caught fire a devastating blow given the limited number of carriers deployed With only three months allotted for repairs Oriskany deployed a third and final time and ultimately lost more than half of its aircraft and more than a third of its pilots The valor and battle accomplishments displayed by Oriskany s aviators are legendary but the story of their service has been lost in the disastrous fray of the war itself Fey portrays the Oriskany and its heroes in an indelible memorial to the fallen of CVW 16 in hopes that the lessons learned from such strategic disasters are not forgotten in today s sphere of war bent politics

Pacific Thunder Thomas McKelvey Cleaver,2017-10-19 On 27 October 1942 four Long Lance torpedoes fired by the Japanese destroyers Makigumo and Akigumo exploded in the hull of the aircraft carrier USS Hornet CV 8 Minutes later the ship that had launched the Doolittle Raid six months earlier slipped beneath the waves of the Coral Sea Of the pre war carrier fleet the Navy had struggled to build over 15 years only three were left Enterprise that had been badly damaged in the battle of Santa Cruz USS Saratoga CV 3 which lay in dry dock victim of a Japanese submarine torpedo and the USS Ranger CV 4 which was in mid Atlantic on her way to support Operation Torch For the American naval aviators licking their wounds in the aftermath of this defeat it would be difficult to imagine that within 24 months of this event Zuikaku the last survivor of the carriers that had attacked Pearl Harbor would lie at the bottom of the sea Alongside it lay the other surviving Japanese carriers sacrificed as lures in a failed attempt to block the American invasion of the Philippines leaving the United States to reign supreme on the world s largest ocean This is the fascinating account of the Central Pacific campaign one of the most stunning comebacks in naval history as in 14 months the US Navy went from the jaws of defeat to the brink of victory in the Pacific

Naval Personnel,1969 **Tidal Wave** Thomas McKelvey Cleaver,2018-05-31 The United States Navy won such overwhelming victories in 1944 that had the navy faced a different enemy the war would have been over at the conclusion of the Battle of Leyte Gulf However in the moment of victory on 25 October 1944 the US Navy found itself confronting an enemy that had been inconceivable until it appeared The kamikaze divine wind in Japanese was something Americans were totally unprepared for a violation of every belief held in the West The attacks were terrifying regardless of the damage inflicted on an attacking airplane there was no certainty of safety aboard the ship until that airplane was completely destroyed Based on first person accounts Tidal Wave is the story of the naval campaigns in the Pacific from the victory at Leyte Gulf to the end of the war in which the US Navy would fight harder for survival than ever before **Navy Airman's Manual** United States. Bureau of Aeronautics,1956 **Carrier Lexington** ,1996 II as the second of the great Essex class carriers to be commissioned Lexington destroyed more than one thousand Japanese aircraft sank more than a million tons of enemy shipping in the Pacific and in September 1945 had the honor of being the first American aircraft carrier to enter Tokyo Bay in victory Photographer writer Hugh Power has captured every aspect of this great warship through beautiful photography detailed floor plans and illuminating text Serving **Aviation Boatswain's Mate H 1 & C** United States. Bureau of Naval Personnel,1964 *Airman* United States. Bureau of Naval Personnel,1957 **Trial by Fire** P. T. Deutermann,2021-07-13 Based on a true story P T Deutermann s Trial by Fire is a dramatic WWII novel of attack survival and triumph on board an aircraft carrier in the Pacific It s March 1945 and the war in the Pacific is approaching its apocalyptic climax The largest wartime armada ever assembled Task Force 58 is closing in on Okinawa once taken it will finally put American B 29 bombers in comfortable range of the home islands of Japan and victory At the heart of the fleet are 14 Essex class aircraft carriers including the USS Franklin known as Big Ben a 27 000 ton behemoth home to 3 600 crewmen and 100 aircraft Just after dawn while crewmen prepare for battle a single Japanese Yokosuka D4Y bomber breaks through the clouds and drops a 500 pound semi armor piercing bomb on Big Ben The bomb rips through the wooden flight deck before exploding on the hangar deck amidst two dozen fully fueled and armed fighter bombers The resulting explosion engulfs both the hangar deck and all the planes spotted on the flight deck Bombs cook off and rockets howl in all directions both on the flight deck and down in the hangar bays Hundreds of men are forced to leap into the sea to escape the rivers of burning aviation gasoline leaving the captain with only one third of his crew of whom there are more dead wounded and trapped men left onboard than able bodied sailors Trial By Fire is the gripping novelization of how against all odds the sailors of the Franklin were able to save their ship after 3 agonizing days of battling the flames that ultimately claimed the lives of 832 men and injured 300 more Readers will be astounded and humbled by the heroic actions of a few extraordinarily brave sailors in the face of unending catastrophe *Scratch One Flattop* Robert C. Stern,2019-05-14 A study of the historic World War II naval battle the first

involving aircraft carriers and first in which neither warship was in sight of the other By the beginning of May 1942 five months after the Pearl Harbor attack the US Navy was ready to challenge the Japanese moves in the South Pacific When the Japanese sent troops to New Guinea and the Solomon Islands the Americans sent the carriers Lexington and Yorktown to counter the move setting the stage for the Battle of the Coral Sea In this book historian Robert C Stern analyzes the Battle of the Coral Sea the first major fleet engagement where the warships were never in sight of each other Unlike the Battle of Midway the Battle of the Coral Sea has received remarkably little study Stern covers not only the action of the ships and their air groups but also describes the impact of this pivotal engagement His analysis looks at the short term impact as well as the long term implications including the installation of inert gas fuel system purging on all American aircraft carriers and the push to integrate sensor systems with fighter direction to better protect against enemy aircraft The essential text on the first carrier air campaign Scratch One Flattop is a landmark study on an overlooked battle in the first months of the United States engagement in World War II His research into sources on both sides is exhaustive and he has used Japanese translators where necessary and appropriate to best illuminate materials His effort has taken years of meticulous scholarship and it shows Highly recommended Lisle A Rose The Northern Mariner Le marin du nord Quarterly of the National Fire Protection Association ,1929 Naval Aviation News ,1962 *Aviation Boatswain's Mate 3 & 2* United States.
