**A History of Old Norse Poetry and Poetics** Margaret Clunies Ross, 2005 This is the first book in English to deal with the twin subjects of Old Norse poetry and the various vernacular treatises on native poetry that were a conspicuous feature of medieval intellectual life in Iceland and the Orkneys from the mid twelfth to the fourteenth centuries Its aim is to give a clear description of the rich poetic tradition of early Scandinavia particularly in Iceland where it reached its zenith and to demonstrate the social contexts that favoured poetic composition from the oral societies of the early Viking Age in Norway and its colonies to the devout compositions of literate Christian clerics in fourteenth century Iceland The author analyses the two dominant poetic modes eddic and skaldic giving fresh examples of their various styles and subjects looks at the prose contexts in which most Old Norse poetry has been preserved and discusses problems of interpretation that arise because of the poetry's mode of transmission She is concerned throughout to link indigenous theory with practice beginning with the pre Christian ideology of poets as favoured by the god *dinn* and concluding with the Christian notion that a plain style best conveys the poet's message Margaret Clunies Ross is McCaughey Professor of English Language and Early English Literature and Director of the Centre for Medieval Studies at the University of Sydney

The Liturgy of the Medieval Church Thomas Heffernan, E Ann Matter, 2005-04-01 This volume seeks to address the needs

of teachers and advanced students who are preparing classes on the Middle Ages or who find themselves confounded in their studies by reference to the various liturgies that were fundamental to the lives of medieval peoples In a series of essays scholars of the liturgy examine The Shape of the Liturgical Year Particular Liturgies The Physical Setting of the Liturgy The Liturgy and Books and Liturgy and the Arts A concluding essay which originated in notes left behind by the late C Clifford Flanigan seeks to open the field to examine liturgy within the larger and more inclusive category of ritual The essays are intended to be introductory but to provide the basic facts and the essential bibliography for further study They approach particular problems assuming a knowledge of medieval Europe but little expertise in liturgical studies per se

Transforming Talk Susan E. Phillips, 2011-04-01 In recent decades scholars have shown an increasing interest in gossip's social psychological and literary functions The first book length study of medieval gossip Transforming Talk shifts the current debate and argues that gossip functions primarily as a transformative discourse influencing not only social interactions but also literary and religious practices Known as jangling in Middle English gossip was believed to corrupt parishioners disturb the peace and cause civil and spiritual unrest But gossip was also a productive cultural force it reconfigured pastoral practice catalyzed narrative experimentation and restructured social and familial relationships Transforming Talk will appeal to a diverse audience including scholars interested in late medieval culture religion and society Chaucer and women in the Middle Ages Medieval and Renaissance Scholarship Nicholas Mann, Birger Munk Olsen, 1997 This volume contains the expanded papers of a workshop held at the Warburg Institute in November 1992 on classical scholarship and in particular on textual criticism commentaries and glosses and questions of attribution The volume concludes with a comprehensive bibliography which makes it an essential tool for anyone interested in the subject The Death of the Troubadour Gregory B. Stone, 2016-11-11 The Death of the Troubadour offers new insight into the emergence of the autonomous self which has often been taken as a marker of the end of the Middle Ages and the beginning of the Renaissance Gregory B Stone argues that the anonymity of late medieval texts and specifically of the troubadour song is not a sign of naiveté but rather that of a mature deliberate resistance to the advent of individualism Moreover this anonymity reveals that medieval lyric with a melancholy knowledge of the inevitable triumph of the specific over the general of private over public subjectivity lurks at the heart of narrative ready to wield a retributive violence Through a series of detailed readings of a colorful selection of texts which mourn the death of the troubadour including old French *lais* old Provençal *vidas* and *razos* Italian novella and Chaucer's *Book of the Duchess* Stone locates various strategies of resistance to bourgeois individualism and to the emerging notion that literature is the realistic mimesis of historical fact He offers brief narratives recounting the biographies of specifically identified troubadour poets and the events that led those individuals to compose specific verses for individual ladies This narrative birth of the individual is indeed the death of the troubadour The Death of the Troubadour will interest students and scholars of medieval and Renaissance literature and of literary theory
