Hilltown Friends:

Hilltown Friends Betty Friesen, 2015-08-18 Mom Betty Friesen wrote this story the fourth and last book in the series about The Martin Family. It was printed in 1987. It has been out of print for several years but people have been asking for it. The story continues the adventures of the Martin Family, a home-grown family with good values and morals. Follow their adventures in all the things a family experiences as the Martin Family lives through them. They are described in an interesting way. Children love this book and adults will enjoy reading it to the children too. The Aesthetics and Politics of the Online Self Donatella Della Ratta, Geert Lovink, Teresa Numerico, Peter Sarra, 2022-01-01 This volume investigates our dissonant and exuberant existences online. As social media users, we know we're under surveillance yet we continue to click like, love, and share ourselves online as if nothing was. So how do we overcome the current online identity regime? Can we overthrow the rule of Narcissus and destroy the planetary middle-class subject? In this catalogue of strategies, the reader will find stories on hacker groups, gaming platforms in the occupied territories, art objects, selfies, augmented reality, Gen Z autoethnographies, love, and life. The authors of this anthology believe we cannot simply put vanity aside and a rational analysis of platform capitalism is not going to convince the young on TikTok nor liberate us from Zuckerbergian indentured servitude. Do we really need to wade through the subjective mud and learn more about online aesthetics? The answer is yes. Writing by Wendy Chun, Franco Berardi Bifo, Julia Preisker, Katherine Behar, Rebecca Stein, Fabio Cristiano, Emilio Distretti, Natalie Bookchin, Ana Peraica, Mitra Azar, Donatella Della Ratta, Gabriella Coleman, Marco Deseriis, Alberto Micali, Daniel de Zeeuw, Giovanni Boccia, Artieri, Jodi Dean. Among friends Clifford Lee Brownell, 1959. Hilltown Friends : More about the Martin Family and Their Neighbors Andrew Friesen, Mrs., 1987. Caleb Krinkle Charles Carleton Coffin, 1874. *Dan of Millbrook* Charles Carleton Coffin, 1894. **Discriminating Data** Wendy Hui Kyong Chun, 2021-11-02 How big data and machine learning encode discrimination and create agitated clusters of comforting rage. In *Discriminating Data*, Wendy Hui Kyong Chun reveals how polarization is a goal, not an error, within big data and machine learning. These methods, she argues, encode segregation, eugenics, and identity politics through their default assumptions and conditions. Correlation, which grounds big data's predictive potential, stems from twentieth-century eugenic attempts to breed a better future. Recommender systems foster angry clusters of sameness through homophily. Users are trained to become authentically predictable via a politics and technology of recognition. Machine learning and data analytics thus seek to disrupt the future by making disruption impossible. Chun, who has a background in systems design, engineering, as well as media studies and cultural theory, explains that although machine learning algorithms may not officially include race as a category, they embed whiteness as a default. Facial recognition technology, for example, relies on the faces of Hollywood celebrities and university undergraduates, groups not famous for their diversity. Homophily emerged as a concept to describe white U.S. resident attitudes to living in biracial yet segregated public housing. Predictive policing technology deploys models trained on studies

of predominantly underserved neighborhoods Trained on selected and often discriminatory or dirty data these algorithms are only validated if they mirror this data How can we release ourselves from the vice like grip of discriminatory data Chun calls for alternative algorithms defaults and interdisciplinary coalitions in order to desegregate networks and foster a more democratic big data **The Christian's penny magazine, and friend of the people [ed. by J.
