The Hidden Revelation Morson Livingston,2015-07-10 This book The Hidden Revelation started out because of my search for knowledge and my in depth studies of various religions I realized that we are more alike than we are different through that search I realized that the major religions of the world have more similarities than differences yet we think we are so different from each other Various parts of the world practices various religions and spiritual teachings and at the core the very message some traditions and some practices are one and the same Then why do we fight in the name

of religion Why do we kill in the name of religion Why do we look down at some look up at some and don't look at some at all Why do we discriminate and think we are better The basis for this book though not all encompassing seeks to highlight how the undertone of religions in the world are the same How at the core we are all seeking the same things in life which is peace love harmony contentment happiness and a connection to a power bigger than and greater than anyone of us This book shows how no matter what religion we belong too yes there are differences but the similarities far outweighs them So the question arises again Why do we fight why do we hate If we are all so alike we should be living in harmony we should be at peace we should be happy the beauty is we can all have that We just need to put our minor differences aside and connect at a heart level at a spiritual level and see God in each other Read the book and you would journey into a world where it is somewhat of a Utopia but we need that in order to see the big picture and to understand love in the Universe The settings used to describe various religions and practices also takes you on a travel and you get to picture parts of the world you may have on your bucket list Even some world class travelers who have visited some of these places might also be able to see it from another perspective If anything at all you would find at least one nugget to help improve your life and your perspective Spread love and unity *ALL FOR DT 2* Barbara Hagen,2025-06-29 Award winning poet Barbara Hagen who is a finalist and winner of the 2025 LITERARY GLOBAL INDEPENDENT AUTHOR AWARDS for her book *ALL FOR DT POETRY FOR OUR PRESIDENT* has created another poetry book which like the first book is a poetry anthology honoring our 47th President Inspired by the president's courage and determination to not allow the enemies of the United States to succeed in their attempts to bring down our country Ms Hagen wrote this book because she not only continues to admire our President's tenacity and perseverance but she truly respects him for not allowing the attempts on his life to deter him from devoting his passion and his love to our country *We Own the Sky* Luke Allnutt,2018-04-03 A triumphant story of a father and his little boy and a love that knows no limits Rob Coates is a survivor He'd thought he'd won the lottery of life a beautiful home an incredible wife Anna and their precious son Jack who makes every day an extraordinary adventure But when tragedy befalls his family Rob becomes his own worst enemy pushing away all he holds dear With his world now suddenly just outside of his grasp Rob turns to photography capturing the beautiful skyscrapers and clifftops he used to visit memories of the time when his family was happy And just when it feels as though there's nowhere left to turn Rob embarks on the most unforgettable of journeys to reclaim the joy and love he thought he'd lost Deeply emotional beautifully written and filled with tremendous heart *We Own the Sky* is a soaring debut about the strength of the human spirit and the boundlessness of love It is a stunningly honest reminder of life's greatest gifts showing how even a broken heart can learn to beat again **Robots in the Sky** Leonard Clasky,2021-07-15 In the 21st century people are starting to rely more frequently on robots for all kinds of things Inventions such as drones mechanical insects and self flying planes have changed the way people interact with the world around them Through accessible text augmented with full color photographs sidebars and intriguing fact boxes readers
