Schaeffer, 2004-07-08 Himalayan Hermitess is a vivid account of the life and times of a Buddhist nun living on the borderlands of Tibetan culture Orgyan Chokyi 1675-1729 spent her life in Dolpo the highest inhabited region of the Nepal Himalayas Illiterate and expressly forbidden by her master to write her own life story Orgyan Chokyi received divine inspiration defied tradition and composed one of the most engaging autobiographies of the Tibetan literary tradition The Life of Orgyan Chokyi is the oldest known autobiography authored by a Tibetan woman and thus holds a critical place in both Tibetan and Buddhist literature In it she tells of the sufferings of her youth the struggle to escape menial labor and become a hermitess her dreams and visionary experiences her relationships with other nuns the painstaking work of contemplative practice and her hard won social autonomy and high mountain solitude In process it develops a compelling vision of the relation between gender the body and suffering from a female Buddhist practitioner's perspective Part One of Himalayan Hermitess presents a religious history of Orgyan Chokyi's Himalayan world the Life of Orgyan Chokyi as a work of literature its portrayal of sorrow and joy its perspectives on suffering and gender as well as the diverse religious practices found throughout the work Part Two offers a full translation of the Life of Orgyan Chokyi Based almost entirely upon Tibetan documents never before translated Himalayan Hermitess is an accessible introduction to Buddhism in the premodern Himalayas **Religion and Modernity in the Himalaya** Megan Adamson Sijapati, Jessica Vantine Birkenholtz, 2016-03-10 Religion has long been a powerful cultural social and political force in the Himalaya Increased economic and cultural flows growth in tourism and new forms of governance and media however have brought significant changes to the religious traditions of the region in the twentieth and twenty-first centuries This book presents detailed case studies of lived religion in the Himalaya in this context of rapid change to offer intra-regional perspectives on the ways in which lived religions are being re-configured or re-imagined Based on original fieldwork this book documents understudied forms of religion in the region and presents unique perspectives on the phenomenon and experience of religion discussing why when and where practices discourses and the category of religion itself are engaged by varying communities in the region It yields fruitful insights into both the religious traditions and lived human experiences of Himalayan peoples in the modern era Presenting new research and perspectives on the Himalayan region this book should be of interest to students and scholars of South Asian Studies Religious Studies and Modernity Encyclopedia of Monasticism William M. There a group of traders have greatly extended their external relations over the past century in the form of long distance trade ventures thereby thoroughly changing the internal conditions of socio economic organizations in their home district The object of the study is to establish whether larger geohistorical processes of structural change may be conceptualized in such a way as to link structuration at the level of the localized social group to the dynamics of the wider regional setting

High Frontiers Kenneth Michael Bauer, 2004-04-07 Dolpo is a culturally Tibetan enclave in one of Nepal s most remote regions The Dolpo pa or people of Dolpo share language religious and cultural practices history and a way of life Agro pastoralists who live in some of the highest villages in the world the Dolpo pa wrest survival from this inhospitable landscape through a creative combination of farming animal husbandry and trade High Frontiers is an ethnography and ecological history of Dolpo tracing the dramatic transformations in the region s socioeconomic patterns Once these traders passed freely between Tibet and Nepal with their caravans of yak to exchange salt and grains they relied on winter pastures in Tibet to maintain their herds After 1959 China

assumed full control over Tibet and the border was closed restricting livestock migrations and sharply curtailing trade At the same time increasing supplies of Indian salt reduced the value of Tibetan salt undermining Dolpo s economic niche Dolpo s agro pastoralists were forced to reinvent their lives by changing their migration patterns adopting new economic partnerships and adapting to external agents of change The region has been transformed as a result of the creation of Nepal s largest national park the making of Himalaya a major motion picture filmed on location the increasing presence of nongovernmental organizations and a booming trade in medicinal products High Frontiers examines these transformations at the local level and speculates on the future of pastoralism in this region and across the Himalayas **Himalaya** John Keay,2022-11-08 Excellent packed with information and interesting anecdotes The Washington Post A groundbreaking new look at Himalaya and how climate change is re casting one of the world s most unique geophysical historical environmental and social regions More rugged and elevated than any other zone on earth Himalaya embraces all of Tibet plus six of the world s eight major mountain ranges and nearly all its highest peaks It contains around 50 000 glaciers and the most extensive permafrost outside the polar region 35% of the global population depends on Himalaya s freshwater for crop irrigation protein and increasingly hydro power Over an area nearly as big as Europe the population is scattered often nomadic and always sparse Many languages are spoken some are written and few are related Religious allegiances are equally diverse The region is also politically fragmented its borders belonging to multiple nations with no unity in how to address the risks posed by Himalaya s environment including a volatile near tropical latitude in which temperatures climb from sub zero at night to 80 F by day Himalaya has drawn an illustrious succession of admirers from explorers surveyors and sportsmen to botanists and zoologists ethnologists and geologists missionaries and mountaineers It now sits seismically unstable as tectonic plates continue to shift and the region remains gridlocked in a global debate surrounding climate change Himalaya is historian John Keay s striking case for this spectacular but endangered corner of the planet as one if its most essential wonders Without an other worldly ethos and respect for its confounding utterly fascinating features John argues Himalaya will soon cease to exist *Long Lives and Untimely Deaths* Barbara Gerke,2011-12-23 How do Tibetans in India s Darjeeling Hills understand the life span and various life forces that influence longevity This book analyses ethnographic and textual material demonstrating how Tibetans utilise temporal frameworks in medical astrological divinatory and ritual contexts to locate and reckon life forces influencing their life spans **Nepal** Nagendra Kr Singh,1997 Historical development of the kingship of Nepal during 14th to 18th centuries *Buddhist Tantra: Methodology and Historiography* Pranshu Samdarshi,2019-01-24 This book analyses our conventional ways of looking at Buddhism in general and Buddhist tantra in particular It investigates how the frameworks and structures that were developed for European and Biblical studies have been deployed to interpret various facets of Buddhism Many such models that still dominate the historical imagination of Buddhist studies have been examined in this book This book also proposes an alternative approach towards the Buddhist

studies and advocates incorporating the critical study of tantra texts from the perspective of traditional accounts

Passionate Enlightenment Miranda Shaw, 2022-06-07 The now classic exploration of the role of women and the feminine in Buddhist Tantra The crowning cultural achievement of medieval India Tantric Buddhism is known in the West primarily for the sexual practices of its adherents who strive to transform erotic passion into spiritual bliss Historians of religion have long held that this attempted enlightenment was for men only and that women in the movement were at best marginal and subordinated and at worst degraded and exploited In *Passionate Enlightenment* Miranda Shaw argues to the contrary and presents extensive evidence of the outspoken and independent female founders of the Tantric movement and their creative role in shaping its distinctive vision of gender relations and sacred sexuality Including a new preface by the author this Princeton Classics edition makes an essential work available for new audiences
