*Later Stone Implements* Michael W. Pitts, 1980      *The Ancient Stone Implements, Weapons and Ornaments of Great Britain* John Evans, 1897      *Convergent Evolution in Stone-Tool Technology* Michael J. O'Brien, Briggs Buchanan, Metin I. Eren, 2024-05-21 Scholars from a variety of disciplines consider cases of convergence in lithic technology when functional or developmental constraints result in similar forms in independent lineages Hominins began using stone tools at least 2.6 million years ago perhaps even 3.4 million years ago Given the nearly ubiquitous use of stone tools by humans and their ancestors the study of lithic technology offers an important line of inquiry into questions of evolution and behavior This book examines convergence in stone tool making cases in which functional or developmental constraints result in similar forms in independent lineages Identifying examples of convergence and distinguishing convergence from divergence refutes hypotheses that suggest physical or cultural connection between far flung prehistoric toolmakers Employing phylogenetic analysis and stone tool replication the contributors show that similarity of tools can be caused by such common constraints as the fracture properties of stone or adaptive challenges rather than such unlikely phenomena as migration of toolmakers over an Arctic ice shelf Contributors R Alexander Bentley Briggs Buchanan Marcelo Cardillo Mathieu Charbonneau Judith Charlin Chris Clarkson Loren G Davis Metin I Eren Peter Hiscock Thomas A Jennings Steven L Kuhn Daniel E Lieberman George R McGhee Alex Mackay Michael J O'Brien Charlotte D Pevny Ceri Shipton Ashley M Smallwood Heather Smith Jayne Wilkins Samuel C Willis Nicolas Zayns      **Prehistoric Stone Tools of Eastern Africa** John J. **Stone Tools in Transition: From Hunter-Gatherers to Farming Societies in the Near East** Borrell, Ferran, Ibáñez, Juan José, Molist, Miquel, 2013 This volume compiles the papers presented at the seventh edition of the Conference on PPN Chipped and Ground Stone Industries of the Fertile Crescent held in Barcelona from 14 to 17 February 2012 This series of conferences workshops started nineteen years ago the first meeting was organised in Berlin in 1993 and is devoted to the study of the lithic record in the Pre Pottery Neolithic of the Near East and neighbouring regions The seventh of these conferences was organised by the Instituci Mil i Fontanals Consejo Superior de Investigaciones Científicas and the Prehistory Department Universitat Autònoma de Barcelona This volume includes a total number of 36 articles covering a wide range of topics and disciplines related to lithic studies in the Levant over a long chronological time span from the final stages of the Epipalaeolithic Natufian to the Halaf period The publication of the conference proceedings is thus an interesting synthesis of the current state of lithic studies on the Pre Pottery Neolithic of the Near East and consolidates this specific series of conferences as a key tool to maintain and stimulate the vitality of high quality research into the Near Eastern lithic record

antiquarian and polymath lived in Guernsey in the Channel Islands from 1788 1871 This book is the result of many years research on his archive held at Guernsey Museum and draws heavily on the material therein highlighting it to both the general reader and the academic world It includes an initial look at the history of antiquarianism and the development of archaeology as a discipline with particular reference to the nineteenth century The development of archaeological study in

Guernsey and the development of the museum service are documented alongside a biography of Lukis's life in the context in which he grew up. The book includes several illustrations from the museum collections and although the content is based on research it is suitable for readers with an interest in the history of archaeology, museum collections and antiquarianism. This is widely recognized as a growing area of interest in heritage studies. *Modern Rationalism* Joseph McCabe, 1909
