Kissinger The Adventures Of Super Kraut:

Kissinger Charles R. Ashman, 1972 **Kissinger** Niall Ferguson, 2016-09-27 From the bestselling author of *The Ascent of Money* and *The Square and the Tower* the definitive biography of Henry Kissinger based on unprecedented access to his private papers Winner of the Council on Foreign Relations Arthur Ross Book Award No American statesman has been as revered or as reviled as Henry Kissinger Once hailed as Super K the indispensable man whose advice has been sought by every president from Kennedy to Obama he has also been hounded by conspiracy theorists scouring his every telcon for evidence of Machiavellian malfeasance Yet as Niall Ferguson shows in this magisterial two volume biography drawing not only on Kissinger's hitherto closed private papers but also on documents from more than a hundred archives around the world the idea of Kissinger as the ruthless arch realist is based on a profound misunderstanding The first half of Kissinger's life is usually skimmed over as a quintessential tale of American ascent the Jewish refugee from Hitler's Germany who made it to the White House But in this first of two volumes Ferguson shows that what Kissinger achieved before his appointment as Richard Nixon's national security adviser was astonishing in its own right Toiling as a teenager in a New York factory he studied indefatigably at night He was drafted into the U S infantry and saw action at the Battle of the Bulge as well as the liberation of a concentration camp but ended his army career interrogating Nazis It was at Harvard that Kissinger found his vocation Having immersed himself in the philosophy of Kant and the diplomacy of Metternich he shot to celebrity by arguing for limited nuclear war Nelson Rockefeller hired him Kennedy called him to Camelot Yet Kissinger's rise was anything but irresistible Dogged by press gaffes and disappointed by Rocky Kissinger seemed stuck until a trip to Vietnam changed everything *The Idealist* is the story of one of the most important strategic thinkers America has ever produced It is also a political Bildungsroman explaining how Dr Strangelove ended up as consigliere to a politician he had always abhorred Like Ferguson's classic two volume history of the House of Rothschild Kissinger sheds dazzling new light on an entire era The essential account of an extraordinary life it recasts the Cold War world **Kissinger, Angola and US-African Foreign Policy** Steven O'Sullivan, 2019-07-25 Analysing US foreign policy towards Angola during the Ford administration this book provides an intriguing insight into one of the most avoidable and unfortunate episodes in Cold War history and explores the impact on Henry Kissinger's much vaunted reputation for being guided by realist principles Kissinger has dominated political discourse and scholarship on US foreign policy since the 1970s but although his legacy continues to generate controversy little attention has been paid to the influence of Vietnam's collapse on the US decision to covertly intervene in the Angolan civil war This book argues that Kissinger's concern for personal reputation and US credibility following the collapse of Vietnam led to a harmful and unrealistic policy toward Angola Exposure of US covert intervention exacerbated domestic and international political tensions and the subsequent showdown between the executive and legislative branches ironically resulted in Kissinger proclaiming a new departure in US African relations Thus it is argued that Kissinger was an

unintentional realist rather than an intellectual proponent of realpolitik Enhancing our understanding of Kissinger his relationship with his subordinates and with Congress and his approach to foreign policy this book will be of interest to scholars of Cold War history US foreign policy and all those fascinated by the personality of Henry Kissinger **The Kissinger Experience** Gil Carl AlRoy,1975 Kissinger, the Incomplete Diplomat M.
