Kipling Auden And Co Essays:

Kipling, Auden & Co Randall Jarrell, 1980 Kipling, Auden & Co Randall Jarrell, 1980 'Reshaping Shakespeare' and Later Literary Essays Cedric Watts, 2017 Cedric Watts M A Ph D Emeritus Professor of English at Sussex University gathers here seventeen of his literary essays which were previously published in a diversity of locations The authors discussed include Shakespeare Dickens James Fenimore Cooper Maupassant Kipling O Henry Anthony Hope Conan Doyle John Buchan John Galsworthy Stephen Crane Joseph Conrad James Joyce and Graham Greene *Kipling, Auden & Co* Randall Jarrell, 1980 *Kipling's Art of Fiction 1884-1901* David Sergeant, 2013-10-31 Kipling's Art of Fiction 1884 1901 re establishes its subject as a major artist Through extended close readings of individual works and unprecedentedly detailed attention to changes in location and readership it distinguishes between two kinds of Kipling fiction The first is coercive and concerned with the authoritarian control of meaning the second relates less directly to its immediate historical surroundings and is more aesthetically complex Misunderstandings have often resulted from confusing the two kinds of work Distinguishing between them allows for a newly coherent account of Kipling's career both explaining his artistic achievement and making clearer his identity as a political writer Changes in Kipling's narrative practice are tracked as he moves from India to Britain and the US and engages with a succession of new audiences and political contexts detailed readings are provided of such key texts as Plain Tales from the Hills The Jungle Books and Kim As well as revealing the precise nature of Kipling's artistry this book shows how properties of narrative which have been generally underrated such as embodiment and externality can be used to make sophisticated fictions and by linking these to Robert Louis Stevenson's discussion of the romance suggests new ways in which such work might be approached *Kipling Considered* Phillip Mallett, 1989-09-12

Warren, Jarrell, and Lowell Joan Romano Shifflett, 2020-06-03 Robert Penn Warren Randall Jarrell and Robert Lowell maintained lifelong well documented friendships with one another often discussing each other's work in private correspondence and published reviews Joan Romano Shifflett's Warren Jarrell and Lowell Collaboration in the Reshaping of American Poetry traces the artistic and personal connections between the three writers Her study uncovers the significance of their parallel literary development and reevaluates dominant views of how American poetry evolved during the mid twentieth century Familiar accounts of literary history most prominently the celebration of Lowell's Life Studies as a revolutionary breakthrough into confessional poetry have obscured the significance of the deep connections that Lowell shared with Warren and Jarrell They all became quite close in the 1930s with the content and style of their early poetry revealing the impact of their mentors John Crowe Ransom and Allen Tate whose aesthetics the three would ultimately modify and transform The three poets achieved professional maturity and success in the 1940s during which time they relied on one another's honest critiques as they experimented with changes in subject matter and modes of expression Shifflett shows that their works of the late 1940s were heavily influenced by Robert Frost This period found Warren Jarrell and Lowell infusing

ostensibly simple verse with multifaceted layers of meaning capturing the language of speech in diction and rhythm and striving to raise human experience to a universal level During the 1950s the three poets became public figures producing major works that addressed the nation's postwar need to reconnect with humanity Warren Jarrell and Lowell continued to respond in interlocking ways throughout the 1960s with each writer using innovative stylistic techniques to create a colloquy with readers that directed attention away from superficial matters and toward the important work of self reflection Drawing from biographical materials and correspondence along with detailed readings of many poems Warren Jarrell and Lowell offers a compelling new perspective on the shaping of twentieth century American poetry *W.H. Auden* Dr John Haffenden, 2002-09-11 This set comprises of 40 volumes covering nineteenth and twentieth century European and American authors These volumes will be available as a complete set mini boxed sets by theme or as individual volumes This second set compliments the first 68 volume set of Critical Heritage published by Routledge in October 1995 **The Oxford Handbook of Children's Literature** Julia Mickenberg, Lynne Vallone, 2012-11-29 Remarkably well researched the essays consider a wide range of texts from the U S Britain and Canada and take a variety of theoretical approaches including formalism and Marxism and those related to psychology postcolonialism reception feminism queer studies and performance studies This collection pushes boundaries of genre notions of childhood Choice Back cover of book **Bodies of Poems** Lennart Nyberg, 2009 The traditional borders between the arts have been eroded to reveal new connections and create new links between art forms Cultural Interactions is intended to provide a forum for this activity It will publish monographs edited collections and volumes of primary material on points of crossover such as those between literature and the visual arts or photography and fiction music and theatre sculpture and historiography *The Letters of Robert Lowell* Robert Lowell, 2007-03-20 These letters document the evolution of Lowell's work and illuminate another side of his life his deep friendships with other writers his manic depression his marriages to three prose writers and his involvement with the antiwar movement of the 1960s *What Became of Wystan* Alan Jacobs, 1998 In this lucid and balanced treatise Alan Jacobs reveals the true parameters of Auden's change after the poet's move to America in 1939 By carefully examining poems that represent transitional moments in Auden's thinking Jacobs identifies the points at which the tectonic plates of the poet's intellect clashed and the buckles and rifts created in Auden's work Surveying Auden's growth over time Jacobs explores the idea of personal and moral change Chapters outline Auden's rejection of Romanticism and his adoption of Horatianism and his altered views of political psychological and sexual matters Lastly Jacobs demonstrates the consistent qualities of thought and expression found throughout Auden's poetry and shows how in great art as in great minds change and continuity may powerfully coexist **Charles Olson and American Modernism** Mark Byers, 2018-04-27 This volume situates the work of American poet Charles Olson 1910-1970 at the centre of the early post war American avant garde It shows Olson to have been one of the major advocates and theorists of American modernism in the late 1940s and early 1950s a poet who

responded fully and variously to the political ethical and aesthetic urgencies driving innovation across contemporary American art Reading Olson s work alongside that of contemporaries associated with the New York Schools of painting and music as well as the exiled Frankfurt School the book draws on Olson s published and unpublished writings to establish an original account of early post war American modernism The development of Olson s work is seen to illustrate two primary drivers of formal innovation in the period the evolution of a new model of political action pivoting around the radical individual and relatedly a powerful new critique of instrumental reason and the Enlightenment tradition Drawing on extensive archival research and featuring readings of a wide range of artists including prominently Barnett Newman Mark Rothko David Smith Wolfgang Paalen and John Cage Charles Olson and American Modernism offers a new reading of a major American poet and an original account of the emergence of post war American modernism

I Will Tell No War Stories Howard Mansfield,2024-04-16 When Howard Mansfield grew up World War II was omnipresent and hidden This was also true of his father s time in the Air Force Like most of his generation it was a rule not to talk about what he d experienced in war You re not getting any war stories from me he d say Cleaning up the old family house the year before his father s death Mansfield was surprised to find a short diary of the bombing missions he had flown Some of the missions were harrowing Mansfield began to fill in the details and to be surprised again this time by a history he thought he knew I Will Tell No War Stories is about undoing the forgetting in a family and in a society that has hidden the horrors and cataclysm of a world at war Some part of that forgetting was necessary for the veterans otherwise how could they come home how could they find peace I Will Tell No War Stories is also about learning to live with history a theme Mansfield explored in earlier books like In the Memory House which The New York Times called a wise and beautiful book and The Same Axe Twice said by the Times to be filled with insight and eloquence a brilliant book

Deafening Modernism Rebecca Sanchez,2015-10-02 Deafening Modernism tells the story of modernism from the perspective of Deaf critical insight Working to develop a critical Deaf theory independent of identity based discourse Rebecca Sanchez excavates the intersections between Deaf and modernist studies She traces the ways that Deaf culture history linguistics and literature provide a vital and largely untapped resource for understanding the history of American language politics and the impact that history has had on modernist aesthetic

production Discussing Deaf and disability studies in these unexpected contexts highlights the contributions the field can make to broader discussions of the intersections between images bodies and text Drawing on a range of methodological approaches including literary analysis and history linguistics ethics and queer cultural and film studies Sanchez sheds new light on texts by T S Eliot Ezra Pound Gertrude Stein William Carlos Williams Charlie Chaplin and many others By approaching modernism through the perspective of Deaf and disability studies Deafening Modernism reconceptualizes deafness as a critical modality enabling us to freshly engage topics we thought we knew *Hints and Disguises* Celeste Goodridge, 1989 *The Wounded Surgeon: Confession and Transformation in Six American Poets: The Poetry of Lowell, Bishop, Berryman, Jarrell, Schwartz, and Plath* Adam Kirsch, 2005-04-17 This book reclaims the achievements of six American poets Lowell Bishop Berryman Jarrell Schwartz and Plath by offering critical biographies of the poetry *James Merrill and W.H. Auden* P. Gwiazda, 2007-10-01 James Merrill and W H Auden offers a substantial analysis of the literary and personal relationship between two major twentieth century poets As Gwiazda argues Auden s prominence in the post World War II American poetry scene as a homosexual poet and critic makes his impact on Merrill particularly noteworthy Merrill s imaginary recreation of Auden in his occult verse trilogy *The Changing Light at Sandover* 1982 offers a powerful statement about the dynamics of poetic influence between gay male poets Combining archival research textual analysis and aspects of queer theory James Merrill and W H Auden examines Sandover s implications to the contentious issues of homosexual identity and self representation **John Ashbery and Anglo-American Exchange** Oli Hazzard, 2018-06-13 In 1966 John Ashbery wrote The English language is constantly trying to stave off invasion by the American language it lives in a state of alert which is reflected to some degree in English poetry This book shows how the work of a major post war American poet has been centrally concerned with questions of national identity and intercultural poetic exchange by reading crucial episodes in Ashbery s oeuvre in the context of an other tradition of modern English poets he himself has defined This line runs from the editor of Ashbery s recent *Collected Poems* Mark Ford through Lee Harwood in the late 1960s F T Prince in the 1950s to chronologically the first and therefore most important influence on his own work W H Auden Through detailed close readings of the poetry of Ashbery and these English poets original interviews and extensive archival research a new account of Ashbery s aesthetic and a significant re mapping of post war English poetry is presented The biographical slant of the book is highly significant as it reads these writers poetry and correspondence together for the first time suggesting how major poetic innovations arose from specific social contexts from the particulars of relations between poets and also from a broader climate of Anglo American exchange as registered by each poet The book s presentation of the process of poetic influence is attentive to actual exchanges between contemporaries as evidenced in correspondence as opposed to speculative relationships with dominant figures and as such represents a departure from many other studies of Ashbery s work Key themes include Englishness as a national imaginary the concept of the minor reciprocal influence and the poetry of coteries

The result is that both Ashbery himself and the landscape of post war English poetry are presented in significantly new lights
