Histoire De Paris:

Histoire de Paris R. Heron de Villefosse, 1955 **Histoire de Paris** Pierre Lavedan, 1977 The Gamin de Paris in Nineteenth-Century Visual Culture Marilyn R. Brown, 2017-05-08 The revolutionary boy at the barricades was memorably envisioned in Eugène Delacroix's painting *Liberty Leading the People* 1830 and Victor Hugo's novel *Les Misérables* 1862 Over the course of the nineteenth century images of the Paris urchin entered the collective social imaginary as cultural and psychic sites of memory whether in avant garde or more conventional visual culture Visual and literary paradigms of the mythical gamin de Paris were born of recurring political revolutions 1830 1832 1848 1871 and of masculine bourgeois identity constructions that responded to continuing struggles over visions and fantasies of nationhood With the destabilization of traditional patriarchal family models the diminishing of the father's symbolic role and the intensification of the brotherly urchin's psychosexual relationship with the allegorical motherland what had initially been socially marginal eventually became symbolically central in classed and gendered inventions and repeated re-inventions of fraternity people and nation Within a fundamentally split conception of the people the bohemian boy insurrectionary an embodiment of freedom was transformed by ongoing discourses of power and reform of victimization and agency into a capitalist entrepreneur schoolboy colonizer and budding military defender of the fatherland A contested figure of the city became a contradictory emblem of the nation **Nouvelle histoire de Paris** Jean-Pierre Babelon, 1987 The Dead and the Living in Paris and London, 1500-1670 Vanessa Harding, 2002-06-20 This 2002 book is an exploration in social history showing how the practices surrounding death can illumine urban culture *Histoire de Paris* Université de Paris (1896-1968), 1912

Making Modern Paris Christopher Curtis Mead, 2012 Investigates how architecture technology politics and urban planning came together in French architect Victor Baltard's creation of the Central Markets of Paris Presents a case study of the historical process that produced modern Paris between 1840 and 1870 *Revolutionary Justice in Paris, 1789-1790* Barry M. Shapiro, 2002-10-03 This book examines how France's revolutionary authorities handled political opposition in the year following the fall of the Bastille Though demands for more severe treatment of the enemies of the new regime were frequently and loudly expressed and though portents and warning signs of the coming unwillingness to tolerate opposition were hardly lacking political justice in 1789-90 was in fact characterized by a remarkable degree of indulgence and forbearance Through an investigation of the judicial affairs which attracted the most public attention in Paris during this period this study seeks to identify the factors which produced a temporary victory for policies of mildness and restraint

Politics in the Marketplace Katie L. Jarvis, 2019 Politics in the Marketplace integrates politics economics and gender to ask how the Dames des Halles invented notions of citizenship through everyday trade during the French Revolution While analyzing how marketplace actors shaped nascent democracy and capitalism it challenges the interpretation that revolutionary citizenship was inherently masculine from the outset *Music and Ceremony at Notre Dame of Paris,*

500-1550 Craig Wright,2008-10-30 This book is a history of the early musical life of the Parisian cathedral of Notre Dame All aspects of the musical establishment of Notre Dame are covered from Merovingian times to the period of the wars of religion in France Nine discrete essays discuss the history of Parisian chant and liturgy and the pattern and structure of the cathedral services in the late Middle Ages Notre Dame polyphony and the composers most closely associated with the cathedral among them Leoninus Perotinus and Philippe de Vitry the organ and its repertoire the choir the musical education and performing traditions and the relationship of the cathedral to the court **Catalogue of the Astor Library** Astor library (N.Y.),Charles Alexander Nelson,1886 **Histoire de Paris** Université de Paris. Paris Anthony Sutcliffe,1993-01-01 In this extensively illustrated work one of Paris leading historians links the beauty of the city to its harmonious architecture the product of a powerful tradition of classical design running from the Renaissance through the 20th century **The Encyclopædia Britannica** Thomas Spencer Baynes,1891 **The New Werner Twentieth Century Edition of the Encyclopaedia Britannica** ,1906 Catalogue of the Library of the Boston Athenaeum ,1874 **Subject Index of the Modern Works Added to the Library of the British Museum in the Years ...** British Museum. Department of Printed Books,1903 The Artisan and the European Town, 1500-1900 Geoffrey Crossick,2016-12-05 Artisans played a central role in the European town as it developed from the Middle Ages onwards Their workshops were at the heart of productive activity their guilds were often central to the political and legal order of towns and their culture helped shape civic ritual and the urban order These essays which have all been specially written for this collection explore the relationships between artisans and their towns across Europe between the beginning of the early modern period and the end of the 19th century They pay special attention to the processes of economic juridical and political change that have made the 18th and early 19th centuries a period of such significance Written by leading historians of European artisans the essays question the myths about artisans that have long pervaded research in the field The leading myth was that shared by the artisans themselves the myth of decline and the belief in each generation that artisans in the past had inhabited a better age These essays open up for debate the nature of artisanship the way economic change affected craft production the political role of artisans the cultural identification of the artisans with work and masculinity and the way changing urban society and changing urban structure posed threats to which the artisans had to respond
