Later The Same Day:

Later the Same Day Grace Paley, 2014-10-07 Grace Paley's stature among writers of short fiction was established by her first collection *The Little Disturbances of Man* 1959 and reconfirmed with the publication of *Enormous Changes at the Last Minute* in 1974 This new book a selection from her work over the past ten years is appropriately titled *Later the Same Day* Paley's concerns or themes have changed only as much as life's constants change with the passage of time Those characters familiar to readers of her previous volumes have grown older but are still deeply involved with their parents their lovers and friends and their children the past present and future and the welfare of the wider community We meet the neighborhood druggist with his tale of familiar heartbreak and small time bigotry Zagrowsky Tells a willful father in Puerto Rico who cannot accept the obvious loss of his child by kidnapping In the Garden a black woman who mourns the fact that her daughter born in good cheer has become only busy and broad Lavinia An Old Story a visitor from China whose concern is about the children how to raise them The Expensive Moment a craftsman whose beautiful creation is stillborn This is a Story about My Friend George the Toy Inventor The seventeen stories in *Later the Same Day* are marked by Paley's low keyed humor her rich but economical use of language and her seemingly endless capacity for empathy Their substance the persistence of human and political concerns despite practical pressures subtly overwhelms less important matters *The Darien Chronicles: Objects for Reflection, a Journey into Love* Steven Howard, 2016-06-10 Take a journey with Darien and his spirit guide Sundeep from pre birth into the after life In *The Darien Chronicles Object for Reflection A Journey into Love Part One* In the Beginning walk with him as he leaves behind vague recollections of being a cast off and develops his rules for survival in the drama of an adoptive family where secrets thrive Be with him as he struggles to separate truth from fiction and find his own soul Is Sundeep real or imaginary Is Darien who he is seen to be or is there more to who he is Who can he trust The appearance of things suggests no one as he cautiously formulates a plan to fit in and be accepted Circumstances bring Darien a four year old boy into a working class family that includes an older boy whose friend causes him to question himself and shakes his very foundation as a boy wanting desperately to become a man Being a bastard boy and child of a trollop Darien finds refuge and a reflection of who he is in his secret friend Sundeep But does he believe what he hears Or do the other influences and experiences he encounters speak louder to him Find out Perhaps you'll even find yourself in this story And this is just the beginning *Under Construction* Freek Colombijn, 2013-11-29 Freek Colombijn examines the social changes in Indonesian cities during the process of decolonization That process had major repercussions for urban society These social changes are studied from the angle of urban space in general and the provision of housing in particular This provides fresh insight into how people experienced decolonization The author challenges the idea that a shift from ethnic to class differences was the overriding social change during decolonization He argues instead that class differences had already formed the predominant dividing lines in colonial urban society Colombijn also focuses on the shifting balance of power

between the main agents in the urban arena Through the use of hitherto unused historical sources the book presents a wealth of new data about the Indonesian city and the decolonization process Published in cooperation with the Netherlands Institute of War Documentation NIOD Originally published with imprint KITLV ISBN 9789067182911 *Rehabilitation Research - E-Book* Catherine H. Rigby, 1995-05-10 What was the social structure of England in the period 1200 to 1500 What were the basic forms of social inequality To what extent did such divisions generate social conflict How significantly did English society change during this period and what were the causes of social change Is it useful to see medieval social structure in terms of the theories and concepts produced within the medieval period itself What does modern social theory have to offer the historian seeking to understand English society in the later middle ages These are the questions which this

book seeks to answer Beginning with an analysis of class structure of medieval England Part One of this book asks to what extent class conflict was inherent within class relations and discusses the contrasting successes and outcomes of such conflict in town and country Part Two of the book examines to what extent such class divisions interacted with other forms of social inequality such as those between orders nobility and clergy between men and women and those arising from membership of a status group the Jews Dr Rigby's discussion of medieval English society is located within the context of recent historical and sociological debates about the nature of social stratification and using the work of social theorists such as Parkin and Runciman offers a synthesis of the Marxist and Weberian approaches to social structure The book should be extremely useful to those undergraduates beginning their studies of medieval England whilst in offering a new interpretative framework within which to examine social structure also interesting those historians who are more familiar with this period
