The Literacy Gaps Ivannia Soto-Hinman,June Hetzel,2009-08-11 The book makes a contribution to the education of English language learners It provides practical instructional suggestions for teachers of both ELLs and SELs that are informed by a deep understanding of theories of second language and second dialect acquisition and the development of reading and writing proficiencies Guadalupe Vald s Professor of Education Stanford University The concepts of gaps and bridges are clearly articulated up front and provide a well structured theme that unites the various parts of the text The use of this structure provides a logical and coherent mechanism for providing a complete picture of the problem the literacy gap between ELs and native speakers and a means for addressing this problem Kristina Anstrom Senior Research Scientist The George Washington University Center for Equity and Excellence in Education Build bridges of support so English language learners can learn alongside their peers English language learners ELLs and standard English learners SELs face multiple gaps as they strive to achieve so educators need to take a holistic comprehensive approach to bridge those gaps and meet the needs of ELLs and SELs in the classroom Based on an original well researched framework this much needed resource provides practical strategies for supporting learning and success for ELLs The authors provide strategies examples and classroom tools to address The gap between students and texts covering word recognition background knowledge

comprehension and academic language development The gap between students and teachers including socio cultural differences between teachers and students and teacher perceptions and expectations The gap between students and their peers discussing language proficiency differences grouping strategies and grade level and schoolwide programs The Literacy Gaps helps educators give ELLs the skills they need to close the most important gap of all the achievement gap

National Evaluation of the Even Start Family Literacy Program, 1995 Building the Reading Brain, PreK-3 Pat Wolfe, Pamela Nevills, 2004-04-19 The brain is hard wired for spoken language but not for reading Yet reading skills serve as the primary foundation of all school based learning and research indicates that a student s future academic success can be predicted by his or her reading level at the end of third grade With this latest resource authors Patricia Wolfe and Pamela Nevills provide insight and assistance for preschool teachers parents and care providers and nursery and primary teachers by explaining the development of the young brain the acquisition of language as preparation for reading and the nurturing and instruction process from birth to age eight This unique guide demonstrates how the brain of a child masters the reading process of decoding print and reading with fluency and comprehension and addresses related literacy skills of writing and spelling Brain friendly strategies that lay the groundwork for reading success include activities to support phonemic awareness phonics vocabulary comprehension and fluency applications of games music play and instruction intervention suggestions for children who are challenged or discouraged early readers

The Education Triple Cocktail Brahm Fleisch, 2018-08-15 The Education Triple Cocktail brings together rigorous quantitative and qualitative research on a new approach to improving foundational teaching and learning for schoolchildren living in working class poor and remote rural communities in resource constrained systems like South Africa At the core of this book is the theory and evidence for a powerful new interlocking and mutually reinforcing change model Inspired by the AIDS treatment story the three pronged approach of structured daily lesson plans appropriate and high quality educational materials and one on one instructional coaching to help teachers transform their instructional practices in early grade classrooms shows that it will improve learning outcomes For education systems defined by low levels of early grade learning and profoundly unequal outcomes The Education Triple Cocktail offers a theoretically informed evidence based way forward This book will be of immense use to teachers students of Education policymakers and parents

Addressing Diversity in Literacy Instruction Evan Ortlieb, Earl H. Cheek Jr, 2017-11-16 This edited volume highlights recent research related to how issues of diversity are addressed within literacy instruction for K 12 learners

Getting Evidence into Education Stephen Gorard, 2020-03-31 Worldwide there has been considerable progress in the quality of research evidence generated for use in education but not the equivalent growth in knowledge of how best to get this evidence into actual use Yet with far reaching implications all of education is damaged when persuasive but poor quality evidence has widespread influence or good research lies unused Focused on the work of the Durham University Evidence Centre for Education Getting Evidence into Education addresses this problem examining what can be

done to improve the take up of suitable research evidence and inform the public service of education Containing a variety of case studies from evidence based policies for early childhood education in Brazil to the use of evidence on contextualized admissions to Scottish universities the volume explores a variety of different ways to approach the problem addressing the questions What is the existing evidence on different approaches to getting research evidence into use What are the factors which influence the uptake of high quality research evidence by policy or practice Which are the most effective pathways for evidence into use in particular contexts Considering both the practical and ethical implications the book builds towards key recommendations for the research community practitioner bodies and policy makers and advisors directing them on how to communicate better with each other for the benefit of everyone

Misinformation Studies and Higher Education in the Postdigital Era Paul Cook,2024-12-15 In Misinformation Studies and Higher Education in the Postdigital Era Beyond Fake News Paul Cook argues that the epistemological complexity of the postdigital age demands a new metadisciplinary approach to information and media misinformation studies Cook posits that institutions of higher education can work toward regaining the public s trust and reinvigorating general education programs by developing a metadiscipline that directly addresses the problem of misinformation in all its various and dangerous forms This book outlines how such a curricular pivot may be accomplished in an age saturated with generative AI algorithmic manipulation ubiquitous networked computing and information overload coupled with the myriad challenges higher education faces from seemingly all sides Ultimately this book makes a compelling case that universities and colleges can instead harness the fragmentation caused by this perfect storm currently facing higher education so they can not only weather the crisis but also emerge stronger because of it
