**Exploiting East Asian Cinemas** Ken Provencher, Mike Dillon, 2018-01-11 From the 1970s onward exploitation cinema as a concept has circulated inside and outside of East Asian nations and cultures in terms of aesthetics and marketing However crucial questions about how global networks of production and circulation alter the identity of an East Asian film as

mainstream or as exploitation have yet to be addressed in a comprehensive way *Exploiting East Asian Cinemas* serves as the first authoritative guide to the various ways in which contemporary cinema from and about East Asia has trafficked across the somewhat elusive line between mainstream and exploitation Focusing on networks of circulation distribution and reception this collection treats the exploitation cinemas of East Asia as mobile texts produced consumed and in many ways reappropriated across national and hemispheric boundaries As the processes of globalization have decoupled products from their nations of origin transnational taste cultures have declared certain works as art or trash regardless of how those works are received within their native locales By charting the routes of circulation of notable films from Japan China and South Korea this anthology contributes to transnationally accepted formulations of what constitutes East Asian exploitation cinema

**American Blood** Holly Jackson, 2013-10-04 Conventional understandings of the family in nineteenth century literary studies depict a venerated institution rooted in sentiment sympathy and intimacy American Blood upends this notion showing how novels of the period frequently emphasize the darker sides of the vaunted domestic unit Rather than a source of security and warmth the family emerges as exclusionary deleterious to civic life and antagonistic to the political enterprise of the United States Through inventive readings supported by cultural historical research Holly Jackson explores critical depictions of the family in a range of both canonical and forgotten novels Republican opposition to the generational transmission of property in early America emerges in Nathaniel Hawthorne s *The House of the Seven Gables* 1851 The tragic mulatta trope in William Wells Brown s *Clotel* 1853 is revealed as a metaphor for sterility and national death linking mid century theories of hybrid infertility to anxieties concerning the nation s crisis of political continuity A striking interpretation of Harriet Beecher Stowe s *Dred* 1856 occupies a subsequent chapter as Jackson uncovers how the author most associated with the enshrinement of domestic kinship deconstructs both scientific and sentimental conceptions of the family A focus on feminist views of

maternity and the family anchor readings of Anna E Dickinson's *What Answer* 1868 and Sarah Orne Jewett's *The Country of the Pointed Firs* 1896 while a chapter on Pauline Hopkins's *Hagar's Daughter* 1901 examines how it engages with socio-scientific discourses of black atavism to expose the family's role not simply as a metaphor for the nation but also as the mechanism for the reproduction of its unequal social relations. Cogently argued, clearly written and anchored in unconventional readings, *American Blood* presents a series of lively arguments that will interest literary scholars and historians of the family as it reveals how nineteenth-century novels imagine even welcome the decline of the family and the social order that it supports.

**Protecting Our Ports** Suzette R. Grillo, Rebecca J. Cruise, 2016-04-08 Since the terrorist attacks of September 11, 2001, there has been much discussion of the security of borders and ports of entry in the United States and around the world. Ports of entry, particularly sea ports, are viewed as one of the most defenceless targets for a terrorist attack. In response to this perceived vulnerability, a number of port security initiatives have been implemented both on both a domestic and international level. This timely project investigates a number of issues surrounding the container security issue. It examines the scope of containerized freight security, analyzes cooperation between agents in the United States and abroad, explores the politics of port security, and provides an assessment of 17 of the world's sea ports. The work sheds light on the container security threat and the domestic and international responses that have emerged, as well as those steps that still must be taken.

**Stan Getz** Nicholas Churchill, 2004-12-29 Some may only know the jazz legend Stan Getz, tenor saxophonist, for his bossa nova hits *Desafinado* and *The Girl from Ipanema*. He played in a wide variety of musical settings, such as big band, orchestral quartet, and duo. The incredible beauty of his sound sparked the late jazz great John Coltrane to say, "We would all play like Stan Getz if we could." When Getz died, jazz trumpeter Dizzy Gillespie said, "He was sheer genius. And there's one thing about this man: he was the most melodic player on the jazz scene." **Karl Barth's Theological Exegesis** Richard E. Burnett, 2004-06 Foreword by Bruce McCormack For many students of Scripture and Christian theology Karl Barth's break with liberalism is the most important event that has occurred in theology in over 200 years In Karl Barth's Theological Exegesis Richard E Burnett provides the first detailed look at this watershed event showing how Barth read the Bible before and after his break with liberalism how he came to read the Bible differently than most of his contemporaries and why Barth's contribution is still significant today As Burnett explains the crux of Barth's legacy is his abandonment of the hermeneutical tradition of Schleiermacher which had had such a profound influence on Christian thought in the nineteenth and twentieth centuries This hermeneutical tradition which began with Herder and extended through Dilthey Troeltsch Wobbermin Wernle and Barth himself prior to 1915 is characterized by its attempt to integrate broad aspects of interpretation to establish universally valid rules of interpretation on the basis of a general anthropology and by its reliance on empathy Barth's discovery that the being of God is the hermeneutical problem implied that the object to be known should determine the way taken in knowing This fundamental insight brought about a hermeneutical revolution that gave priority to content over method to actual exegesis over hermeneutical theory The development of Barth's new approach to Scripture is especially evident in his Römische Briefe period during which he developed a set of principles for properly reading Scripture Burnett focuses on these principles which have never been discussed at length or viewed specifically in relationship to Schleiermacher and presents a study that challenges both neo orthodox and postmodern readings of Barth This is a crucial piece of scholarship Not only is it the first major book in English on Barth's hermeneutics but it also employs pioneering research in Barth studies Burnett includes in his discussion important material only recently discovered in Switzerland and made available here in English for the first time namely six preface drafts that Barth wrote for his famous Romans commentary which some regard as the greatest theological work of all time In making a major contribution to Barth studies this volume will also inform scholars pastors and students whose interests range from modern Christian theology to the history of biblical interpretation
